Make Prayers To The Raven A Koyukon View Of The Northern Forest:

Make Prayers to the Raven Richard K. Nelson, 2024-05-31 Nelson spent a year among the Koyukon people of western Alaska studying their intimate relationship with animals and the land. His chronicle of that visit represents a thorough and elegant account of the mystical connection between Native Americans and the natural world. Outside This admirable reflection on the natural history of the Koyukon River drainage in Alaska is founded on knowledge the author gained as a student of the Koyukon culture indigenous to that region. He presents these Athapascan views of the land principally of its animals and Koyukon relationships with those creatures together with a measured account of his own experiences and doubts. For someone in search of a native American expression of ecology and natural history I can think of no better place to begin than with this work. Barry Lopez *Orion* Nature Quarterly Far from being a romantic attempt to pass on the spiritual lore of Native Americans for a quick fix by others this is a very serious ethnographic study of some Alaskan Indians in the Northern Forest area. He has painstakingly regarded their views of earth, sky, water, mammals, and every creeping thing that creepeth upon the earth. He does admire their love of nature and spirit. Those who see the world through his eyes using their eyes will likely come away with new respect for the boreal forest and those who live with it and in it, not against it. The Christian Century In *Make Prayers to the Raven* Nelson reveals to us the Koyukon beliefs and attitudes toward the fauna that surround them in their forested habitat close to the lower Yukon. Nelson's presentation also gives rich insights into the Koyukon subsistence cycle through the year and into the hardships of life in this northern region. The book is written with both brain and heart. This book represents a landmark never before has the integration of American Indians with their environment been so well spelled out. Ake Hultkrantz *Journal of Forest History* **Make Prayers to the Raven** Richard K. Nelson, 1986 **A Republic of Rivers** John A. Murray, 1992-05-07 This is an advance reading sampler for *A Republic of Rivers*, three centuries of nature writing from Alaska and the Yukon. *New Directions in Anthropology and Environment* Carole L. Crumley, 2002-05-09 Carole L. Crumley has brought together top scholars from across anthropology in a benchmark volume that displays the range of exciting new work on the complex relationship between humans and the environment. Continually pursuing anthropology's persistent claim that both the physical and the mental world matter, these environmental scholars proceed from the holistic assumption that the physical world and human societies are always inextricably linked. As they incorporate diverse forms of knowledge, their work reaches beyond anthropology to bridge the sciences, social sciences, and the humanities, and to forge working relationships with non-academic communities and professionals. Theoretical issues such as the cultural dimensions of context, knowledge, and power are articulated alongside practical discussions of building partnerships, research methods, and ethics, and strategies for implementing policy. *New Directions in Environment and Anthropology* will be important for all scholars and non-academics interested in the relation between our species and its biotic and built environments. It is also designed for classroom use in and beyond anthropology, and students will be greatly

assisted by suggested reading lists for their further exploration of general concepts and specific research Learn more about the author at the University of North Carolina Anthropology Department web pages **Hunters and Bureaucrats** Paul Nadasdy, 2011-11-01 Based on three years of ethnographic research in the Yukon this book examines contemporary efforts to restructure the relationship between aboriginal peoples and the state in Canada Although it is widely held that land claims and co management two of the most visible and celebrated elements of this restructuring will help reverse centuries of inequity this book challenges this conventional wisdom arguing that land claims and co management may be less empowering for First Nation peoples than is often supposed The book examines the complex relationship between the people of Kluane First Nation the land and animals and the state It shows that Kluane human animal relations are at least partially incompatible with Euro Canadian notions of property and knowledge Yet these concepts form the conceptual basis for land claims and co management respectively As a result these processes necessarily end up taking for granted and so helping to reproduce existing power relations First Nation peoples participation in land claim negotiations and co management have forced them at least in some contexts to adopt Euro Canadian perspectives toward the land and animals They have been forced to develop bureaucratic infrastructures for interfacing with the state and they have had to become bureaucrats themselves learning to speak and act in uncharacteristic ways Thus land claims and co management have helped undermine the very way of life they are supposed to be protecting This book speaks to critical issues in contemporary anthropology First Nation law and resource management It moves beyond conventional models of colonialism in which the state is treated as a monolithic entity and instead explores how state power is reproduced through everyday bureaucratic practices including struggles over the production and use of knowledge **Indian Alliances and the Spanish in the Southwest, 750-1750**

