Sailing On Friday The Perilous Voyage Of Americas Merchant Marine:

Sailing On Friday John A. Butler,2000-03-01 Recounts the colorful history of the U S merchant fleet in times of war peace from 1776 to the present Twice in U S history the American maritime fleet grew to become the most powerful in the world only to decline thereafter This is a tale of operatic dimension peopled with patriots politicians industrial geniuses fearless seamen gallant swashbucklers Includes accounts of little noted innovations that had long lasting effects daring ocean rescues sea battles financial gambles that won or lost fortunes Growing stress among diverse forces of merchants shipowners seafarers federal agencies brings this exciting story to an appalling climax The single best one volume source available on this neglected aspect of U S history Illustrations *The Ghost Ships of Archangel* William Geroux,2022-05-03 An extraordinary story of survival and alliance during World War II the icy journey of four Allied ships crossing the Arctic to deliver much needed supplies to the Soviet war effort On the fourth of July 1942 four Allied ships traversing the Arctic split from their decimated convoy to head further north into the ice field of the North Pole They were seeking safety from Nazi bombers and U boats in the perilous white maze of ice floes growlers and giant bergs Despite the many risks of their chosen route the four vessels had a better chance of reaching their destination than the rest of the remains of convoy PQ 17 The convoy had started as a fleet of thirty five cargo ships carrying 1 billion worth of war supplies to the Soviet port of Archangel the only help Roosevelt and Churchill had extended to Joseph Stalin to maintain their fragile alliance against Germany At the most dangerous point of the voyage the ships had received a startling order to scatter and had quickly become easy prey for the Nazis The crews of the four ships focused on their mission U S Navy Ensign Howard Carraway aboard the SS Troubadour was a farm boy from South Carolina and one of the many Americans for whom the convoy was a first taste of war from the Royal Navy Reserve Lt Leo Gradwell was given command of the HMT Ayrshire a British fishing trawler that had been converted into an antisubmarine vessel The twenty four hour Arctic daylight in midsummer gave them no respite from bombers or submarines and they all feared the giant German battleship Tirpitz nicknamed the Big Bad Wolf Icebergs were as dangerous as Nazis as the remnants of convoy PQ 17 tried to slip through the Arctic to deliver their cargo in one of the most dramatic escapes of World War II At Archangel they found a traumatized starving city and a disturbing preview of the Cold War ahead *The Communist Party on the American Waterfront* Vernon L. Pedersen,2019-12-20 In the early years of the Great Depression the Marine Workers Industrial Union MWIU was a colorful presence on the American Waterfront In 1935 the MWIU seemed to vanish closing its halls and stopping its publications Vernon L Pedersen convincingly demonstrates that the MWIU did not vanish instead it was ordered by the Moscow based Communist International to send its members into mainstream ALF unions and take over from the inside Initiated by accident on the west coast and deliberately duplicated in the east the Communists seized control of the west coast longshoremen s union destroyed the International Seamen s Union and created the Communist dominated National Maritime Union *Bluejackets in the Blubber Room* Peter Kurtz,2013-01-10

Explores key events in US maritime history from the 1820s to the end of the Civil War through the biography of the sailing ship William Badger Taking a biographical approach to his subject Peter Kurtz describes three phases of the life of the William Badger a sailing ship with a long and exemplary life on the sea first as a merchant ship carrying raw materials and goods between New England the US South and Europe second as a whaling ship and finally as a supply ship providing coal and stores for the North Atlantic Blockading Squadron in Beaufort North Carolina during the Civil War Kurtz begins Bluejackets in the Blubber Room by exploring early American shipbuilding and shipbuilders in the Piscataqua region of Maine and New Hampshire and the kinds of raw materials harvested and used in making the wooden sailing ships of the time After its construction the Badger became part of the key economic trade between New England the US South and Europe The ship carried raw materials such as timber from New England to New Orleans and subsequently cotton from New Orleans to Spain and Liverpool England Using ship logs sailors accounts and other primary sources Kurtz delves into both the people and the economics of this critical cotton triangle trade Following service as a merchant ship the Badger became a whaling ship carrying its New England based crew as far as the South Pacific Kurtz presents a colorful story of life aboard a whaling ship and in the whaling towns ranging from Lynn Massachusetts to Cape Leeuwin Australia Finally Kurtz describes the last phase of the Badger s life as a key player as a supply ship in the Union Navy s blockade effort Although not the most dramatic duty a sailor could have blockade supply nevertheless was critical to the United States prosecution of the Civil War and eventual victory Kurtz examines the decision making involved in procuring such ships and their crew notably refugees and escaped slaves known as contrabands **Neptune's Car - An American Legend** Paul W Simpson,2017-05-04

