Singleton,1997-07-31 Noplace Like Home uses four masterpieces of Russian literature Nikolai Gogol's *Dead Souls* Ivan Goncharov's *Oblomov* Evgenii Zamiatin's *We* and Mikhail Bulgakov's *The Master and Margarita* to show the successes and failings in Russia's search for home and self Interdisciplinary in spirit Noplace Like Home introduces Russian culture for the first time to the field of home studies which

explores human identity in terms of man's relationship with domestic space. This broad social context together with general cultural patterns expressed in the novels encourages readers to consider even the most current events in Russian society where identity and stability are again key issues in terms of home, homelessness and no place.

Memory, Edited Abby Smith Rumsey, 2023-09-05. An exploration of historical memory and networks of meaning in the context of today's crises of extremism and polarization. As authoritarianism continues to rise around the world, the stories we tell ourselves about what has happened and what is happening become ever more relevant. In *Memory*, Edited Abby Smith Rumsey examines collective memory, how it binds us, and how it can be used by bad actors to manipulate us. Bringing forward the voices of a rich cast of Eastern European artists from the past two hundred years, from Fyodor Dostoevsky to Gerhard Richter, Rumsey shows how their work and lives illustrate the devastation wrought by regimes dependent on entrenched lies to survive. This hijacking of the narrative polarizes communities even as it commandeers our future. Through an interdisciplinary lens that includes the best thinking from history, the arts, cognitive science, psychology, and political philosophy, Rumsey lays bare our narratives, showing how they are constructed and how they have changed over time. Ever aware of resisting the false promise of utopia, Rumsey argues that only by confronting the past and reckoning with the crimes that were committed can we ever hope to heal and gain self-knowledge. *Memory, Edited* is an indispensable text for anyone who cares about democracy, equality, and freedom in our current age of crisis.

Russia, Alexander Lukin, 2019-02-01. This book is based on the collection of articles centered around Russia and its policies. The articles are grouped under three parts. The first part contains articles on international relations, Russian foreign policy, and the situation in the world. The main themes they cover include Russian policy in Asia and the Eurasian integration in which Moscow plays the most active role. The second part looks at the theorization of Russia's internal processes, issues concerning reforms to the communist system, its troubled transition from Communism, and analysis of the country's current political regime. While elaborating on various reforms and transition from the communist system, the author has suggested certain alternative concepts. Many of the articles analyze the shortcomings and inconsistencies of the modern Russian political system. The third part is devoted to current issues in Russian politics, the democratization process, growing authoritarian tendencies, mass protests, and that evaluate the programs and policies of individual leaders. The book will be of interest to those specializing in Russian foreign and domestic policy as well as to all those interested in following the developments of this country, its role in the world, and the global situation in general.

On Russian Soil, Mieka Erley, 2021-06-15. Blending close readings of literature, films, and other artworks with analysis of texts of political philosophy, science, and social theory, Mieka Erley offers an interdisciplinary perspective on attitudes to soil in Russia and the Soviet Union from the early nineteenth to the mid twentieth century. As Erley shows in *On Russian Soil*, the earth has inspired utopian dreams, reactionary ideologies, social theories, and durable myths about the relationship between nation and nature. In this period of modernization, soil was understood as the collective body of the nation, sitting at the crux of all.

economic and social problems The soil question was debated by nationalists and radical materialists Slavophiles and Westernizers poets and scientists On Russian Soil highlights a selection of key myths at the intersection of cultural and material history that show how soil served as a natural national and symbolic resource from Fedor Dostoevsky's native soil movement to Nikita Khrushchev's Virgin Lands campaign at the Soviet periphery in the 1960s Providing an original contribution to ecocriticism and environmental humanities Erley expands our understanding of how cultural processes write nature and how nature inspires culture On Russian Soil brings Slavic studies into new conversations in the environmental humanities generating fresh interpretations of literary and cultural movements and innovative readings of major writers

Dostoevsky and the Riddle of the Self Yuri

Corrigan, 2017-10-15 Dostoevsky was hostile to the notion of individual autonomy and yet throughout his life and work he vigorously advocated the freedom and inviolability of the self This ambivalence has animated his diverse and often self-contradictory legacy as precursor of psychoanalysis forefather of existentialism postmodernist avant la lettre religious traditionalist and Romantic mystic Dostoevsky and the Riddle of the Self charts a unifying path through Dostoevsky's artistic journey to solve the mystery of the human being Starting from the unusual forms of intimacy shown by characters seeking to lose themselves within larger collective selves Yuri Corrigan approaches the fictional works as a continuous experimental canvas on which Dostoevsky explored the problem of selfhood through recurring symbolic and narrative paradigms Presenting new readings of such works as *The Idiot* *Demons* and *The Brothers Karamazov* Corrigan tells the story of Dostoevsky's career long journey to overcome the pathology of collectivism by discovering a passage into the wounded embattled forbidding revelatory landscape of the psyche Corrigan's argument offers a fundamental shift in theories about Dostoevsky's work and will be of great interest to scholars of Russian literature as well as to readers interested in the prehistory of psychoanalysis and trauma studies and in theories of selfhood and their cultural sources

The Bear Watches the Dragon Alexander Lukin, 2016-09-16 China and Russia two giants dominating the Eurasian landmass share a history of

understanding and misunderstanding whose nuances are not well appreciated by outsiders In his interpretation of this relationship from the Russian point of view Alexander Lukin shows how over the course of three centuries China has seemed alternately to threaten mystify imitate mirror and rival its northern neighbor Lukin traces not only the changing dynamics of Russian Chinese relations but the ways in which Russia s images of China more profoundly reflected Russia s self perception and its perceptions of the West as well As both Russia and China take distinctive approaches to political and economic development and integration in the twenty first century global economy this reinterpretation of their relationship is timely and valuable not only to historians but to all students of international affairs
