Looking For Genet Literary Essays And Reviews:

Looking for Genet Alfred Chester, 1992 Looking for Genet brings together twenty five of Chester's notorious essays and reviews including pieces on Nabokov's *Pale Fire* a total wreck and for one reason it's not funny and it's supposed to be Burroughs's *Naked Lunch* the first half is pleasantly readable without too much skipping the second is pleasantly skippable without too much yawning and Updike's *Pigeon Feathers* a god who has allowed a writer to lavish such craft upon these worthless tales is capable of anything Here too are sketches from his penniless bohemian life in Paris seven Letters from Morocco written for the New York Herald Tribune and Chester's final piece the half mad previously unpublished Letter from the Wandering Jew a howl of rage and despair from his hated final home Jerusalem Together these pieces are testament to the life and the talent of the Sixties most memorable literary iconoclasts

Improper Modernism Daniela Caselli, 2016-12-05 In her compelling reexamination of Djuna Barnes's work Daniela Caselli raises timely questions about Barnes biography and feminist criticism identity and authority and modernist canon formation Through close readings of Barnes's manuscripts correspondence critically acclaimed and little known texts Caselli tackles one of the central unacknowledged issues in Barnes intertextuality She shows how throughout Barnes's corpus the repetition of texts by other authors from Blake to Middleton and by Barnes herself forces us to rethink the relationship between authority and gender and the reasons for her marginal place within modernism All her texts linked as they are by correspondences and permutations wage a war against the common sense of the straight mind Caselli begins by analyzing how literary criticism has shaped our perceptions of Barnes showing how the various personae assigned to Barnes are challenged when the right questions are posed Why is Barnes such a famous author when many of her texts remain unread even by critics Why has criticism reduced Barnes's work to biographical speculations How can Barnes's hybrid eccentric and unconventional corpus be read as part of literary modernism when it often seems to sever itself from it How can an oeuvre reject the labels of feminist and lesbian literature whilst nevertheless holding at its centre the relationships between language sexuality and the real How can Barnes's work help us to rethink the relation between simplicity and difficulty within literary modernism Caselli concludes by arguing that Barnes's complex and bewildering work is committed to a high modernist notion of art as a supremely difficult undertaking whilst refusing to conform to standards of modernist acceptability

Writing Tangier in the Postcolonial Transition Michael K. Walonen, 2016-02-17 In his study of the Tangier expatriate community Michael K Walonen analyzes the representations of French and Spanish Colonial North Africa by Paul Bowles Jane Bowles William Burroughs Brion Gysin and Alfred Chester during the end of the colonial era and the earliest days of post independence The conceptualizations of space in these authors descriptions of Tangier Walonen shows share common components an attention to the transformative potential of the conflict sweeping the region a record of the power relations that divided space along lines of gender and ethnicity including the spatial impact of the widespread sexual commerce between Westerners and natives a vision of the Maghreb as a land

that can be dominated or imposed on as a kind of frontier space an expression of anxieties about the specters of Cold War antagonisms and an embrace of the underlying logic of the market to the culture of the Maghreb Counterbalancing the depictions of Tangier by Westerners who sought to reconcile their nostalgia for the colonial order with their support of native demands for independent governance is Walonen s extended analysis of the contrasting sense of place found in the writings of native Moroccan authors such as Mohammed Choukri Tahar Ben Jelloun and Anouar Majid In its focus on Tangier and the larger Maghreb as a lived environment situated at a particular spatial and temporal crossroads Walonen s study makes an important contribution to the fields of urban transatlantic and postcolonial studies *The Exquisite Corpse* Kanta

Benthien, Jordis Lau, Maraike M. Marxsen, 2018-09-21 The beginning of the 20th century saw literary scholars from Russia positing a new definition for the nature of literature Within the framework of Russian Formalism the term literariness was coined The driving force behind this theoretical inquiry was the desire to identify literature and art in general as a way of revitalizing human perception which had been numbed by the automatization of everyday life The transformative power of literariness is made manifest in many media artworks by renowned artists such as Chantal Akerman Mona Hatoum Gary Hill Jenny Holzer William Kentridge Nalini Malani Bruce Nauman Martha Rosler and Lawrence Weiner The authors use literariness as a tool to analyze the aesthetics of spoken or written language within experimental film video performance moving image installations and other media based art forms This volume uses as its foundation the Russian Formalist school of literary theory with the goal of extending these theories to include contemporary concepts in film and media studies such as Neoformalism intermediality remediation and postdrama **Review of Contemporary Fiction**, 1993 **LGBTQ**

