Selected And New Poems 1980 To 199:

Poetry of Contemplation Arthur L. Clements, 1990-06-01 This is the first systematic and thorough study of mysticism or contemplation in these three seventeenth century poets and in three modern writers It not only clarifies the very confused issue of mysticism in seventeenth century poetry but also connects seventeenth century poets with modern literature and science through the contemplative tradition from the Bible and Plato and Church fathers and important mystics of the Middle Ages through Renaissance and modern contemplatives The transformative and redemptive power of contemplative poetry or holy writing regardless of genre or discipline is prominent throughout the book and the relevance indeed the vital necessity of such poetry and of the living contemplative tradition to our apocalyptic modern world is discussed in the last chapter In this chapter attention is given to modern science especially to the new physics and to philosophical and mystical writings of eminent scientists

Evaluations of US Poetry since 1950, Volume 1 Robert von Hallberg, Robert Faggen, 2021-12-01 Over the last sixty years scholars and critics have focused on literary history and interpretation rather than literary value When value is addressed the standards are usually political and identitarian The essays collected in both volumes of Evaluations of US Poetry since 1950 move away from esoteric literary criticism toward a more evaluative and speculative inquiry that will serve as the basis from which poets will be discussed and taught over the next half century and beyond Von Hallberg and Faggen have curated a diverse selection of authors to explore this topic Volume 1 focuses on voice language form and musicality Stephen Yenser writes about Elizabeth Bishop Stephanie Burt about C D Wright Nigel Smith about Paul Simon and Marjorie Perloff about Charles Bernstein among others The essays do not provide an exhaustive survey of recent poetry Instead Evaluations of US Poetry since 1950 presents readers with more than thirty different models of literary absorption and advocacy This is done in explicit hope of reorienting the criticism of poetry

Unplanned Cities in Modern American Poetry Daniela Kukrechtová, 2025-07-10 Reveals how five modern American poets challenged prevailing discourses about urbanization through lyrical representations of cities and the diverse people who lived in them In early 20th century America industrialization and the influx of immigrants and rural migrants into urban centers fostered a certain representation of and distaste for cities and their inhabitants The dominant discourse was one of containment through utopian planning and violent

reshaping often reflected in both policy making and writings about cities during this time Yet as Daniela Kukrechtov identifies urban literature also reveals voices that challenged that narrative *Unplanned Cities in Modern American Poetry* shows how the formally innovative works of five poets Jean Toomer William Carlos Williams Hart Crane Frank O Hara and Gwendolyn Brooks worked against anti urban discourse Their works displayed a love for disorderly cityscapes and the actual urbanites who inhabit them promoting the radical idea that cities were for people while revealing the extreme dystopian utopian discourses that helped create and maintain divisions and disparities Kukrechtov argues that besides offering a radical critique these poets also used their poetry to imagine the mental and emotional attitudes of urban dwellers toward their environment She therefore offers the urban ecocritical approach often missing in literary analyses of modern American poetry Simultaneously the lyrical and socially engaged imagination in these works that is the human implications of various plans designs and policies that helped create the modern American city represent a voice often unheard in urban studies and its history

Literature of the 1980s: After the Watershed Joseph Brooker, 2012-05-08 From the new generation of London novelists such as Martin Amis and Ian McEwan to feminism in the writing of Angela Carter and Jeanette Winterson Joseph Brooker relates developments in fiction poetry and drama to social change He shows how working class writers such as James Kelman and Tony Harrison protested against Thatcherism and explores the voices of Black British writers including Fred D Aguiar and Hanif Kureishi As for the theory of the decade Brooker relates the rise of postmodernism to the popularity of self conscious modes of writing and other developments in literary theory

Identity Poetics Linda Garber, 2001 In seeking to bridge what is often a generation gap between lesbian feminists on the essentialist existential side of the schism and postmodern queer theorists favoring the social construction of lesbian identity Graber social sciences California State U Fresno critically overviews the writing of influential poet activist theorists Judy Grahn Pat Parker Audre Lorde Adrienne Rich and Gloria Anzald a A major concern is de marginalizing working class lesbians of color in this debate The final chapter traces the rise of queer theory circa 1991

