Seeing Beyond--personal, Social, and Political Alternatives, 1971 Catalog of Copyright Entries. Third Series
Library of Congress. Copyright Office, 1973 *Socialism the Active Utopia (Routledge Revivals)* Zygmunt
Bauman, 2009-11-18 Rather than contributing to the long standing discussion about the characteristics of the society that
socialism proposes to establish this Routledge Revival initially published in 1976 aims to explore the impact of the living
utopia of socialism on the development of modern society It begins with an analysis of the role of utopia in general and of the
socialist utopia in particular Bauman considers the opposition between utopian and scientific social thought He presents
socialism as the counter culture of capitalist society The book finally examines the reasons for the failure of socialism in its
application to the peasant revolution in Russia It then explores some possible forms that the socialist utopia might take in the
industrial societies of the late twentieth century Professor Bauman writes for those who want to understand the logic of the
historical fate of socialism in the present century who are concerned about the validity and vitality of socialist ideas on the
development of modern society and who are interested and perhaps confused by the cultural and ideological conflicts of the
last few decades **Societal Directions and Alternatives** Michael Marien, 1976 *Political Science and the Study of the*
Future Albert Somit, 1974 **Encyclopedia of Criminological Theory** Francis T. Cullen, Pamela Wilcox, 2010-09-23
Consistently excellent The level and coverage of the content make this an invaluable reference for students studying
criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In
discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference
to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate
and integrate the reference However university reference librarians can tell you this is often far from the case Students often
approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who
what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop
source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both
print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary
criminological theory Drawing together a team of international scholars it examines the global landscape of all the key
theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses
In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a
handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and
figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy
implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology

Alternative Leadership Strategies in the Prehispanic Southwest Barbara J. Mills,2015-09-01 In considerations of societal change the application of classic evolutionary schemes to prehistoric southwestern peoples has always been problematic for scholars Because recent theoretical developments point toward more variation in the scale hierarchy and degree of centralization of complex societies this book takes a fresh look at southwestern prehistory with these new ideas in mind This is the first book length work to apply new theories of social organization and leadership strategies to the prehispanic Southwest It examines leadership strategies in a number of archaeological contexts from Chaco Canyon to Casas Grandes from Hohokam to Zuni to show striking differences in the way that leadership was constructed across the region These case studies provide ample evidence for alternative models of leadership in middle range societies By illustrating complementary approaches in the study of political organization they offer new insight into power and inequality They also provide important models of how today s archaeologists are linking data to theory providing a basis for comparative analysis with other regions

Social Change Steven Vago, 1980 Appropriate for courses in Social Change the Fourth Edition provides a clear and timely analysis of the major theoretical perspectives sources processes patterns and

consequences of social change Alternative Media and Politics of Resistance Joshua D. Atkinson, 2010 Scholars of journalism and media studies have illustrated the production of alternative media as a means for activists to generate dissent while communication scholars have examined activists performances and image events as challenges to dominant power structures The approaches of both fields have contributed to academic understanding of social movements in modern society but until now their findings have emerged separate from one another This book brings together both lines of research and demonstrates the role of alternative media in the performance of resistance against power structures by contemporary activists Specifically the book explores the role of alternative media in the establishment of activist networks in local communities the role of alternative media in the construction of strategies of resistance by networked activists and the role of interactivity between local and global networks in production of alternative media content The book is suitable for undergraduate and graduate courses concerning social movements within the fields of communication media and journalism

Well and Good - Fourth Edition John E. Thomas, Wilfrid J. Waluchow, Elisabeth Gedge, 2014-07-11 Well and Good presents a combination of classic and little known cases in health care ethics These cases accompanied by information about the major ethical theories give students a chance to grapple with the ethical challenges faced by health care practitioners policy makers and recipients The authors narrative style and leading questions provoke interest and engagement while allowing readers to work through complicated issues for themselves This fourth edition includes an expanded discussion of feminist ethics as well as new cases addressing pandemic ethics humanitarian aid the social determinants of health research and Aboriginal communities and a number of other emerging issues **The Politics of Alcoholism** Carolyn Wiener, 2023-04-14 The Politics of Alcoholism can be read on one level as a fascinating history of the evolving politics of what this country is doing about the problem of alcoholism Not so long ago that problem was scarcely larger than a human hand against the horizon but now it makes good regular newspaper copy This text follows through on the much raised question of how a social problem becomes defined as a large scale problem when the same phenomenon x Preface now labeled as a problem was not so named before What is offered here is a direct attack on the rise into public visibility of something previously the concern of a relatively small number of people and groups and which gets defined along the way as a problem for the whole nation The second issue addressed is closer to the political scientist s traditional interest namely the politics of handling public issues research and theorizing here usually focus on interest groups lobbying public debate legislative rights constituencies and so on
