parole In addition Braun provides an in depth case study on the general position of victims in criminal trials especially in light of national criminal justice policy in Germany a mostly inquisitorial system and Australia a largely adversarial system In light of its findings the book ponders whether at this stage in time a greater focus on victim protection rather than on active procedural rights could be more beneficial to enhancing the overall experience of victims In this context it takes a close look at the merits of introducing or expanding legal representation schemes for victims **Criminal Justice Review** ,1990
