Refusing Racism White Allies And The Struggle For Civil Rights:

Refusing Racism Cynthia Stokes Brown, 2002-04-12 Why and how have whites joined people of colour to fight against white supremacy in the United States What have they risked and what have they gained For anyone who has wondered about the character motivations and contributions of white civil rights activists Refusing Racism offers rich portraits of four contemporary white American activists who have dedicated their lives to the struggle for civil rights Drawing heavily on interviews and memoirs this volume offers honest accounts of their thoughts and experiences and shows how their commitments are central to our ongoing history Meet the White Allies Virginia Foster Durr J Waties Waring Anne McCarty Braden and Herbert R Kohl *White Allies in the Struggle for Racial Justice* Boyd Drick , 2015-10-23 **Civil Rights in the Gateway to the South** Tracy E. K'Meyer, 2009-05-22 A noted civil rights historian examines Louisville as a cultural border city where the black freedom struggle combined northern and southern tactics Situated on the banks of the Ohio River Louisville Kentucky represents a cultural and geographical intersection of North and South This border identity has shaped the city's race relations throughout its history Louisville's black citizens did not face entrenched restrictions against voting and civic engagement yet the city still bore the marks of Jim Crow segregation in public accommodations In response to Louisville's unique blend of racial problems activists employed northern models of voter mobilization and lobbying as well as methods of civil disobedience usually seen in the South They also crossed traditional barriers between the movements for racial and economic justice to unite in common action In Civil Rights in the Gateway to the South Tracy E K Meyer provides a groundbreaking analysis of Louisville's uniquely hybrid approach to the civil rights movement Defining a border as a space where historical patterns and social concerns overlap K Meyer argues that broad coalitions of Louisvillians waged long term interconnected battles for social justice The definitive book on the city's civil rights history Louisville Courier Journal

Developing Social Justice Allies Robert D. Reason, Ellen M. Broido, Tracy Davis, Nancy J. Evans, 2011-10-04 The fiftieth anniversary of the Brown v Board of Education decision 1954 called us as student affairs professionals to reconsider and reaffirm our commitment to social justice This issue is a call to action to student affairs professionals who are working as social justice allies those with a commitment to make their college campuses a place where all community members are respected validated and fostered in developing their full potential This issue encourages the development of ally attitudes and action in both students and student affairs colleagues It first presents the conceptual foundation for social justice ally development and then covers in depth the strategies for the development of social justice behaviors in specific dominant group members In each case we have intentionally enlisted voices of authors who identify with the dominant and target groups on which the chapter focuses This is the 110th volume of the Jossey Bass higher education quarterly report series New Directions for Student Services An indispensable resource for vice presidents of student affairs deans of students student counselors and other student services professionals New Directions for Student Services offers guidelines and

programs for aiding students in their total development emotional social physical and intellectual *Damned Whiteness* David F. Evans, 2025-10-28 The memory of the long civil rights movement often celebrates white men and women who drew on their religious faith to support Black demands for racial justice However the visions and actions of these leaders and their organizations often conflicted with those of Black leadership While Black activists fought for a broad vision of freedom white allies focused more narrowly on cultivating interracial friendship marching in parallel to Black movement leaders rather than alongside them *Damned Whiteness* offers an unflinching history of white led efforts at interracial organizing gone astray Considering the examples of Dorothy Day cofounder of the Catholic Worker Movement Clarence Jordan spiritual father of Habitat for Humanity and Ralph Templin a Christian missionary who studied nonviolence in Gandhi's India David F Evans reveals how religious white progressives inherited strategies that remained disconnected from the ideas and actions of Black communities These disconnects have often been cloaked as disagreements over religious doctrine and practice but Evans reveals how they stem from refusals to acknowledge Black leaders philosophies and freedom dreams Though these patterns persist Evans offers a way out of this legacy of white allyship and into a future where freedom is possible Taboo, 2004

American Civil Rights Movement 1865-1950 Russell Brooker, 2016-12-07 The American Civil Rights Movement 1865 1950 is a history of the African American struggle for freedom and equality from the end of the Civil War to the beginning of the Civil Rights Movement in the 1950s and 1960s It synthesizes the disparate black movements explaining consistent themes and controversies during those years The main focus is on the black activists who led the movement and the white people who supported them The principal theme is that African American agency propelled the progress and that whites often helped Even whites who were not sympathetic to black demands were useful often because it was to their advantage to act as black allies Even white opponents could be coerced into cooperation or at least non opposition White people of good will with shallow understanding were frustrating but they were sometimes useful Even if they did not work for black rights they did not work against them and sometimes helped because they had no better options Until now the history of the African American movement from 1865 to 1950 has not been covered as one coherent story There have been many histories of African Americans that have treated the subject in one chapter or part of a chapter and several excellent books have concentrated on a specific time period such as Reconstruction or World War II Other books have focused on one aspect of the time such as lynching or the nature of Jim Crow This is the first book to synthesize the history of the movement in a coherent whole **From Discrimination to Inclusion** Ruth Chu-Lien Chao, 2024-11-25 Racial discrimination in America has deep
