Long March To Power:

Wealth and Power Orville Schell, John Delury, 2014-09-09 Through a series of lively and absorbing portraits of iconic modern Chinese leaders and thinkers two of today's foremost specialists on China provide a panoramic narrative of this country's rise to preeminence that is at once analytical and personal How did a nation after a long and painful period of dynastic decline intellectual upheaval foreign occupation civil war and revolution manage to burst forth onto the world stage with such an impressive run of hyperdevelopment and wealth creation culminating in the extraordinary dynamism of China today Wealth and Power answers this question by examining the lives of eleven influential officials writers activists and leaders whose contributions helped create modern China This fascinating survey begins in the lead up to the first Opium War with Wei Yuan the nineteenth century scholar and reformer who was one of the first to urge China to borrow ideas from the West It concludes in our time with human rights advocate and Nobel Peace Prize laureate Liu Xiaobo an outspoken opponent of single party rule Along the way we meet such titans of Chinese history as the Empress Dowager Cixi public intellectuals Feng Guifen Liang Qichao and Chen Duxiu Nationalist stalwarts Sun Yat sen and Chiang Kai shek and Communist Party leaders Mao Zedong Deng Xiaoping and Zhu Rongji The common goal that unites all of these disparate figures is their determined pursuit of fuqiang wealth and power This abiding quest for a restoration of national greatness in the face of a century of humiliation at the hands of the Great Powers came to define the modern Chinese character It's what drove both Mao and Deng to embark on root and branch transformations of Chinese society first by means of Marxism Leninism then by authoritarian capitalism And this determined quest remains the key to understanding many of China's actions today By unwrapping the intellectual antecedents of today's resurgent China Orville Schell and John Delury supply much needed insight into the country's tortured progression from nineteenth century decline to twenty first century boom By looking backward into the past to understand forces at work for hundreds of years they help us understand China today and the future that this singular country is helping shape for all of us NAMED ONE OF THE BEST BOOKS OF THE YEAR BY ST LOUIS POST DISPATCH Superb beautifully written and neatly structured Financial Times An engaging narrative of the intellectual and cultural origins of China's modern rise The New York Times Book Review Informative and insightful a must read for anyone with an interest in the world's fastest rising superpower Slate It does a better job than most other books of answering a basic question the rest of the world naturally asks about China's recent rise What does China want The Atlantic The portraits are beautifully written and bring to life not only their subjects but also the mood and intellectual debates of the times in which they lived Foreign Affairs Excellent and erudite The authors combine scholarly learning with a reportorial appreciation of colorful revealing details The National Interest *From People's War to People's Rule* Timothy J. Lomperis, 2000-11-09 Timothy Lomperis persuasively argues the ironic point that the lessons of American involvement in Vietnam are not to be found in any analysis of the war by itself Rather he proposes a comparison of the Vietnam experience

with seven other cases of Western intervention in communist insurgencies during the Cold War era China Indochina Greece the Philippines Malaya Cambodia and Laos Lomperis maintains that popular insurgencies are manifestations of crises in political legitimacy which occur as a result of the societal stresses caused by modernization Therefore he argues any intervention in a people s war will succeed or fail depending on how it affects this crisis The unifying theme in the cases Lomperis discusses is the power of land reform and electoral democracy to cement political legitimacy and therefore deflect revolutionary movements Applying this theory to the ongoing Sendero Luminoso insurgency in Peru Lomperis makes a qualified prediction of that conflict s outcome He concludes that a global trend toward democratization has produced a new era of people s rule

Invisible Armies Max Boot, 2013-01-10 New York Times Bestseller A Washington Post Notable Book Nonfiction Named one of the Best Books of the Year by Foreign Policy A New York Times Book Review Editors Choice Selection Destined to be the classic account of what may be the oldest hardest form of war John Nagl Wall Street Journal Invisible Armies presents an entirely original narrative of warfare which demonstrates that far from the exception loosely organized partisan or guerrilla warfare has been the dominant form of military conflict throughout history New York Times best selling author and military historian Max Boot traces guerrilla warfare and terrorism from antiquity to the present narrating nearly thirty centuries of unconventional military conflicts Filled with dramatic analysis of strategy and tactics as well as many memorable characters from Italian nationalist Giuseppe Garibaldi to the Quiet American Edward Lansdale Invisible Armies is as readable as a novel Michael Korda Daily Beast and a timely reminder to politicians and generals of the hard earned lessons of history Economist

