Making America Competitive Policies For A Global Future:

Making America Competitive Marcia L. Whicker, Raymond Moore, 1988-10-26 In this groundbreaking new study Whicker and Moore address an issue of critical importance to the future economic and political stability of the United States how can this nation become more competitive in international markets Drawing upon economic theory political philosophy and specific policy expertise the authors organize their work around two principle themes that just as the role of government in a changing world is evolutionary policies must evolve to reflect shifting economic realities and that previously hostile attitudes among U S management labor and government must be replaced by cooperation in order to ensure effective long term competitiveness abroad

Soft Power and Great-Power Competition Joseph S. Nye, 2023-04-26 This open access book consists of essays selected from Joseph S Nye Jr s last three decades of writing and illustrate a variety of perspectives on the nature of power the role of the United States in the world and US China relations Through this collection it is hoped that readers will gain a better understanding of today s global environment and find that while great power competition may be inevitable in a world as centers of power shift cooperating to address transnational challenges can be a positive sum game

The contents of this book are divided into four main parts Part One discusses the origins and political progress of the concept of Soft Power Part Two explores soft power in the American experience its sources and interaction with US foreign policy as well as its ebb and flow in the age of Obama Trump and Biden Part Three examines the rise of and the opportunities and difficulties for Chinese soft power focusing on China's investment in soft power and how this demonstrates its commitment to a peaceful rise However it also addresses the question of how can China get smart on how it uses soft power Part Four provides a bird's eye view of power shifts in the 21st century and the interactions between the US as an established power and China as a rising power while also reassuring readers that Thucydidean fears are unnecessary and a Cold War is avoidable Both countries have to realize that some forms of power must be exercised with others not over others the development of soft power need not be a zero sum game Ultimately the US China relationship is a cooperative rivalry where a successful strategy of smart competition is necessary and cooperation on transnational challenges like climate change pandemics cyberterrorism and nuclear proliferation will serve to benefit not only China and the US but the world as a whole
