Harris,2002-12-13 Social theory is a very difficult subject to teach and it is one that students generally find hard to get to grips with Teaching Yourself Social Theory offers a highly original and comprehensive resource that will be welcomed by students and teachers alike Barry Smart University of Portsmouth I have no hesitation in recommending Harris text to students and teachers of social theory Sociology This refreshing and accessible text demonstrates how social theory can be made into an intelligible discourse that touches upon key aspects of everyday life The abstraction and formalism of much contemporary social theory is criticized as unnecessarily scholastic for the beginner The author maintains that the main problems in studying the subject are not intrinsic to social theory but derive from how the subject is taught as a university discipline This lively book uses non specialist terms to introduce more complex themes and incorporates a Website with questions and reading guides to some of the classic works

Introduction to Criminology Frank E. Hagan, Leah E. Daigle, 2019-01-02 This is one of the best texts I have seen in a while It makes the world of criminology less daunting and more relevant Allyson S Maida St John s University Introduction to Criminology Tenth Edition is a comprehensive introduction to the study of criminology focusing on the vital core areas of the field theory method and criminal behavior With more attention to crime typologies than most introductory texts Hagan and Daigle investigate all forms of criminal activity such as organized crime white collar crime political crime and environmental crime The methods of operation the effects on society and policy decisions and the connection between theory and criminal behavior are all explained in a clear accessible manner A Complete Teaching Learning Package Social Theory, Social Policy And Ageing: A Critical Introduction Biggs, Simon, Estes, Carroll, Phillipson, Chris, 2003-11-01 This work covers theoretical developments and issues influencing the study of adult ageing It explores contemporary trends in social policy drawing on the experience of ageing in the USA Europe and an increasingly global environment Feminist perspectives on ageing are also covered **Founding Theory of American Sociology, 1881-1915 (RLE Social Theory)** Roscoe C. Hinkle, 2020-07-26 Based on a comparative study of the theories of such sociologists as Ward Sumner Keller Giddings Ross Small and Cooley this is a systematic and rigorous analysis of the main features of earlier sociological theory in the USA The author identifies and characterizes the basic assumptions of early American sociological thought in terms of an abstract analytical scheme He shows that early theory focused on social ontological interests the pervasive ontological stance being evolutionary naturalism within which the problems of social origins and social change tended to be paramount He also points out that some sociologists preferred a social process theory In his final chapter the author suggests the degree of similarity and dissimilarity of continuity and discontinuity between earlier and later theory in American sociology and provides a basis for explaining and interpreting the character of the prevalent assumptions of one period in American theory in relation to other periods **Contemporary Sociological Theory** Jonathan H. Turner, 2012-09-20 Written by award winning scholar Jonathan Turner Contemporary Sociological Theory covers the range of diversity of theory in nine theoretical traditions and variants of theoretical approaches in these traditions The result is a comprehensive review of present day theorizing in sociology covering functional evolutionary ecological conflict interactionist exchange structuralist cultural and critical theories and the major proponents of these theories Moreover for each theoretical tradition its origins are examined in a separate chapter with an eye to how classical theorists influenced the work of key contemporary scholars This book will serve as a valuable resource for those readers seeking in depth and comprehensive coverage of contemporary traditions in their historical contexts Unlike many texts coverage is comprehensive and deep The theories and their origins are examined in detail so that readers can fully understand the origins and present profile of theories in present day sociology Unlike many texts that skim over theories on the surface this book seeks to unlock for the reader their underlying structure of each theory The book is written in a modular format so that theories and traditions can be examined in any order and in many diverse

combinations If desired only the contemporary theories can be read without attention to their historical contexts or the reverse is true if readers want to understand the historical origins of a particular theoretical tradition Since Jonathan Turner is an active theorist in his own right he brings to the book an appreciation of how theories are created as an insider rather than as only a commentator on theory As such he is able to bring out the underlying assumptions structure and form of a theory in new and interesting ways for casual readers and scholars alike Classical and Contemporary Sociological Theory Scott Appelrouth, Laura Desfor Edles, 2008 A unique hybrid of text and readings this book combines the major writings of sociology's core classical and contemporary theorists with an historical as well as theoretical framework for understanding them Laura Desfor Edles and Scott A Appelrouth provide not just a biographical and theoretical summary of each theorist reading but an overarching scaffolding which students can use to examine compare and contrast each theorist's major themes and concepts No other theory text combines such student friendly explanation and analysis with original theoretical works Key features include Pedagogical devices and visual aids charts figures and photographs to help summarize key concepts illuminate complex ideas and provoke student interest Chapters on well known figures such as Marx Weber Durkheim Parsons and Foucault as well as an in depth discussion of lesser known voices such as Charlotte Perkins Gilman WEB Du Bois and Leslie Sklair Photos of not only the theorists but of the historical milieu from which the theories arose as well as a glossary at the back
