Borderlands Emmanuel Brunet-Jailly,2007-05-05 Border security has been high on public policy agendas in Europe and North America since the September 11 2001 attacks on the World Trade Centre in New York City and on the headquarters of the American military in Washington DC Governments are now confronted with managing secure borders a policy objective that in this era of increased free trade and globalization must compete with intense cross border flows of people and goods Border security policies must enable security personnel to identify or filter out dangerous individuals and substances from among the millions of travelers and tons of goods that cross borders daily particularly in large cross border urban regions This book addresses this gap between security needs and an understanding of borders and borderlands Specifically the chapters in this volume ask policy makers to recognize that two fundamental elements define borders and borderlands first human activities the agency and agent power of individual ties and forces spanning a border and second the broader social processes that frame individual action such as market forces government activities law regulations and policies and the regional culture and politics of a borderland Borders emerge as the historically and geographically variable expression of human ties exercised within social structures of varying force and influence and it is the interplay and interdependence

between people's incentives to act and the surrounding structures i.e. constructed social processes that contain and constrain individual action that determine the effectiveness of border security policies This book argues that the nature of borders is to be porous which is a problem for security policy makers It shows that when for economic cultural or political reasons human activities increase across a border and borderland governments need to increase cooperation and collaboration with regard to security policies if only to avoid implementing mismatched security policies Published in English *La Colombia del posacuerdo* Varios Autores, 2018-12-04 En 2014 cuando la negociaci3n entre el Estado colombiano con las Fuerzas Armadas Revolucionarias de Colombia FARC tomaba rumbos tan interesantes como problem3ticos un grupo de investigadores lidera una alianza estrat3gica con docentes de distintas reas disciplinares y de diversas universidades con el fin de iniciar un proyecto editorial de largo aliento que se conceb3a m3s como un programa de investigaci3n y cuyo objetivo consist3a en aportar estudios y reflexiones sobre los retos que como sociedad tenemos en la construcci3n de paz y en la tramitaci3n no violenta de nuestros conflictos socioculturales pol3ticos y econ3micos Desde esta din3mica el proyecto editorial en menci3n materializ3 sus resultados a trav3s de tres insumos Teor3as y tramas del conflicto armado en Colombia 2014 Perspectivas multidimensionales de la paz en Colombia 2015 y Esta guerra que se va territorio y violencias desigualdad y fragmentaci3n social 2017 Un acumulado de 1200 p3ginas escritas distribuidas en 34 cap3tulos con aportes de 38 autores sobre las m3s diversas tem3ticas pr3cticas pol3ticas y modelo econ3mico retos del posconflicto escenarios para la transformaci3n del conflicto el rol de la cultura r3gimen pol3tico sociedad civil territorio drogas fuerzas armadas actores sociales pedagog3a de la paz y comunidad internacional En esta oportunidad se presenta *La Colombia del posacuerdo* retos de un pa3s excluido por el conflicto armado una apuesta investigativa e intelectual que revela la emergencia de distintos individuos y colectivos que comienzan a pujar por la visibilizaci3n de sus demandas los apoyos y las resistencias que tienen al modelo de paz que se construy3 en cinco a3os de negociaci3n y posiblemente lo m3s problem3tico pero m3s interesante la pregunta de c3mo podremos reconstruir el tejido social ausente y silenciado por los ruidos de la guerra y la exaltaci3n conveniente a la represi3n y al odio

Seguridad nacional hoy Ana Maria Salazar, 2002 C3mo pueden protegerse los ciudadanos e la inseguridad que papel juega la sociedad civil en la protecci3n de las naciones Este libro aborda temas relacionados con la seguridad naci3nal y aparece en un momento muy oportuno por la coyuntura que vive el continente americano despues de los atentados del 11 de septiembre

Latin American Responses to Globalization in the 21st Century M. Nilsson, J. Gustafsson, 2015-12-11 Written by a diverse group of scholars and practitioners from Latin America the US and Europe and taking into consideration the recent global financial crisis the book offers a multifaceted insight into the expectations as well as the possible threats related to Latin America's incorporation into the sphere of global interconnectedness *Old Europe, New Security* Mary Troy Johnson, Janet Adamski, Cristina M. lisis de contenido y la entrevista estructurada De esta forma logra construir un marco global analítico de la lucha frente a la violencia contra los periodistas en la primera década del siglo XXI que le permite conocer el discurso sobre la libertad de expresión sus formas de evaluación las decisiones de las organizaciones para intervenir en determinados contextos los procesos de protección de los periodistas y el perfil de las organizaciones encargadas de su bienestar En un mundo tan conectado el periodismo ya no es un asunto que pueda limitarse a las fronteras nacionales o a contextos locales su accionar atañe a la comunidad internacional y las repercusiones que se derivan de su silenciamiento es un asunto que demanda el compromiso y la responsabilidad de toda la humanidad

Derechos torcidos Esteban Beltrán, 2010-07-15 El cumplimiento de los derechos humanos requiere una mirada atrevida para desmontar primero algunos tópicos Quiere usted enfrentarse al reto de retorcer sus ideas de toda la vida como si fuesen de alambre Quiere viajar con el autor a contracorriente del consenso universal sobre las ideas políticas y humanitarias Puede enfrentarse a la idea de que sociedades en todo el mundo pueden suicidarse democráticamente A la sugerencia de que en Europa se deben abrir las fronteras a la emigración en vez de cerrarlas a cal y canto Al reto de afirmar que la pobreza debe abolirse por ley como la pena de muerte y que no es inevitable Es capaz de sobrevivir intelectualmente a la incorrección política de pensar que todos los derechos humanos no son iguales en la realidad O de afirmar que vivimos en sociedades domesticadas con dinero de gobiernos y que la protesta política y la independencia son especies en peligro de extinción La larga trayectoria de Esteban Beltrán le permite detectar muchos tópicos y desmontar los lugares comunes sobre la pobreza la guerra la democracia la pena de muerte la inmigración o la transición española para mostrarlos en su verdadera luz Un ambicioso reto intelectual que busca ni más ni menos cambiar la forma en que miramos el mundo

indispensable del derecho **Contrarreformas al pacto republicano de 1917** Patricio Emilio Marcos, 2023-08-29 Varias causas explican la tremenda corrupción de la vida política que padece México. Una son los gremios medievales que ocupan la presidencia los presidentes generales los licenciados en derecho los posgraduados en las universidades de los EE UU cuyo principio es el libertinaje económico de las ganancias. Otra el cúmulo inaudito de contrarreformas masivas a la constitución de cuyas ruinas vivimos. Le siguen las patologías particulares de los presidentes. Pero la peor es la impunidad porque al no haber castigo alguno invitan a ser parte de la criminalidad por el placer de saber que no habrá castigo alguno.