Smashing her way through enormous cross seas and howling winds the Neptune s Car began to run her easting down She passed a battered barque bearing Hamburg markings vainly attempting to make westing against a thundering south westerly gale Those with an interest in American maritime history would know of the story of Mary Patten and the clipper ship Neptune s Car However few would be aware of the cursed nature of the ship The Patten s fateful voyage was just one in the career of a clipper whose travels spanned the globe Built at the yard of Page Allen in Gosport Virginia in the spring of 1853 the Neptune s Car quickly established her reputation for speed However murder mutiny mayhem plague disaster war death and financial ruin haunted any who know her The fickle hand of fate was always at the helm and like the oceans upon which the clipper sailed she spared none who showed weakness Volume One of the Virginia Clippers **The Way of the Ship** Alex Roland,W. Jeffrey Bolster,Alexander Keyssar,2008 The Way of the Ship offers a global perspective and considers both oceanic shipping and domestics shipping along America s coasts and inland waterways with explanations of the forces that influenced the way of the ship The result is an eye opening authoritative look at American maritime history and the ways it helped shape the nation s history **BOOK JACKET** *The Republic Afloat* Matthew Taylor Raffety,2024-05-31 In the years before the Civil War many Americans saw the sea as a world apart an often violent and insular culture governed by its own definitions of

honor and ruled by its own authorities The truth however is that legal cases that originated at sea had a tendency to come ashore and force the national government to address questions about personal honor dignity the rights of labor and the meaning and privileges of citizenship often for the first time By examining how and why merchant seamen and their officers came into contact with the law Matthew Taylor Raffety exposes the complex relationship between brutal crimes committed at sea and the development of a legal consciousness within both the judiciary and among seafarers in this period The Republic Afloat tracks how seamen conceived of themselves as individuals and how they defined their place within the United States Of interest to historians of labor law maritime culture and national identity in the early republic Raffety s work reveals much about the ways that merchant seamen sought to articulate the ideals of freedom and citizenship before the courts of the land and how they helped to shape the laws of the young republic *The Captain's Widow of Sandwich* Megan Taylor Shockley,2010-04-12 In 1852 Hannah Rebecca Crowell married sea captain William Burgess and set sail Within three years Rebecca Burgess had crossed the equator eleven times and learned to navigate a vessel In 1856 22 year old Rebecca saved the ship Challenger as her husband lay dying from dysentery The widow returned to her family s home in Sandwich Massachusetts where she refused all marriage proposals and died wealthy in 1917 This is the way Burgess recorded her story in her prodigious journals and registers which she donated to the local historical society upon her death but there is no other evidence that this dramatic event occurred exactly this way In *The Captain s Widow of Sandwich* Megan Taylor Shockley examines how Burgess constructed her own legend and how the town of Sandwich embraced that history as its own Through careful analysis of myriad primary sources Shockley also addresses how Burgess dealt with the conflicting gender roles of her life reconciling her traditionally masculine adventures at sea and her independent lifestyle with the accepted ideals of the period s Victorian woman Historical Dictionary of the U.S. Maritime Industry Kenneth J. Blume,2011-12-22 From the Spanish galleons of the 16th century to the cruise ships and crude oil tankers of the 21st maritime industries have been central to American economic political and cultural life Great American fortunes were built in the maritime industries and the workers in that industry both the sailors on board the ships and the dockworkers at the port contributed significantly to the nation s growing economy The development of interior waterways especially the canal system paved the way for a transformation of inland North America In the *Historical Dictionary of the U S Maritime Industry* author Kenneth J Blume provides a convenient survey of this important industry from the colonial period to the present day from sail to steam to nuclear power This concise new reference work captures the key features of overseas coastal lake and river shipping and industry An introduction provides an overview of the industry while the dictionary itself contains more than four hundred cross referenced entries on ships shipping companies famous personalities and major ports A number of appendixes including statistics on foreign trade maritime disasters famous ships and major ports supplement the dictionary and a comprehensive bibliography leads the researcher to further sources This book is an excellent access point for students

researchers and anyone wanting to know more about the maritime industry in the United States

