

An aerial night photograph of the London 2012 Olympic Stadium, also known as the 'The Dome'. The stadium's distinctive, translucent, ribbed roof is illuminated with a warm orange-red glow. It is situated on the banks of the River Thames, with the city's lights and bridges visible in the background. The foreground shows some construction activity and surrounding urban development.

## **Regeneration The Story Of The Dome:**

**Regeneration Story of the Dome** Adam Nicolson, 1989-01 Adam Nicolson's book is a fascinating picture of the spirit of Britain in the new millennium coupled with a biography of the Dome and an analysis of the political background to its creation. The inside story of Britain's first grand project since the 1940s is a picture of vision and idealism, muddle and uncertainty, and of a journey deeply unfamiliar to the political elite and the people. *Cultural Capital* Robert Hewison, 2014-11-11 Britain began the twenty-first century convinced of its creativity. Throughout the New Labour era, the visual and performing arts, museums and galleries were ceaselessly promoted as a stimulus to national economic revival, a post-industrial revolution where spending on culture would solve everything from national decline to crime. Tony Blair heralded it a golden age. Yet despite huge investment, the audience for the arts remained a privileged minority. So what went wrong? In *Cultural Capital*, leading historian Robert Hewison gives an in-depth account of how creative Britain lost its way. From Cool Britannia and the Millennium Dome to the Olympics and beyond, he shows how culture became a commodity and how target-obsessed managerialism stifled creativity. In response to the failures of New Labour and the austerity measures of the Coalition government, Hewison argues for a new relationship between politics and the arts. **Pariah** Tom Nairn, 2002-09-17 When political victories are based on a fraction of the electoral register, *Pariah* looks like the only way towards reform. **Cultural Analysis** Jim McGuigan, 2009-09-26 Jim McGuigan has done it again. The complex cultural machinery, hiding behind the apparently simple facts of life, still fresh in our collective memory, has been pulled out from its hiding, exposed, disassembled, and put together again, and showed in action of shaping up its products, all that done to the benefit of us all simultaneously, producers and product of the life we share. Another great contribution to cultural studies and to our understanding of the world, notorious for defying escaping understanding. This is exactly what we need: cultural analysis. For Professor Zygmunt Bauman, Emeritus Professor of Sociology, University of Leeds, Jim McGuigan is one of cultural studies' leading practitioners. This volume is a generous and wide-reaching exploration of how to use cultural theory to explore a wide variety of topics brought together under the sign of the struggle for a vigorous participatory public sphere. Toby Miller, University of California. This book represents a distinctive approach to cultural analysis using multi-dimensional methods for addressing issues of public interest. Stressing the impact of both neoliberalism and the formation of a cool capitalist culture that has colonised everyday life around much of the globe, Jim McGuigan deploys his original concept of the cultural public sphere within several carefully analysed case studies, including celebrity death festivals and urban regeneration, race and multicultural controversy, popular television, social significance of the all-purpose mobile communication device in a privatised and individualised way of life, riskiness and uncertainty in the creative and media industries. This is a radical intervention in the research agendas and conceptual development of cultural policy studies, cultural sociology, and more generally in the broad field known as cultural studies. It offers challenging theoretical arguments.

that are substantiated with concrete evidence of cultural and social processes *Rethinking Cultural Policy* Jim McGuigan, 2004-03-16 a fascinating thorough and expertly argued discussion of the modes and practices of cultural policy in an increasingly globalized and neoliberal world *European Journal of Communication* *Rethinking Cultural Policy* addresses issues concerning culture economy and power in the age of new liberal globalization It examines how public cultural policies have been rationalized in the past and how they are being rethought Arguing that the study of culture and policy should not be confined to prevailing governmental agendas the book offers a distinctive and independent analysis of cultural policy The book examines a wide range of issues in cultural policy and blends a close reading of key theories with case studies Topics covered include Branding culture and exploitation The state market and civil society How visitor attractions such as London's Millennium Dome are used for national aggrandizement and corporate business purposes Cultural development diversity and ecological tourism in poorer parts of the world This is the ideal introduction to contemporary cultural policy for undergraduate students in culture and media studies sociology of culture politics arts administration and cultural management courses as well as postgraduates and researchers *Relocating Britishness* Stephen Caunce, 2004-11-27 Offering a range of original perspectives on how Britishness might be constructed at the turn of the millennium and where it might be going this volume pulls together various disciplines and a variety of geographical perspectives to offer a distinctive set of views for the understanding of Britishness and how it is expressed *The Historian*, 2001 **Country Life**, 1999

**Missing the Point** John Elsom, 2007 A challenging and timely examination of the philosophical and ideological assumptions that underlie modern Western culture and politics **RIBA Journal**, 2000 **Media in the Age of Marketization** Graham Murdock, Janet Wasko, 2007 This book explores the notion that the push toward marketization is the central force currently restructuring the communications landscape and examines the consequences of this development for the constitution of public culture The contributors analyze the core institutional processes of marketization and assess their impact on the structure and operations of media and communication systems around the world over the last two decades The chapters are organized over four key themes consolidation incorporation globalization and resistance *Britain at the Polls*, 2001 Anthony King, 2002 Finally voter turnout in 2001 was at a record low and this fact alone marks out the 2001 election from every other general election since the war *Book Review Index*, 2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index *Servants of the People* Andrew Rawnsley, 2001-07-16 Downing Street is said to be furious at this book and it is easy to understand why It is the first meticulous chronicle of all that has happened since that bright May Day three years ago which first brought the Blair government to office Anthony Howard *Sunday Times* **Book Review Digest**, 1928 *The Story of the Life of Mackay of Uganda* Alexina Mackay Harrison, 1895 **Widespan Roof Structures** Michael Barnes, Michael Dickson, 2000 Presents world thinking on the design and construction of large covered spaces This book aims to offer insights into many of the innovative construction design projects It explores the advances within stressed
