Looting America Greed Corruption Villains And Victims:

Looting America Stephen M. Rosoff, Henry N. Pontell, Robert Tillman, 2003 This book presents a vivid picture of pervasive corporate fraud The authors well known authorities on criminology argue that white collar crime is the most pernicious crime problem in America today with financial physical and social costs dwarfing those of street crime **Looting America** traces the historical roots of scandals infecting our economy today with provocative information that will arouse righteous indignation **BOOK JACKET**

American Smuggling as White Collar Crime Lawrence Karson, 2020-09-29 When Edwin Sutherland introduced the concept of white collar crime he referred to the respectable businessmen of his day who had in the course of their occupations violated the law whenever it was advantageous to do so Yet since the founding of the American Republic numerous otherwise respectable individuals had been involved in white collar criminality Using organized smuggling as an exemplar this narrative history of American smuggling establishes that white collar crime has always been an integral part of American history when conditions were favorable to violating the law This dark side of the American Dream originally exposed itself in colonial times with elite merchants of communities such as Boston trafficking contraband into the colonies It again came to the forefront during the Embargo of 1809 and continued through the War of 1812 the Civil War nineteenth century filibustering the Mexican Revolution and Prohibition The author also shows that the years of illegal opium trade with China by American merchants served as precursor to the later smuggling of opium into the United States The author confirms that each period of smuggling was a link in the continuing chain of white collar crime in the 150 years prior to Sutherland s assertion of corporate criminality

The big reset revised edition Willem Middelkoop, 2015-12-11 A system reset seems imminent The world s financial system will need to find a new anchor before the year 2020 Since the beginning of the credit crisis the US realized the dollar will lose its role as the world s reserve currency and has been planning for a monetary reset According to Willem Middelkoop this reset will be designed to keep the US in the driver s seat allowing the new monetary system to include significant roles for other currencies such as the euro and China s renminbi Prepare for the coming Reset In all likelihood gold will be re introduced as one of the pillars of this next phase in the global financial system The prediction is that gold could be revalued at 7 000 per troy ounce By looking past the American smokescreen surrounding gold and the dollar long ago China and Russia have been accumulating massive amounts of gold reserves positioning themselves for a more prominent role in the future to come The reset will come as a shock to many The Big Reset will help everyone who wants to be fully prepared This fully revised edition of Middelkoop s book takes into account developments since its original publication which have only strengthened the case for the coming return of gold

Myths and Misunderstandings in White-Collar Crime Miriam H. Baer, 2023-08-10 Myths and Misunderstandings in White Collar Crime uses real world examples to explore the pathologies that hamper our ability to understand and redress white collar crime The book argues that misinterpretations about federal white collar crime impede its lawmaking enforcement and discourse leading it to be overcriminalized and underenforced Many of these pathologies can be traced to the federal code s

failure to subdivide white collar crimes by degrees of severity and by the legislature's outsourcing of criminal lawmaking to other institutions. With deep knowledge of the federal code and theories of institutional design and behavioral psychology at her disposal, Miriam Baer offers a step by step framework for redressing these problems by paying greater attention to how we write frame and lay out our federal criminal code. A clearer subdivided criminal code she argues paves the way for more informed and productive deliberation and fewer myths and misunderstandings. **Comic Drama** W. D. Howarth, 2022-04-26

Ever since comedies were first performed in the ancient world the definition of the term comedy has been debated by both playwrights and critics. Originally published in 1978, this volume does not attempt a precise definition but reviews the various interpretations that have been put forward through the ages, taking as evidence important theoretical writings as well as the plays themselves and pointing out not only common features but also notable exceptions. The comic drama of Western Europe since the Renaissance is here surveyed in a series of chapters devoted principally to the tradition of European comedy as it developed in the major national literatures. The perspective is expanded to include on the one hand the origins in classical Greece and Rome and on the other the influence of cinema, radio and television comedy at the time American as well as European. A structural basis for the volume as a whole is provided in an analytical introduction where the essential problems are defined: such issues as the relationship between comedy and satire, comedy and farce, the distinction between laughter and smile, the respective claims of realism and fantasy, the role of plot and of dialogue, the place of sentiment and of moral teaching and the possibility of comic catharsis. In this way the nature and evolution of European comedy is presented in an original and coherent form, not only offering an invaluable aid to students seeking guidance in literature of which they are not making a specialist study but stimulating the more experienced reader to think again about familiar plays. *Policing the World on Screen* Marilyn Yaquinto, 2019-11-08

This book analyzes Hollywood storytelling that features an American crimefighter, whether cop, detective or agent, who must safeguard society and the nation by any means necessary. That often means going rogue and breaking the rules, even deploying ugly violence but excused as self defense or to serve the greater good. This ends justifies means approach dates back to gunfighters taming the western frontier to urban cowboy cops battling urban savagery, first personified by Dirty Harry Callahan and later dispatched in global interventions to vanquish threats to national security. America as the world's policeman often means controlling the Other at home and abroad, which also extends American hegemony from the Cold War through the War on Terror. This book also examines pioneering portrayals by males of color and female crimefighters to embody such a social or national defender, which are frustrated by their existence as threats the white knight exists to defeat. Profit Without Honor Stephen M. Rosoff, Henry N. Pontell, Robert Tillman, 1998

Its domain stretches from the small price gouging merchant to the huge price fixing cartel. It can breed in an antiseptic hospital or a toxic dump. It is at home on Main Street, Wall Street, Madison Avenue and countless other

addresses including at times 1600 Pennsylvania Avenue