Politics and Purges in China Frederick C. Teiwes, 1993 Drawing upon released documents memoirs and party history works the process and impact of the political campaigns in China between 1950 and 1965 is documented Complete with extensive interviews with Chinese scholars and former officials the book reviews the findings of the first edition

Space, Politics, and Cultural Representation in Modern China Enhua Zhang, 2016-12-08 Regarding revolution as a spatial practice this book explores modes of spatial construction in modern China through a panoramic overview of major Chinese revolutionary events and nuanced analysis of cultural representations Examining the relationship between revolution space and culture in modern China the author takes five spatially significant revolutionary events as case studies the territorial dispute between Russia and the Qing dynasty in 1892 the Land Reform in the 1920s the Long March 1934-36 the mainland Taiwan split in 1949 and the Cultural Revolution 1966-76 and analyses how revolution constructs conceives and transforms space Using materials associated with these events including primarily literature as well as maps political treatises historiography plays film and art the book argues that in addition to redirecting the flow of Chinese history revolutionary movements operate in and on space in three main ways maintaining territorial sovereignty redefining social relations and governing an imaginary realm Arguing for reconsideration of revolution as a reorganization of space as much as time this book will appeal to students and scholars of Chinese culture society history and

literature *The Long March to Power* James Pinckney Harrison, 1973 History of the communist political party in China during the period from 1921 to 1972 covers the political leadership of Mao Tse Tung the role of USSR party membership relations with the nationalists and the peasant movement the long march the role of Japan military occupation government policies during the civil war rural community growth economic implications social implications etc Bibliography pp 622 to 634 illustrations maps references and statistical tables **Women and Gender in Chinese Studies** Nicola Spakowski, Cecilia Nathansen Milwertz, 2006 The State of the World's Girls report has tackled many topics girls in the global economy education girls affected by conflict and by disaster the new digital world and its implications both negative and positive for girls lives the challenges and risks of increasing urbanisation working with men and boys and looked at attitudinal structural and institutional barriers to gender equality *A Treatise on the Art of Weaving, with Calculations and Tables for the Use of Manufacturers ... Fourth Edition, Revised and Enlarged* John Murphy (Writer on weaving), 1835 **The Militarization and Weaponization of Space** Matthew Mowthorpe, 2004-01-01 The militarization of space began as a rivalry between the United States and the Soviet Union and grew to enormous proportions during the height of the Cold War Satellite reconnaissance navigation and weapons guidance and electronic intelligence comprise only a few of the efforts taken to militarize and dominate space Today as the prominence of information technology computing and telecommunications advances so does the concept of space as a battlefield In *The Militarization and Weaponization of Space* Matthew Mowthorpe diligently analyzes the military space policies of the United States the Soviet Union Russia and the People's Republic of China from the Cold War period to the present day Mowthorpe focuses on the development of the ballistic missile defense and other anti satellite systems and aptly assesses to what degree space will become armed This work cogently addresses an issue of increasing urgency to scholars of international politics *China's Emergence as a Defense Technological Power* Tai Ming Cheung, 2013-10-31 China is flexing its growing military and strategic clout in the pursuit of broadening national security interests At the same time the country's economic and technology policies have also become more nationalistic state centered and ambitious China's defense economy has set its sights on catching up with the West by the beginning of the 2020s and is making steady progress in building up its innovation capabilities although this is presently in the form of incremental and sustaining types of activities More high end disruptive forms of innovation that would lead to major breakthroughs are likely to be beyond China's reach in the near to medium term This volume provides a wide ranging and detailed assessment of the present state of the Chinese defense economy at a time of rapid change and accelerating advancement in its innovation capabilities and performance This collection of articles has three main goals 1 to locate China's defense innovation dynamics within broader historical technological and methodological frameworks of analysis 2 to assess the performance of the Chinese defense economy's six principal subsectors and 3 to compare China's approach to defense industrialization with major counterparts in the Asia Pacific region This book was originally published as

