Major Trends And Issues:

Current Trends and Issues in Internal Communication Linjuan Rita Men, Ana Tkalac Verčič, 2021-09-28 This edited book delves into important current issues and trends in internal communication from a strategic communication perspective. It presents recent research findings, theories, best practices, and cases in internal communication on a global scale. The book discusses emerging and important long-standing issues in depth, including topics such as employee advocacy, internal social media, internal issue management, and crisis communication, employee activism, purposeful communication, leadership, communication, internal CSR, communication, cross-cultural, global internal communications, internal communication, and employee well-being. Within these topics, the chapters address the function of internal communications in contemporary times, the role of leaders, how to integrate emerging technologies, building an internal brand, and measuring the effectiveness of internal communication. This book will be a comprehensive source on internal communication, especially on its new theoretical development related to the emerging issues and trends, best practices, and future directions for research and practice.

Explainable AI for Education: Recent Trends and Challenges Tanu Singh, Soumi Dutta, Sonali Vyas, Álvaro Rocha, 2024-11-27 Explainable AI for Education: Recent Trends and Challenges is a comprehensive exploration of the intersection between artificial intelligence (AI) and education. In this book, we delve into the critical need for transparency and interpretability in AI systems deployed within educational contexts. Key Themes: Understanding AI in Education: We provide a concise overview of AI techniques commonly used in educational settings, including recommendation systems, personalized learning, and assessment tools. Readers will gain insights into the potential benefits and risks associated with AI adoption in education. The Black Box Problem: AI models often operate as black boxes, making it challenging to understand their decision-making processes. We discuss the implications of this opacity and emphasize the importance of explainability. Explainable AI (XAI) Techniques: From rule-based approaches to neural network interpretability, we explore various methods for making AI models more transparent. Examples and case studies illustrate how XAI can enhance educational outcomes. Ethical Considerations: As AI becomes more integrated into education, ethical dilemmas arise. We address issues related to bias, fairness, and accountability, emphasizing responsible AI practices. Future Directions: Our book looks ahead, considering the evolving landscape of AI and its impact on education. We propose research directions and practical steps to promote XAI adoption in educational institutions.

Routledge Handbook of Trends and Issues in Global Tourism Supply and Demand Alastair M. Morrison, Dimitrios Buhalis, 2023-09-25 This Handbook provides a comprehensive overview of trends and issues in the global supply and demand on tourism. With contributions from 70 authors, this Handbook showcases a diverse range of perspectives with insights from around the globe. It reviews the interactions among trends and issues and emphasizes the importance of tracking and interpreting these on a global scale. The book is organized into three parts, with Part I focusing on supply-side trends, including transport, attractions, culture, heritage, tourism, technology, policies, and destination management.

Current Trends and Challenges in RFID Cornel Turcu,2011-07-20 With the increased adoption of RFID Radio Frequency Identification across multiple industries new research opportunities have arisen among many academic and engineering communities who are currently interested in maximizing the practice potential of this technology and in minimizing all its potential risks Aiming at providing an outstanding survey of recent advances in RFID technology this book brings together interesting research results and innovative ideas from scholars and researchers worldwide Current Trends and Challenges in RFID offers important insights into RF RFID Background RFID Tag Antennas RFID Readers RFID Protocols and Algorithms RFID Applications and Solutions Comprehensive enough the present book is invaluable to engineers scholars graduate students industrial and technology insiders as well as engineering and technology aficionados

Routledge Handbook of Trends and Issues in Tourism Sustainability, Planning and Development, Management, and Technology Alastair M. Morrison,Dimitrios Buhalis,2023-09-12 The Handbook offers a comprehensive overview of theoretical and practical perspectives for tracking and interpreting trends and issues in tourism sustainability planning and development management and technology Tourism is a dynamic and unpredictable industry and understanding its trends and issues is critical for the successful and sustainable development of the private and public sector As such this Handbook proposes clear definitions and provides a systematic classification scheme for such analysing It reviews trends and issues in four thematic areas of tourism sustainability planning and development management and technology with contributions from 83 leading tourism scholars from across the globe The Handbook provides insights on the differences among domestic outbound and inbound markets and acknowledges that the supply sub sectors of tourism are diverse highlighting variations by geographic regions The book emphasises the necessity to prioritise sustainability and the achievement of the UN s Sustainable Development Goals SDGs Students and professionals interested in tourism hospitality and sustainability will find a wealth of multidisciplinary knowledge in this Handbook

