The Geometry of Christian Contemplation David Albertson, 2025-05-16 The writings of ancient and medieval Christian mystics were rediscovered in the twentieth century and today they are read more widely than ever before But do modern assumptions about religious experience influence how we hear those premodern voices Do we do them justice by thinking of mysticism as interior and ineffable Or can mystical experience intersect with the natural environment and indeed the cosmos which science calculates with precise quantities David Albertson's *The Geometry of Christian Contemplation* Measure without Measure suggests a fresh approach to the history of mystical theology that is oriented toward exteriority more than interiority and toward the measurable world outside more than the invisible world within The ancient Greek philosopher Plotinus had taught contemplatives to close their eyes and withdraw into the soul Most Christians followed his directions but others dissented In three critical episodes an alternative model of Christian contemplation began to emerge from Dionysius the Areopagite to the Byzantine monks John of Damascus and Theodore the Studite to eccentric humanists in medieval Paris Together these episodes add up to a very different theological aesthetics one that can enliven the modern study of mysticism and correct some of its imbalances For in the centuries before the scientific revolution and the secularization of nature Christians still saw God in the exterior world not only the interior soul God was not an ineffable and formless Absolute immeasurable as the soul but an infinite Measure who leaves behind geometrical traces in the figures of the world The God who became a human body in the Incarnation not only entered time and matter but also spatial extension and with it the conditions of measure points lines curves shapes planes dimensions and magnitudes Today the wisdom of this counter tradition can strengthen the study of mysticism not only by supplementing our contemporary fascination with negative theology by redefining what it means to name God positively but by suggesting a new connection between Christian mysticism and the hyper measured hyper technologized world that surrounds us **W.J.T. Mitchell's Image Theory**

Krešimir Purgar, 2016-11-25 W J T Mitchell one of the founders of visual studies has been at the forefront of many disciplines such as iconology art history and media studies His concept of the pictorial turn is known worldwide for having set new philosophical paradigms in dealing with our vernacular visual world This book will help both students and seasoned scholars to understand key terms in visual studies pictorial turn metapictures literary iconology image text biopictures or living pictures among many others while systematically presenting the work of Mitchell as one of the discipline's founders and most prominent figures As a special feature the book includes three comprehensive authoritative and theoretically relevant interviews with Mitchell that focus on different stages of development of visual studies and critical iconology Farewell to Visual Studies James Elkins, Gustav Frank, Sunil Manghani, 2015-10-28 Each of the five volumes in the Stone Art Theory Institutes series brings together a range of scholars who are not always directly familiar with one another's work The outcome of each of these convergences is an extensive and unpredictable conversation on knotty and provocative issues

about art This fifth and final volume in the series focuses on the identity nature and future of visual studies discussing critical questions about its history objects and methods The contributors question the canon of literature of visual studies and the place of visual studies with relation to theories of vision visuality epistemology politics and art history giving voice to a variety of inter and transdisciplinary perspectives Rather than dismissing visual studies as its provocative title might suggest this volume aims to engage a critical discussion of the state of visual studies today how it might move forward and what it might leave behind to evolve in productive ways The contributors are Emmanuel Alloa Nell Andrew Linda B ez Rub Martin A Berger Hans Dam Christensen Isabelle Decobecq Bernhard J Dotzler Johanna Drucker James Elkins Michele Emmer Yolaine Escande Gustav Frank Theodore Gracyk Asbj rn Gr nstad Stephan G nzel Charles W Haxthausen Miguel Hern ndez Navarro Tom Holert K van K l n Charlotte Klonk Tirza True Latimer Mark Linder Sunil Manghani Anna Notaro Julia Orell Mark Reinhardt Vanessa R Schwartz Bernd Stiegler yvind V gnes Sjoukje van der Meulen Terri Weissman Lisa Zaher and Marta Zarzycka

TRANSPOSITIONES 2024 Vol. 3, Issue 2: Queer Animalities Gabriela Jarzębowska, Justyna Schollenberger, 2024-10-07 This issue explores two distinct yet deeply interconnected areas of academic debate animal studies and queer studies The concept of queer ecology has gained a growing interest in the academia highlighting the importance of intersectional understanding of ecological multi species and sexual exclusions and entanglements The authors gathered in this issue engage with the connections between animalities and queerness in a way that casts a new light on these concepts They do so in a variety of ways in which entanglements between them may occur while providing in depth theoretical analyses of what implications arise from bringing them under one umbrella

The Everyday in Visual Culture François Penz, Janina Schupp, 2022-05-30 This book explores how the comparative analysis of visual cultural artefacts from objects to architecture and fiction films can contribute to our understanding of everyday life in homes and cities around the globe Investigating the multiple facets of the everyday this interdisciplinary collection generates a new awareness of everyday lives across cultures and challenges our traditional understanding of the everyday by interweaving new thematic connections It brings together debates around the analysis of the everyday in visual culture more broadly and explores the creation of innovative technological methods for comparative approaches to the study of the everyday such as film databases as well as the celebration of the everyday in museums The volume is organized around four key themes It explores the slices of everyday lives found in Visual Culture Part I Museums Part II the City Part III and the Home Part IV The book explores the growing area of the analysis of everyday life through visual culture both broadly and in depth By building interdisciplinary connections this book is ideal for the emerging community of scholars and students stemming from Visual Culture Film and Media Studies Architecture Studies and practice Museum Studies and scholars of

