Making and Selling Cars James M. Rubenstein, 2003-04-01 From the creation of fast food to the design of cities to the character of our landscape the automobile has shaped nearly every aspect of modern American life In fact the U S motor vehicle industry is the largest manufacturing industry in the world James Rubenstein documents the story of the automotive industry which despite its power is an industry constantly struggling to redefine itself and assure its success **Making and Selling Cars** Innovation and Change in the U S Automotive Industry shows how this industry made adjustments and fostered innovations in both production and marketing in order to remain a viable force throughout the twentieth century Rubenstein builds his study of the American auto industry with care taking the reader through this quintessentially modern history of production and consumption Avoiding jargon while never oversimplifying Rubenstein gives a detailed and straightforward account of both the production and merchandising of cars We learn how the industry began and about its methods for building cars and the modern American marketplace Along the way there were many missteps and challenges the Edsel the fuel crisis and the ascendancy of Japanese cars in the 1980s The industry met these types of problems with new techniques and approaches To demonstrate this Rubenstein gives the reader examples of how the auto industry used to work which he alternates with chapters showing how the industry has reinvented itself **Making and Selling Cars** explains why the U S automotive industry has been and remains a vigorous shaper of the American economy **Making and Selling Cars** James M. Rubenstein, 2008 **Making** motor vehicles **Selling** motor vehicles *Making and selling cars* James M. Rubenstein, 2001

greatest compliments I have ever received came very unexpectedly I had been in the car business for about 20 years and had personally trained over 300 salespeople The same training you are about to receive I was just hired as the general manager of a dealership and was holding my first meeting with the salespeople I was making the point that following a process is extremely important and I listed the steps in the sales training that are in this book One of the salespeople raised their hand took out a folded up piece of paper and read the steps of the sales process I had just listed I asked him where he got that from and he said that salespeople had been passing it around for years because they never received better training from their employers That is the reason for this book To give the person who wants to be a professional car salesperson a map on how to achieve success This book is very extensive and was written for the new hire as well as the seasoned pro I truly hope this becomes a tool that you use often and you have the discipline to follow the process In other words I hope this becomes The Car Salesman s Bible Best regards Ron