After the Death of Poetry Vernon Lionel Shetley, 1993 In this deft analysis Vernon Shetley shows how writers and readers of poetry operating under very different conventions and expectations have drifted apart stranding the once vital poetic enterprise on the distant margins of contemporary culture Along with a clear understanding of where American poetry stands and how it got there

After the Death of Poetry offers a compelling set of prescriptions for its future prescriptions that might enable the art to regain its lost stature in our intellectual life In exemplary case studies Shetley identifies the very different ways in which three postwar poets Elizabeth Bishop James Merrill and John Ashbery try to restore some of the challenge and risk that characterized modernist poetry's relation to its first readers Sure to be controversial this cogent analysis offers poets and readers a clear sense of direction and purpose and so the hope of reaching each other again

World War I and the Cultures of Modernity, The essays collected here chart the war and its cultural and literary contours from a variety of new and challenging intellectual vantage points Focusing in different essays on America France Britain and Germany the contributors to this book contest the long accepted argument about World War I as the crucible of modern life Instead their interrogations of the trench experience home front conditions forms of mass culture and literary genres reveal that the war was as much a moment of cultural opportunity as it was the point of origin for modern society or its cultural forms

The Lesbian Muse and Poetic Identity, 1889-1930 Sarah Parker, 2015-10-06 Throughout history the poetic muse has tended to be a passive female and the poet male This dynamic caused problems for

late Victorian and twentieth century women poets how could the muse be reclaimed and moved on from the passive role of old Parker looks at fin de siècle and modernist lyric poets to investigate how they overcame these challenges and identifies three key strategies the reconfiguring of the muse as a contemporary instead of a historical mythological figure the muse as a male figure and an interchangeable poet muse relationship granting agency to both

Madness and the Romantic Poet James Whitehead, 2017 *Madness and the Romantic Poet* examines the longstanding and enduringly popular idea that poetry is connected to madness and mental illness The idea goes back to classical antiquity but it was given new life at the turn of the nineteenth century The book offers a new and much more complete history of its development than has previously been attempted alongside important associated ideas about individual genius creativity the emotions rationality and the mind in extreme states or disorder ideas that have been pervasive in modern popular culture More specifically the book tells the story of the initial growth and wider dissemination of the idea of the Romantic mad poet in the nineteenth century how and why this idea became so popular and how it interacted with the very different fortunes in reception and reputation of Romantic poets their poetry and attacks on or defences of Romanticism as a cultural trend generally again leaving a popular legacy that endured into the twentieth century Material covered includes nineteenth century journalism early literary criticism biography medical and psychiatric literature and poetry A wide range of scientific and pseudoscientific thinkers are discussed alongside major Romantic authors including Wordsworth Coleridge Blake Hazlitt Lamb Percy Bysshe Shelley Keats Byron and John Clare Using this array of sources and figures the book asks was the Romantic mad genius just a sentimental stereotype or a romantic myth Or does its long popularity tell us something serious about Romanticism and the role it has played or has been given in modern culture

Fictions of Form in American Poetry Stephen Cushman, 2014-07-14 In the 1830s Alexis de Tocqueville prophesied that American writers would slight even despise form that they would favor the sensational over rational order He suggested that this attitude was linked to a distinct concept of democracy in America Exposing the inaccuracies of such claims when applied to poetry Stephen

Cushman maintains that American poets tend to overvalue the formal aspects of their art and in turn overestimate the relationship between those formal aspects and various ideas of America. In this book Cushman examines poems and prose statements in which poets as diverse as Emily Dickinson and Ezra Pound describe their own poetic forms and he investigates links and analogies between poets' notions of form and their notions of Americanness. The book begins with a brief discussion of Whitman who said "The United States themselves are essentially the greatest poem." Cushman takes this to mean that American poetry has succeeded in making fictions about itself which persuade its readers that its uniqueness transcends merely geographical boundaries. He explores the truth of this statement by considering the Americanness of Emily Dickinson, Ezra Pound, Elizabeth Bishop, and A. R. Ammons. He concludes that the uniqueness of American poetry lies not so much in its forms as in its formalism and in the various attitudes that formalism reveals.