Sociology and Anthropology as well as offering fresh insights into cutting edge tools and practices for the rapidly growing field of Digital Humanities A Cultural History of Dress and Fashion in the Age of Enlightenment Peter McNeil, 2018-11-01 Eighteenth century fashion was cosmopolitan and varied Whilst the wildly extravagant and colorful elite fashions parodied in contemporary satire had significant influence on wider dress habits more austere garments produced in darker fabrics also reflected the ascendancy of a puritan middle class as well as a more practical approach to dress With the rise of print culture and reading publics fashions were more quickly disseminated and debated than ever and the appetite for fashion periodicals went hand in hand with a preoccupation with the emerging concept of taste Richly illustrated with 100 images and drawing on pictorial textual and object sources A Cultural History of Dress and Fashion in the Age of Enlightenment presents essays on textiles production and distribution the body belief gender and sexuality status ethnicity and visual and literary representations to illustrate the diversity and cultural significance of dress and fashion in the period *The Media, Animal Conservation and Environmental Education* John Blewitt, 2013-10-31 Natural History filmmaking has a long history but the generic boundaries between it and environmental and conservation filmmaking are blurred Nature environment and animal imagery has been a mainstay of television campaigning organisations and conservation bodies from Greenpeace to the Sierra Club with vibrant images being used effectively on posters leaflets and postcards and in coffee table books media releases short films and viral emails to educate and inform the general public However critics suggest that wildlife film and photography frequently convey a false image of the state of the world's flora and fauna The environmental educator David Orr once remarked that all education is environmental education and it is possible to see all image based communication in the same way The Media Animal Conservation and Environmental Education has contributions from filmmakers photographers researchers and academics from across the globe It explores the various ways in which film television and video are and can be used by conservationists and educators to encourage both a greater awareness of environmental and conservation issues and practical action designed to help endangered species This book is based on a special issue of the journal Environmental Education Research **The Foxite Whigs and Visual Culture, 1780-1810** Callum D. Smith, 2025-08-22 This book offers a comprehensive exploration of the intricate relationship between radicalism and sociability in late Georgian parliamentary and extra parliamentary politics focusing on the Foxite Whig faction Re evaluating the significance and tactical use of sociability and radicalism in late eighteenth and early nineteenth century British politics the book charts not only the rise and fall of a leading and neglected British political faction but through its interdisciplinary and thematic focus it seeks to intervene in the field and situate sociability as a key driver and facilitator of late Georgian politics By utilising original research into contemporary newspapers letters diaries legal records parliamentary accounts and especially political caricature the author offers a new methodological approach in the study of sociability and radicalism and presents original categorisations of contemporary sociability The book examines how sociability was strategically employed

by the Foxite Whigs and argues for the existence of two primary forms of sociability insular and porous Insular sociability manifested itself through dining drinking to excess or gambling in a private setting with members of the same aristocratic or political order Porous sociability however was the extra parliamentary mechanism by which Fox and his faction tactically opened their insular Whig World to forge connections with the lower orders French revolutionary leaders popular radicals and Irish rebels The author provides a detailed analysis of Foxite sociability within the context of distinct radical themes including plebeian radicalism French Revolutionary radicalism and Irish radicalism Beyond its innovative methodological approach to sociability studies the book foregrounds visual culture as a lens through which to study and enter the wordless experience of the eighteenth century and to view the themes of sociability and radicalism from within In doing so the it reveals the inconsequential or informal dynamics of the Foxites political and extra parliamentary career from their origin in c 1780 to their decline in the early nineteenth century

The Routledge Companion to Migration Literature Gigi Adair, Rebecca Fasselt, Carly McLaughlin, 2024-07-30 The Routledge Companion to Migration Literature offers a comprehensive survey of an increasingly important field It demonstrates the influence of the age of migration on literature and showcases the role of literature in shaping socio political debates and creating knowledge about the migratory trajectories lives and experiences that have shaped the post 1989 world The contributors examine a broad range of literary texts and critical approaches that cover the spectrum between voluntary and forced migration In doing so they reflect the shift in recent years from the author centric study of migrant writing to a more inclusive conception of migration literature The book contains sections on key terms and critical approaches in the field important genres of migration literature a range of forms and trajectories of migration with a particular focus on the global South and on migration literature s relevance in social contexts outside the academy Its range of scholarly voices on literature from different geographical contexts and in different languages is central to its call for and contribution to a pluriversal turn in literary migration studies in future scholarship This Companion will be of particular interest to scholars working on contemporary migration literature and it also offers an introduction to new students and scholars from other fields Chapter 15 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