The Sea and Civilization Lincoln Paine, 2015-10-27 A monumental retelling of world history through the lens of the sea revealing in breathtaking depth how people first came into contact with one another by ocean and river lake and stream and how goods languages religions and entire cultures spread across and along the world's waterways bringing together civilizations and defining what makes us most human The Sea and Civilization is a mesmerizing rhapsodic narrative of maritime enterprise from the origins of long distance migration to the great seafaring cultures of antiquity from Song Dynasty human powered paddle boats to aircraft carriers and container ships Lincoln Paine takes the reader on an intellectual adventure casting the world in a new light in which the sea reigns supreme Above all Paine makes clear how the rise and fall of civilizations can be linked to the sea An accomplishment of both great sweep and illuminating detail The Sea and Civilization is a stunning work of history

The Mathews Men William Geroux, 2017-03-21 Vividly drawn and emotionally gripping Daniel James Brown 1 New York Times bestselling author of The Boys in the Boat From the author of The Ghost Ships of Archangel one of the last unheralded heroic stories of World War II the U boat assault off the American coast against the men of the U S Merchant Marine who were supplying the European war and one community's monumental contribution to that effort Mathews County Virginia is a remote outpost on the Chesapeake Bay with little to offer except unspoiled

scenery but it sent an unusually large concentration of sea captains to fight in World War II The Mathews Men tells that heroic story through the experiences of one extraordinary family whose seven sons and their neighbors U S merchant mariners all suddenly found themselves squarely in the cross hairs of the U boats bearing down on the coastal United States in 1942 From the late 1930s to 1945 virtually all the fuel food and munitions that sustained the Allies in Europe traveled not via the Navy but in merchant ships After Pearl Harbor those unprotected ships instantly became the U boats prime targets And they were easy targets the Navy lacked the inclination or resources to defend them until the beginning of 1943 Hitler was determined that his U boats should sink every American ship they could find sometimes within sight of tourist beaches and to kill as many mariners as possible in order to frighten their shipmates into staying ashore As the war progressed men from Mathews sailed the North and South Atlantic the Caribbean the Gulf of Mexico the Mediterranean the Indian Ocean and even the icy Barents Sea in the Arctic Circle where they braved the dreaded Murmansk Run Through their experiences we have eyewitnesses to every danger zone in every kind of ship Some died horrific deaths Others fought to survive torpedo explosions flaming oil slicks storms shark attacks mine blasts and harrowing lifeboat odysseys only to ship out again on the next boat as soon as they d returned to safety The Mathews Men shows us the war far beyond traditional battlefields often the U S merchant mariners life and death struggles took place just off the U S coast but also takes us to the landing beaches at D Day and to the Pacific When final victory is ours General Dwight D Eisenhower had predicted there is no organization that will share its credit more deservedly than the Merchant Marine Here finally is the heroic story of those merchant seamen recast as the human story of the men from Mathews **Ole Virginia Bound** Paul W Simpson,2019-03-18 Sister to the famous flyer Swordfish the Gosport was the last clipper built in antebellum Virginia Coming from the yard of shipbuilders Page Allen she started life as a Western Ocean packet carrying timber to Europe before returning to New Orleans with French and German migrants The clipper s hold would then be filled with bales of cotton for Liverpool s mills Ole Virginia Bound records unwritten tales of the states last clipper and sheds light upon previously hidden period in America s maritime history [Air University Library Index to Military Periodicals](#) ,1998 *Double Duty in the Civil War* George S Burkhardt,2009-06-10 In 1861 at the age of eighteen Edward Woolsey Bacon a Yale student and son of well known abolitionist minister Leonard Bacon left his home in New Haven Connecticut to fight for the United States Over the next four years Bacon served in both the Union navy and army which gave him a sweeping view of the Civil War His postings included being a captain s clerk on the USS Iroquois a hospital clerk in his hometown a captain in the 29th Connecticut Infantry Colored and a major in the 117th U S Colored Infantry and he described these experiences in vibrant letters to his friends and family Historian George S Burkhardt has compiled these letters as well as Bacon s diary in the impressive Double Duty in the Civil War The Letters of Sailor and Soldier Edward W Bacon Bacon tells of hunting Confederate commerce raiders on the high seas enduring the tedium of blockade duty and taking part in riverine warfare on the Mississippi He recalls sweating in