Future Electricity Systems: Challenges and Current Trends (NCEFES 2021) Institution of Engineers (Jodhpur Local Center),2022-06-13 This book features selected papers from the 36th National Convention of Electrical Engineers and Conference on Future Electricity Systems Challenges and Current Trends NCEFES 2021 held in hybrid mode by Institution of Engineers Jodhpur Local Centre Jodhpur India during 27 28 November 2021 The book features original papers presented by graduate students research scholars academicians and industry persons during

this conference The topics covered in the book include recent advances in Distributed generation and Power quality Optimization techniques Renewable energy Alternative energy Reliability of distributed energy systems Smart microgrid Advanced monitoring novel control strategies Real time simulation contingencies analysis Ancillary services metering Economic benefits Application of machine learning Data acquisition Internet of Things IOT Load forecasting Future electricity systems Integration of communication technology Blockchain technology its application in Energy systems Cloud computing for energy Cyber physical energy systems Renewable energy grid integration Smart protection techniques for electrical distribution network Recent developments in electrical technology for sustainable smart cities and energy management

Exploring Explainable IoT: Recent Trends, Challenges and Future Directions Dr. Omkar Singh, Ms. Abhilasha Singh, Mr. Vinoth Rengaraj, Mr. Navanendra Singh, 2025-05-20 Exploring Explainable IoT Recent Trends Challenges and Future Directions offers an in depth exploration of the emerging field of explainability within the Internet of Things IoT landscape As IoT systems become more intelligent and autonomous integrating AI and machine learning for tasks such as smart decision making automation and real time analytics the demand for transparency and interpretability has grown significantly This book provides a comprehensive overview of the latest developments in Explainable IoT addressing how explainability can enhance trust accountability and human understanding in complex data driven environments It examines the current trends driving research and innovation from edge based explainable models to user centric design while also confronting critical challenges such as the trade off between model accuracy and interpretability limited computational resources on IoT devices and data privacy concerns The book brings together interdisciplinary perspectives combining insights from artificial intelligence human computer interaction embedded systems and cloud edge computing to propose novel frameworks and architectures for building more transparent IoT solutions It also outlines promising future directions including the role of explainability in ethical AI regulatory frameworks and adaptive systems that learn and explain in real time Aimed at researchers practitioners and students this book serves as both a foundational resource and a forward looking guide for developing explainable and trustworthy IoT technologies across a range of application domains

New Trends and Challenges in Information Science and Information Seeking Behaviour Octavia-Luciana Madge, 2021-07-16 This book presents a series of recent studies that introduce current topics and novel concepts in the field of information science Among the chapters are discussions of the contribution of information science to society in the dual context of the Fourth Industrial Revolution and Agenda 2030 some negative aspects of information behaviour including criminal activities in the dark web and the hikikomori phenomenon the hot issues of fake news and hate speech from a library and information science perspective gamification in libraries and the new concepts of jamography and disnormative information Intended for information specialists and researchers librarians and library and information science students the book analyses how people use information what their information needs are and how these needs are satisfied in today s digital world The book can also

serve as a useful reference for the education and training of students and specialists in library and information services

Measuring Multinational Production with Foreign Direct Investment Statistics: Recent Trends, Challenges, and Developments Bruno Casella, Maria Borga, Mr. Konstantin Wacker, 2023-06-02 In a complex global production landscape the quest for measures of economic activity by multinational enterprises MNEs has become more pressing Foreign Direct Investment FDI statistics which capture financing aspects of MNEs have often been used as a proxy for multinational production given their wide availability and cross country comparability but concerns that multinational production occurs in different countries than where financial positions are recorded call this practice into question This paper revisits the main objections to the use of FDI as a proxy for multinational production explores counterarguments and provides guidance on the use of FDI statistics to measure multinational production

The Evolving College Presidency: Emerging Trends, Issues, and Challenges Martin III, Quincy, Cooney, Matthew A., 2022-06-24 Incoming college presidents are entering the job at a time when the role is increasingly challenging as they are asked to do more decide and act faster create and maintain more relationships and demonstrate successes while under an unrelenting microscope The range of leadership skills and competencies surrounding the current college presidency requires well prepared and well informed college presidential aspirants Research shows there is no formal training framework available in colleges to prepare successful candidates for the presidency Consequently most incoming college presidents have lamented being ill prepared for the role The Evolving College Presidency Emerging Trends Issues and Challenges provides guidance and career trajectory advice for aspiring college presidents as they prepare to take on this challenging and dynamic role The text also explores the emerging trends issues and challenges of the college presidency including issues such as diversity and inclusion funding and fundraising and political issues Covering a range of critical topics such as student affairs and community relationships this reference work is vital for higher education professionals administrators researchers practitioners scholars academicians instructors and students