a special issue of the Journal of Strategic Studies **John Adams's Nixon in China** Professor Timothy A Johnson, 2013-01-28 John Adams's opera Nixon in China is one of the most frequently performed operas in the contemporary literature Timothy A Johnson illuminates the opera and enhances listeners and scholars' appreciation for this landmark work This music analytical guide presents a detailed in depth analysis of the music tied to historical and political contexts The opera captures an important moment in history and in international relations and a close study of it from an interdisciplinary perspective provides fresh compelling insights about the opera The music analysis takes a neo Riemannian approach to harmony and to large scale harmonic connections Musical metaphors drawn between harmonies and their dramatic contexts enrich this approach Motivic analysis reveals interweaving associations between the characters based on melodic content Analysis of rhythm and meter focuses on Adams's frequent use of grouping and displacement dissonances to propel the music forward or to illustrate the libretto The book shows how the historical depiction in the opera is accurate yet enriched by this operatic adaptation The language of the opera is true to its source but more evocative than the words spoken in 1972 due to Alice Goodman's marvelous poetic libretto And the music transcends its repetitive shell to become a hierarchically rich and musically compelling achievement **The Proceedings of 2023 International Conference on Wireless Power Transfer (ICWPT2023)** Chunwei Cai, Xiaohui Qu, Ruikun Mai, Pengcheng Zhang, Wenping Chai, Shuai Wu, 2024-03-12 This book includes original peer reviewed research papers from the 2023 International Conference on Wireless Power Transfer ICWPT2023 held in Weihai China The topics covered include but are not limited to wireless power transfer technology and systems coupling mechanism and electromagnetic field of wireless power transfer systems latest developments in wireless power transfer system and wide applications The papers share the latest findings in the field of wireless power transfer making the book a valuable asset for researchers engineers university students etc China in Transformation Colin Mackerras, 2014-06-11 In the first half of the twentieth century China moved from a millennium of imperial rule to the Communist Party led People's Republic of China which remains today China in Transformation argues that this enormously significant period in Chinese history saw wrenching change throughout Chinese society amounting to a social cultural and political transformation This new fully revised and updated edition takes full advantage of new research and formerly unavailable material to analyse the fascinating processes of revolution reform reaction and change in China during the period Mackerras Discusses the wars occupations and uprisings that marked the period including the Boxer Rebellion and the Japanese occupation and includes a new chapter on postwar China and the Civil War Examines nation building and revolutions including the successful communist movement that has led to the rise of today's state Acknowledges the prevalence of poverty and famine in the period but also gives space to the areas in which there was progress the introduction of mass secular education improvements in the status of women and in a new chapter details significant developments in culture literature and theatre Written in an accessible style with a rich collection of Documents Chronology Glossary a Guide

to Further Reading and a Who's Who summarising the careers and contributions of the main figures this new edition is essential for all those interested in understanding China's modern history **The Long March to Power** James P. Harrison, 1972 **Revolution and Dictatorship** Steven Levitsky, Lucan Way, 2024-10-29 Why the world's most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure

Revolutionary Discourse in Mao's Republic David Ernest Apter, Tony Saich, 1994 This unique interpretation of the revolutionary process in China uses empirical evidence as well as concepts from contemporary cultural studies Apter and Saich base their analysis on recently available primary sources on party history accounts of the Long March and Yan'an period and interviews with veterans and their relatives **Friends and Enemies**, 2021-10-05 Friends and Enemies delivers a lucid and provocative history of one of the world's largest and most successful political organizations the Chinese Communist Party In tracing the traumatic and bitter struggles that forged modern China and analysing the Party's approach to the challenges of the future Brown successfully lays bare the inner workings of this enduring and formidable group *A Treatise on the Art of Weaving* Murphy, 1857 *China and the World* David Shambaugh, 2020-01-02 As the world evolves in increasingly unpredictable directions one of the key determinants of the future global order will surely be the impact of China No country and no society can escape China's reach indeed many seek its embrace China brings benefits to many but it's also a problematic interlocutor for others In *China and the World* one of the world's leading China specialists David Shambaugh has assembled fifteen leading international authorities on China to create the most comprehensive and up to date scholarly assessment of China's foreign relations and roles in international affairs The volume covers China's contemporary position in all regions of the world with all major powers and across multiple arenas of China's international

interactions It also explores the sources of China's grand strategy how the past shapes the present and the impact of domestic factors that shape China's external behavior China and the World is a uniquely focused and well organized volume that provides many insights into China's calculations and behavior and identifies a number of challenges China will face in the future **The Incarnations** Susan Barker,2016-05-03 Originally published in Great Britain in 2014 by Doubleday
