Imagining the Impossible Karl S. Rosengren, Carl N. Johnson, Paul L. Harris, 2000-05-29 This volume first published in 2000 is about the development of human thinking that stretches beyond the ordinary boundaries of reality Various research initiatives emerged in the decade prior to publication exploring such matters as children's thinking about imaginary beings

magic and the supernatural The purpose of this book is to capture something of the larger spirit of these efforts In many ways this new work offers a counterpoint to research on the development of children s domain specific knowledge about the ordinary nature of things that has suggested that children become increasingly scientific and rational over the course of development In acquiring an intuitive understanding of the physical biological or psychological domains even young children recognize that there are constraints on what can happen However once such constraints are acknowledged children are in a position to think about the violation of those very same constraints to contemplate the impossible Hidden History (Volume 2 of 2) (EasyRead Super Large 24pt Edition) , **The Encyclopedia of Religious Phenomena** J Gordon Melton,2007-09-01 An inspiring and fascinating look at people s religious experiences and beliefs Visions of Mary and glimpses of God Miraculous apparitions witnessed by hundreds in parking lots along freeways and at the world s holiest sites Weeping statues exorcisms near death experiences mystical labyrinths and more than 250 other unusual and unexplained phenomena apparitions and extraordinary experiences rooted in religious beliefs are explored in The Encyclopedia of Religious Phenomena J Gordon Melton the Distinguished Professor of American Religious History at the Institute for Studies of Religion Baylor University takes readers on a tour among angels Marian apparitions and religious figures such as Jesus the Buddha Muhammad and Tao Tzu Melton reports on dreams feng shui statues that bleed snake handling speaking in tongues stigmata relics including the Spear of Longinus and the Shroud of Turin and sacred locales such as Easter Island the Glastonbury Tor the Great Pyramids Mecca Sedona and much more Each entry includes a description of a particular phenomenon and the religious claims being made about it as well as a discussion of what scientists say about it Transcending the mundane the entries take no sides on who is right or wrong the journey is the experience and the experience is the journey This fascinating encyclopedia is illustrated with 100 pictures and includes a detailed index and additional reading recommendations It lets you experience the marvels of weeping statues and icons exorcisms and ecstasy the grilled cheese sandwich kit for making your own Virgin Mary image and so much more *Hidden History (Volume 2 of 2) (EasyRead Super Large 18pt Edition)* , **Mysteries of Ontario** John Robert Colombo,1999-05-01 This book brings together some 500 accounts of strange events and eerie experiences in the province **Reading Programs for Young Adults** Martha Seif Simpson,2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger
