Belenguer, Ciaran Cosgrove, James Whiston, 2017-10-02 This volume brings together new interdisciplinary perspectives on the Spanish Civil War its victims its contentious ending and its aftermath In exploring the slow demise of the Spanish Republic and the course of the Civil War the authors have chosen to range in turn over cinematic literary and historical depictions of the era In addition reactions elsewhere in Europe to the Spanish conflict are examined the role of the International Brigades is looked at afresh the fate of children displaced during the Civil War is explored and the Spanish anarcho syndicalist movement is revisited The volume shows that to be any kind of soldier in the armies of the Republic or even to be seen as a Republican sympathiser was to become a non person in the new order in Spain under Franco and sets what supporters of the Republic had to endure within the wider European and international context of the period This book offers timely fresh insights into the failure of the Spanish Republic and into a society that tried in vain to unite its divided people during what was a seismic era in Spain's history This book was originally published as a special issue of Bulletin of Spanish Studies

*What Makes Life Worth Living* Sherwood Sweet Knight, 1912 *Feeling Sick: The Early Years of AIDS in Spain* Dean Allbritton, 2023-04-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM The earliest traceable accounts of the AIDS outbreak in Spain began to emerge during its political transition to democracy with small clusters of cases appearing as early as 1981 HIV/AIDS would go on to shape Spain throughout its pivotal period as a fledgling democracy underpinning the cultural explosions of the Movida a sharp rise in intravenous drug use and the struggles of a coalescing LGBT community Feeling Sick The Early Years of HIV/AIDS in Spain examines the cultural history of these early years of HIV/AIDS in Spain as it has been told through television and print media ephemeral products of visual culture fiction film and the so called risk groups that

lived through the epidemic The book draws on the work of Raymond Williams to characterize this emergent period within a structure of feeling sick and thus defined by discordant voices disagreement and meaning making in a period of history in formation Through close readings of Spanish visual culture and media alongside analysis of historical and medical documents it asserts that a structure of feeling sick begins to coalesce around the emergence of HIV AIDS and traces out a distinctive sense of living through history as it unfolds By critically evaluating a selection of cultural materials this book claims that the earliest years of the HIV AIDS epidemic in Spain reveal common fears about global connectivity the proliferation of vulnerable ties to others and the potential of cultural and physical contaminations Ultimately Feeling Sick challenges the dominant narratives in which life and disease are seen as separate and unequal and in which illness is only destructive and devastating An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM **The Living Age** ,1918 **Spain** Sarah Tieck,2014-09-01