South Carolina as an infantry officer during drill and picket duty suffering constant danger in the battlefield trenches of Virginia marching victoriously on fallen Richmond and tolerating the boredom of occupation duty in Texas His highly entertaining letters shed new light on naval affairs and reveal a close knit family life The narrative of his duty with black troops is especially valuable since few first hand accounts from white officers of the U S Colored Troops exist Furthermore his beliefs about race slavery and the Union cause were unconventional for the time and stand in contrast to those held by many of his contemporaries Double Duty in the Civil War is filled with lively descriptions of the men Bacon met and the events he experienced With Burkhardt s careful editing and useful annotations Bacon s letters and diary excerpts give rare insight into areas of the Civil War that have been neglected because of a lack of available sources Given the scarcity of eyewitness testimonies to navy life and life in African American regiments this book is a rarity indeed Encyclopedia of U.S. Labor and Working-Class History Eric Arnesen,2006-11-16 A RUSA 2007 Outstanding Reference Title The Encyclopedia of US Labor and Working Class History provides sweeping coverage of US labor history Containing over 650 entries the Encyclopedia encompasses labor history from the colonial era to the present Articles focus on states regions periods economic sectors and occupations race relations ethnicity and religion concepts and developments in labor economics environmentalism globalization legal history trade unions strikes organizations individuals management relations and government agencies and commissions Articles cover such issues as immigration and migratory labor women and labor labor in every war effort slavery and the slave trade union resistance by corporations such as Wal Mart and the history of cronyism and corruption and the mafia within elements of labor history Labor history is also considered in its representation in film music literature and education Important articles cover the perception of working class culture such as the surge in sympathy for the working class following September 11 2001 Written as an objective social history the Encyclopedia encapsulates the rise and decline and continuous change of US labor history into the twenty first century **Developing National Power in Space** Brent Ziarnick,2014-12-24 Exploring the nature of space programs and how nations can maximize advantages gained from space operations this book draws from military and economic theory to describe an original model of the development and employment of a nation s ability to operate in space Chapters discuss the implications for the history and organization of America s space program particularly its military dimension The rise of American naval power early in the 20th century is investigated as an historical analog to the current American situation in space and a method is proposed for the U S to lead a new space age This book s unique theory and analysis will be of interest to policy makers planners leaders and enthusiasts interested in America s future in space **Red Seas** Gerald Horne,2009-09 During the heyday of the U S and international labor movements in the 1930s and 1940s Ferdinand Smith the Jamaican born co founder and second in command of the National Maritime Union NMU stands out as one of the most if not the most powerful black labor leaders in the United States Smith s active membership in the Communist Party however coupled with his bold labor

radicalism and shaky immigration status brought him under continual surveillance by U S authorities especially during the Red Scare in the 1950s Smith was eventually deported to his homeland of Jamaica where he continued his radical labor and political organizing until his death in 1961 Gerald Horne draws on Smith s life to make insightful connections between labor radicalism and the Civil Rights Movement demonstrating that the gains of the latter were propelled by the former and undermined by anticommunism Moreover Red Seas uncovers the little known experiences of black sailors and their contribution to the struggle for labor and civil rights the history of the Communist Party and its black members and the significant dimensions of Jamaican labor and political radicalism **The Last of the Cape Horners** Spencer Apollonio,2000
Covers a full range of exciting dangerous and everyday shipboard experiences