William B. Carter, 2012-12-04 When considering the history of the Southwest scholars have typically viewed Apaches Navajos and other Athabaskans as marauders who preyed on Pueblo towns and Spanish settlements William B Carter now offers a multilayered reassessment of historical events and environmental and social change to show how mutually supportive networks among Native peoples created alliances in the centuries before and after Spanish settlement Combining recent scholarship on southwestern prehistory and the history of northern New Spain Carter describes how environmental changes shaped American Indian settlement in the Southwest and how Athapaskan and Puebloan peoples formed alliances that endured until the Pueblo Revolt of 1680 and even afterward Established initially for trade Pueblo Athapaskan ties deepened with intermarriage and developments in the political realities of the region Carter also shows how Athapaskans influenced Pueblo economies far more than previously supposed and helped to erode Spanish influence In clearly explaining Native prehistory Carter integrates clan origins with archeological data and historical accounts He then shows how the Spanish conquest of New Mexico affected Native populations and the relations between them His analysis of the Pueblo Revolt reveals that Athapaskan and Puebloan peoples were in close contact underscoring the instrumental role that Athapaskan

allies played in Native anticolonial resistance in New Mexico throughout the seventeenth century Written to appeal to both students and general readers this fresh interpretation of borderlands ethnohistory provides a broad view as well as important insights for assessing subsequent social change in the region

The History of the Central Brooks Range William Edward Brown, 2007 The History of the Central Brooks Range uses rare primary sources in order to provide a chronological examination and history of the Koyukuk region including anthropological descriptions of the Native groups that make the Central Brooks Range and its surroundings their home The history of early exploration mining and the Klondike all overflow into the story of the Koyukuk region and its rich cultural heritage and William E Brown provides a fascinating history of the extraordinary ways of survival employed by pioneers in this rugged northern land Supplemented with detailed descriptions by Robert Marshall The History of the Central Brooks Range is further enhanced by over 150 beautiful full color illustrations from early exploration to the creation of the Gates of the Arctic National Park making this an essential volume for anyone interested in Alaska Native studies

Uncommon Ground: Rethinking the Human Place in Nature William Cronon, 1996-10-17 A controversial timely reassessment of the environmentalist agenda by outstanding historians scientists and critics In a lead essay that powerfully states the broad argument of the book William Cronon writes that the environmentalist goal of wilderness preservation is conceptually and politically wrongheaded Among the ironies and entanglements resulting from this goal are the sale of nature in our malls through the Nature Company and the disputes between working people and environmentalists over spotted owls and other objects of species preservation The problem is that we haven't learned to live responsibly in nature The environmentalist aim of legislating humans out of the wilderness is no solution People Cronon argues are inextricably tied to nature whether they live in cities or countryside Rather than attempt to exclude humans environmental advocates should help us learn to live in some sustainable relationship with nature It is our home

Trail of Story, Traveller's Path Leslie Main Johnson, 2010 This sensitive examination of the meanings of landscape draws on the author's rich experience with diverse environments and peoples the Gitksan and Witsuwit'en of northwestern British Columbia the Kaska Dena of the southern Yukon and the Gwich'in of the Mackenzie Delta Johnson maintains that the ways people understand and act upon land have wide implications shaping cultures and ways of life determining identity and polity and creating and maintaining environmental relationships and

economies Her emphasis on landscape and ways of knowing the land provides a particular take on ecological relationships of First Peoples to land

The Making of an Ecologist David R. Klein, 2019-08-15 This is an innovative and collaborative life history of one of Alaska's pioneering wildlife biologists David R Klein has been a leader in promoting habitat studies across wildlife research in Alaska and this is his first hand account of how science and biological fieldwork has been carried out in Alaska in the last sixty years This book tells the stories of how Klein did his science and the inspiration behind the research while exposing the thinking that underlies particular scientific theories In addition this book shows the evolution of Alaska's wildlife management regimes from territorial days to statehood to the era of big oil The first portion of the book is comprised of stories from Klein's life collected during oral history interviews while the latter section contains essays written by Klein about philosophical topics of importance to him such as eco philosophy the definition of wilderness and the morality of hunting Many of Klein's graduate students have gone on to become successful wildlife managers themselves in Alaska and around the globe Through *The Making of an Ecologist* Klein's outlook philosophy and approach toward sustainability wildlife management and conservation can now inspire even more readers to ensure the survival of our fragile planet in an ever changing global society

Changing Paths Bill Sherwonit, 2010-03-15 *Changing Paths Travels and Meditations in Alaska's Arctic Wilderness* is an autobiographical exploration of author Bill Sherwonit's relationship with the Alaska wilderness Written in three parts it first describes Sherwonit's introduction to the Brooks Range and his years as an exploration geologist Taking a step back the author then takes us into the past to explore his childhood roots in rural Connecticut and his recognition of wild nature as a refuge He concludes with his emergence as a nature writer and wilderness advocate An engrossing fascinating and eye opening tale of one man's life and of wilderness conceptions this vivid description of an area of Alaska that few people get to experience is authentic and enlightening It is an extraordinary contribution to the literature of place from one of Alaska's most accomplished nature writers