Current Trends and Concerns in Infectious Diseases I. W. Fong, 2020-03-06 A follow up to Emerging Issues and Controversies in Infectious Diseases this volume provides a comprehensive review of topical issues in infectious diseases highlighting the controversies related to the newest findings and recommendations Coverage includes trends and debates in HIV research community acquired pneumonia H pylori progress in Hepatitis C treatment paired with the lack of progress on Hepatitis B and the effects of climate change on infectious disease epidemiology among others This is an essential resource for practicing and academic physicians investigators residents and fellows focused on infectious diseases infection control public health and global health

Recent Trends in Data Science and Soft Computing Faisal Saeed, Nadhmi Gazem, Fathey Mohammed, Abdelsalam Busalim, 2018-09-08 This book presents the proceedings of the 3rd International Conference of Reliable Information and Communication Technology 2018 IRICT 2018 which was held in Kuala Lumpur Malaysia on July 23 24 2018 The main theme of the conference was Data Science AI and IoT Trends for the Fourth Industrial Revolution A total of

158 papers were submitted to the conference of which 103 were accepted and considered for publication in this book. Several hot research topics are covered including Advances in Data Science and Big Data Analytics, Artificial Intelligence and Soft Computing, Business Intelligence, Internet of Things, IoT Technologies and Applications, Intelligent Communication Systems, Advances in Computer Vision, Health Informatics, Reliable Cloud Computing Environments, Recent Trends in Knowledge Management, Security Issues in the Cyber World, and Advances in Information Systems Research Theories and Methods.

Recent Trends in Discourse and Dialogue Laila Dybkjær, Wolfgang Minker, 2008-02-13. The eleven chapters of this book represent an original contribution to the field of multimodal spoken dialogue systems. The material includes highly relevant topics such as dialogue modeling in research systems versus industrial systems. The book contains detailed application studies including speech-controlled MP3 players in a car environment, negotiation training with a virtual human in a military context, and the application of spoken dialogue to question answering systems.

Risk Analysis and Management - Trends, Challenges and Emerging Issues Ales Bernatik, Chongfu Huang, Olivier Salvi, 2017-06-26. This book collects the papers presented at the 6th International Conference on Risk Analysis and Crisis Response RACR 2017 held in Ostrava, Prague, Czech Republic, on June 5-9, 2017, organized by VSB Technical University of Ostrava, Czech Republic. The overall theme of the sixth international conference on risk analysis and crisis response is Risk Analysis and Management Trends, Challenges and Emerging Issues, highlighting science and technology to improve risk analysis capabilities and to optimize crisis response strategy. This book contains primarily research articles on risk issues. Underlying topics include natural hazards and major chemical accidents, prevention, disaster risk reduction, and society resilience, information and communication technologies, safety and cybersecurity, modern trends in crisis management, energy and resources, security, critical infrastructure, nanotechnology, safety, and others. All topics include aspects of multidisciplinary and complexity of safety in education and research. The book should be valuable to professors, engineers, officials, businessmen, and graduate students in risk analysis and risk management. About the book series: Communications in Cybernetics, Systems Science, and Engineering Proceedings (CCSSEP) is a cross-disciplinary book series devoted to theoretical and applied research contributions that cater to a rapidly growing worldwide interest in a cybernetic and systemic methodology with an ever-increasing capacity to deal with new challenges in a way that traditional science cannot. The series aims to become a comprehensive reference work and a guide to developments within the field and strategies required for better implementation of advances with a view to environmental protection and sustainable social and economic development. The CCSSE series targets all working in theoretical and applied fields of cybernetics, systems science, and engineering, e.g., academics, researchers, and consultants, computer and information scientists, development and systems engineers, mathematicians, management cyberneticists, and systemists, medical scientists, and intelligent and manufacturing engineers in industry, as well as leading decision and policy makers. Series editor: Jeffrey Yi Lin Forrest. *Trends, Challenges &*

Innovations in Management Dr Ramesh Kumar Miryala, 2015-03-15 Globalization has proliferated business with numerous challenges and opportunities and simultaneously at other end the growth in economy population income and standard of living has redefined the scope of business and thus the business houses approaches A highly competitive environment knowledgeable consumers and quicker pace of technology are keeping business enterprises to be on their toes Today management and its concepts have become key for survival of any business entity The unique cultural characteristics tradition and dynamics of consumer demand an innovative management strategy to achieve success Effective Management has become an increasingly vital ingredient for business success and it profoundly affects our day to day life Today the role of a business houses has changed from merely selling products and services to transforming lives and nurturing lifestyles The Indian business is changing and so do the management strategies These changing scenarios in the context of globalization will bestow ample issues prospects and challenges which need to be explored The practitioners academicians and researchers need to meticulously review these aspects and acquaint them with knowledge to sustain in such scenarios Thus these changing scenarios emphasize the need of a broad based research in the field of management also reflecting in management education This book is an attempt in that direction I sincerely hope that this book will provide insights into the subject to faculty members researchers and students from the management institutes consultants practicing managers from industry and government officers *Trends and Issues in OD* Wyatt Warner Burke, Leonard David Goodstein, 1980

