Resources for Korean Studies ,1995 **Resources for Korean Studies** ,2010 Select Bibliography of Korean Studies Academy of Korean Studies,1995 **Handbook for Asian Studies Specialists** Noriko Asato,2013-10-08 An indispensable tool for librarians who do reference or collection management this work is a pioneering offering of expertly selected print and electronic reference tools for East Asian Studies Chinese Japanese and Korean Handbook for Asian Studies Specialists A Guide to Research Materials and Collection Building Tools is the first work to cover reference works for the main Asian area languages of China Japan and Korea Several leading Asian Studies librarians have contributed their many decades of experience to create a resource that gathers major reference titles both print and online that would be useful to today s Asian Studies librarian Organized by language group it offers useful information on the many subscription based and open source electronic tools relevant to Asian Studies This book will serve as an essential resource for reference collections at academic libraries Previously published bibliographies on materials deal with China or Japan or Korea but none have coalesced information on all three countries into one work or are written in English And unlike the other resources available this work provides the insight needed for librarians to make informed collection management decisions and reference selections
Historical Dictionary of the Republic of Korea Andrew C. Nahm,James Hoare,2004 This dictionary presents a balanced and objective view of South Korea providing a long perspective and covering varied aspects of South Korean life Domestic political and social events foreign affairs economic and cultural developments and the men and women who have influenced the country s history are reviewed in the more than 400 entries many of which are new or have been updated from the first edition The dictionary s chronology and historical narrative also updated cover the entire history of Korea for the benefit of readers who have little or no knowledge of the overall history of the Korean people The extensive bibliography has been updated to include the most current and best books journals and websites making this a valuable reference source for the scholar student and general reader **Korea; an Analytical Guide to Bibliographies** Hesung Chun Koh,1971 Annotated bibliography of bibliographys on Korea R with particular reference to social sciences studies **Historical Dictionary of the Republic of Korea** James E. Hoare,2020-10-13 South Korea Republic of Korea is the more successful of the two Koreas in both economic and political terms Even the Asian economic crisis of 1997 1998 which hit badly was weathered successfully and when the next crisis came along in 2007 South Korea coped better than many other countries This economic strength taken with the steady progress of democratization since 1987 indicates that when the peninsula is eventually reunified as one day it probably will be a new unified Korea will follow the South Korea model rather than that of

North Korea This fourth edition of Historical Dictionary of the Republic of Korea contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about the Republic of Korea *Resources in Education* ,1997 **Historical Dictionary of the Korean War** Paul M. Edwards,2010-06-10 The Korean War has often been regarded as a forgotten war although that is certainly unfair It was if anything a rather crucial war within the ambit of the Cold War started by North Korea in 1950 and although the bulk of the fighting was over by 1954 peace has never been concluded and the two sides still face off over the demilitarized zone On the other side of the zone is South Korea which has since become a very prosperous and democratic country while North Korea has achieved relatively little So that war is certainly not forgotten by the Koreans And given the large number of deaths and casualties it is still remembered by many in the United States and other allies as well as China and the Soviet Union This Historical Dictionary of the Korean War now in its second edition does much to jolt our memory and inform us about the war This is done first in a lengthy chronology tracking the war but also the path to war and what happened after The introduction covers the war as a whole trying to make sense of it The dictionary section provides all of the necessary details on significant persons places and events battles and other engagements military units and material as well as the political economic and social background There are also maps and a list of acronyms This is really the ideal source for information in addition to which it also has an extensive bibliography

Historical Dictionary of the Peoples of the Southeast Asian Massif Jean Michaud,Margaret Byrne Swain,Meenaxi Barkataki-Ruscheweyh,2016-10-14 Dwelling in the highland areas of Northeast India Bangladesh Southwest China Taiwan Burma Myanmar Thailand Cambodia Vietnam Laos and Peninsular Malaysia are hundreds of peoples Together their population adds up to 100 million more than most of the countries they live in Yet in each of these countries they are regarded as minorities This second edition of Historical Dictionary of the Peoples of the Southeast Asian Massif contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on about 300 groups the ten countries they live in their historical figures and their salient political economic social cultural and religious aspects This book is an excellent access point for students researchers and anyone wanting to know more

Japanese History & Culture from Ancient to Modern Times John W. Dower,1986 **Historical Dictionary of Thailand** May Kyi Win,Harold E. Smith,Gayla S. Nieminen,2005-10-04 Thailand has experienced extremely rapid economic growth and with that growth the increased social mobility and political democracy that comes with it As the only Southeast Asian country to have avoided colonization it still boasts a functioning monarchy remains close to its religious roots and clings to its cultural heritage The second edition of the Historical Dictionary of Thailand first provides an overview of the country in the introduction traces the long and complicated history in the chronology and goes into much greater detail in the dictionary

Offering 64 new entries as well as updates and revisions to older ones the dictionary presents important persons places institutions and more in an easily accessible resource Significant recent events are discussed including the 1997 98 Thai economic crisis and its effects reforms of the national government and the growth in political roles of both businessman and other middle class members In addition the book updates basic information relative to population growth urbanization and industrialization of the economy All this is topped off by nearly 20 Appendixes and a solid bibliography making this an essential reference tool