Another Look Gary Lenhart,2010 Literary Nonfiction Poetry History Criticism Poetics Opinions tend to be uninteresting which is one of the reasons why I always like reading poet Gary Lenhart s critical pieces he gives us far more than thumbs up or thumbs down In his clean clear prose Lenhart comes across as companionable smart well read alert and sane He has no terrible axes to grind and he never lords it over the work under scrutiny Even on those rare occasions when I disagree with him I trust his probity I am delighted by his wit and I applaud the fact that ultimately he is rooting for everyone to write well Ron Padgett Modern American Literature: H-O Joann Cerrito,Laurie DiMauro,1999 Presents critical excerpts and analyses from a variety of sources that combine to provide overviews of the work of 157 of the most significant authors of the modern period in American literature arranged alphabetically with bibliographies

The Political Uses of Literature Benjamin Kohlmann,Ivana Perica,2024-01-11 Drawing on a global history of politicized writing this book explores literature s utility as a mode of activism and aesthetic engagement with the political challenges of the current moment The question of literature s uses has recently become a key topic of academic and public debate Paradoxically however these conversations often tend to bypass the rich history of engagements with literature s distinctly political uses that form such a powerful current of 20th and 21st century artistic production and critical theoretical reflection The Political Uses of Literature reopens discussion of literature s political and activist genealogies along several interrelated lines As a foundational moment it draws attention to the important body of interwar politicized literature and to debates about literature s ability to intervene in social reality It then traces the mobilization of related conversations and artistic practices across several historical conjunctures most notably the committed literature of the 1960s and our own present In mapping out these geographically and artistically diverse traditions including case studies from the Americas Europe Africa India and Russia contributors advance critical discussions in the field making questions pertaining to politicized art newly compelling to a broader and more diverse readership Most importantly this volume insists on the need to think about literature s political uses today at a time when it has become increasingly difficult to imagine any kind of political efficacy for art even as the need to do so is growing more and more acute Literature may not proffer easy answers to our political problems but as this collection suggests the writing of the 20th century holds out aesthetic resources for a renewed engagement with the dilemmas that face us now **The Continuum Encyclopedia of American Literature**

Fulton,1994 **Genetics and the Literary Imagination** Clare Hanson,2020-05-06 Oxford Textual Perspectives is a series of informative and provocative studies focused upon literary texts conceived of in the broadest sense of that term and the

technologies cultures and communities that produce inform and receive them It provides fresh interpretations of fundamental works and of the vital and challenging issues emerging in English literary studies By engaging with the materiality of the literary text its production and reception history and frequently testing and exploring the boundaries of the notion of text itself the volumes in the series question familiar frameworks and provide innovative interpretations of both canonical and less well known works This is the first book to explore the dramatic impact of genetics on literary fiction over the past four decades After James Watson and Francis Crick s discovery of the structure of DNA in 1953 and the subsequent cracking of the genetic code a gene centric discourse developed which had a major impact not only on biological science but on wider culture As figures like E O Wilson and Richard Dawkins popularised the neo Darwinian view that behaviour was driven by genetic self interest novelists were both compelled and unnerved by such a vision of the origins and ends of life This book maps the ways in which Doris Lessing A S Byatt Ian McEwan and Kazuo Ishiguro wrestled with the reductionist neo Darwinian account of human nature and with the challenge it posed to humanist beliefs about identity agency and morality It argues that these novelists were alienated to varying degrees by neo Darwinian arguments but that the recent shift to postgenomic science has enabled a greater rapprochement between biological and post humanist concepts of human nature The postgenomic view of organisms as agentic and interactive is echoed in the life writing of Margaret Drabble and Jackie Kay which also explores the ethical implications of this holistic biological perspective As advances in postgenomics especially epigenetics provoke increasing public interest and concern this book offers a timely analysis of debates that have fundamentally altered our understanding of what it means to be human