Current Trends and Legal Issues in Special Education David F. Bateman, Mitchell L. Yell, 2019-04-25 Building and supporting effective special education programs School leaders and special educators are expected to be experts on all levels and types of special education law and services types of disability and aspects of academic and functional programming With the increasing demands of the job and the ever changing legal and educational climate few feel adequately prepared to meet the demands *Trends and Legal Issues in Special Education* helps you build and support timely legally sound and effective special education services and programs Readers will find the most up to date information on how to effectively implement special education programs processes and procedures examination of a wide variety of issues from developing and implementing individual education programs IEPs that confer a free appropriate public education Section 504 least restrictive environment LRE and successfully collaborating with parents to issues regarding accountability staffing bullying early childhood special education multi tiered systems of support MTSS evidence based practices transition discipline and the school to prison pipeline extensive references and resources

Current Trends and Future Developments on (Bio-) Membranes Angelo Basile, Sylwia Mozia, Raffaele Molinari, 2018-06-15 *Current Trends and Future Developments on Bio Membranes* Photocatalytic Membranes and Photocatalytic Membrane Reactors offers a comprehensive review on the state of the art in the area of PMs and PMRs The book gives an overview of the basis of photocatalysis and membrane separation and the basic aspects of photocatalytic membranes and photocatalytic membrane reactors along with their applications modeling

and the economic aspects of PMs and PMRs The book addresses the main issues associated with PMRs design and tries to predict how long it will be before laboratory scale models can be scaled to the PMR industry Reviews new hybrid separation techniques based on photocatalysis and membranes Offers a detailed description of the various photocatalytic membrane reactors and their function Includes new membrane based separation techniques for the removal of emerging contaminants from water such as pharmaceutical and personal care products Discusses numerous reactor configurations and various membrane materials for photocatalytic membranes Includes the modeling and economic aspects of various processes

Recent Trends in Communication and Electronics Sanjay Sharma,Astik Biswas,Brajesh Kumar Kaushik,Vibhav Sachan,2021-06-29 The Department of Electronics and Communication Engineering of KIET Group of Institutions Delhi NCR organized the 4th International Conference ICCE 2020 during November 28 29 2020 Information compiled in this book is based on the 114 research papers of excellent quality covering different domains of Electronics and Communication Engineering Computer Science Engineering Information Technology Electrical Engineering Electronics and Instrumentation Engineering The subject areas treated in the book are Satellite Radar and Microwave Techniques Secure Smart and Reliable Networks Next Generation Networks Devices Circuits Signal Image Processing New Emerging Technologies having the central focus on Recent Trends in Communication Electronics ICCE 2020 In addition a few themes based on Special Sessions have also been conducted in ICCE 2020 The objective of the book resulting from the 4th International Conference on Recent Trends in Communication Electronics ICCE 2020 is to provide a resource for the study and research work for an interested audience comprising of researchers students audience and practitioners in the areas of Communications Computing Systems

Trends, Challenges, and Practices in Contemporary Strategic Management Mızrak, Filiz,2024-01-10 Modern business dynamics are an intricate and strategic landscape that underpins organizational triumphs despite today s turbulent market Those fervently exploring the symbiosis of theory and reality within the strategic realm of contemporary strategic management require a solid understanding of the concept and they can now enhance this journey with Trends Challenges and Practices in Contemporary Strategic Management This seminal work unfurls a tapestry of erudition guiding its readers through the corridors of contemporary strategic management Targeting a diverse readership encompassing academicians researchers students and industry leaders the book s scope is as expansive as its subject matter For scholars and researchers its pages unfold a treasure trove of contemporary strategic management theories their evolution and cutting edge practices Practitioners entrusted with steering strategic compasses will glean a pragmatic arsenal of insights and best practices their leadership acumen fortified to navigate the most tempestuous waters of organizational strategy Covering from disruptive innovation and strategic leadership in a digital epoch to sustainability global strategy and the pivotal role of artificial intelligence in shaping strategies this book mirrors the ever evolving cadence of contemporary strategic management
