Gender Violence in Ecofeminist Perspective Gwen Hunnicutt, 2019-09-23 This book aims to begin an eco centered eco feminist informed discussion about the ways in which our relationship to nature is bound up with gender patriarchy and violence Ecofeminist scholars study the interconnections between gendered relationships of domination among humans between humans and between humans nonhumans and the earth It is in this ideological and structural tangle between humans and the environment that a deeper understanding of gender violence is possible Ecofeminism offers

analytical possibilities for understanding a logic of domination which sustain a whole host of problems including the interrelated oppressions of gender violence and exploitation of the more than human life world In this book Gwen Hunnicutt brings into dialog ecofeminism and gender violence Ideological components such as speciesism and the belief that the earth and its nonhuman inhabitants are ours to exploit inform a host of other social practices including interpersonal violence A portion of this book is devoted to exploring the ways in which patriarchy is foregrounded by another hierarchy human domination over nature Thus gender violence stems from a logic of domination that is built on the domination of nature and the domination of the Other as nature As this blueprint of oppression repeats itself where there are vectors of difference the chapters ultimately connect these oppressions by showing the inextricable bind of violence against humans and the more than human life world This book will serve as a resource for scholars activists and students in sociology gender violence and interdisciplinary violence studies critical animal studies environmental studies and feminist and ecofeminist studies

Canine Condition Alex Vardamis,2006-11 As we join the mongrel Dingus on his search for Seaman Scannon the legendary Newfoundland dog who led the Lewis and Clark Expedition across the continent we meet the dogs of Hemingway Steinbeck Gertrude Stein O'Neill and other celebrated American writers Immensely readable often hilarious this is true sustenance for the mature dog lover and the lover of literature

The Rodeo and Hollywood Jim Ryan,2024-10-17 At rodeos in the 1940s Gene Autry sang and jumped his horse Champion through a flaming hoop In 1960s rodeo arenas Lorne Greene and Dan Blocker acted out a skit from their hit television show Bonanza In the same era familiar rodeo personalities like Hoot Gibson and Slim Pickens could be seen in movies or television shows This book profiles performers who crossed over between film studio and rodeo arena when Hollywood and the rodeo circuit were closely linked The first part traces the careers of rodeo participants who also contributed to film or television The next two sections describe rodeo appearances of Western screen stars who entertained at rodeos Some appeared solo and others with a television co star or two A fourth section summarizes rodeo related films Appendices introduce golden age rodeo personalities and outline rodeos known for presenting Western stars

Extraordinary Sportswomen Susanna Hedenborg, Gertrud Pfister,2019-10-23 As in many other fields in sports too women were latecomers and considered as the other sex at least until the twenty first century When sport developed in its modern forms towards the second half of the nineteenth century women were and to a certain degree still are considered too weak to participate in strenuous physical activities and were thus excluded from various sports competitions and events Although they gradually gained access to all sports competitive sport was and is still today one of the few areas in modern societies with strict gender segregation in most sports men do not compete against women and playing sport is always doing gender Yet in many epochs and in many regions of the world there were female rebels who did not comply with the ideals norms and rules that contributed to women's marginalization Who were these women what were their aims and motivations which strategies did they apply and how did they fight and win their battles against the gender order of their time The

*Black Rodeo in the Texas Gulf Coast Region* Demetrius W. Pearson, 2021-05-11 *Black Rodeo in the Texas Gulf Coast Region* Charcoal in the Ashes provides an in depth sociocultural and historical analysis of the genesis and contemporary state of affairs regarding African American rodeo cowboys in southeast Texas whose ancestors were instrumental in the development of the most celebrated livestock management industry in the world The author painstakingly chronicles the origin of the Texas cattle industry from its Mexican roots to Austin's Colony better known as the George Plantation Ranch where African Americans were intimately involved in the livestock management industry since its inception Although enslaved before during and after the Republic of Texas was established they were early stakeholders in the expansion of the western frontier and an indispensable source of labor that facilitated the burgeoning cattle industry Yet as the author maintains American history wantonly trivialized marginalized and blatantly omitted their contributions This book sheds light on these early cowboys and their descendants who have participated in America's most prominent prole sport with little to no media exposure The author dubbed them Shadow Riders of the Subterranean Circuit and even though American sports are integrated African American rodeo cowboys may be metaphorically seen as bits of charcoal spread among ashes
