Independent Publisher ,1998 **Traces of a Mobile Field** James R Faulconbridge,Allison Hui,2017-10-02 This agenda setting collection critically reflects upon a decade of contributions to the social scientific mobilities turn in order to propose new trajectories for the future of this interdisciplinary research field The chapters are all exemplars of how the past

decade of research has opened up new insights into the place of mobilities in societies. They also highlight how attempts to look forward towards new conversations, understandings and interventions in a mobile world will emerge from the transformations invoked by this field of research. Authors foreground issues of power, interdisciplinarity, transformative technologies, fragmented discourses and changing social processes whilst addressing automobility, aeromobility, tourism, communications technologies, urban infrastructures, migration and emergencies. As a whole, the collection raises important questions about not only how understandings of mobilities are changing but also how the field of mobilities research is itself on the move. The evocative empirical cases and provocative arguments in this book thus highlight the necessity of new concepts, conversations, methods, empirical studies and interventions to address transformations in both the complex mobilities of social worlds and what is examined or taken for granted in mobilities research itself. This book was originally published as a special issue of *Mobilities*. Memories and Vagaries Axel Munthe, 1908 *The Old Drift* Namwali Serpell, 2019. On the banks of the Zambezi River a few miles from the majestic Victoria Falls there was once a colonial settlement called The Old Drift. Here begins the epic story of a small African nation told by a mysterious swarm-like chorus that calls itself man's greatest nemesis. The tale: A playful panorama of history, fairytale, romance and science fiction. The moral: To err is human.
