**The Making of Chinese Criminal Law** Ying Ji, 2021-03-08 By examining the reasons behind the preventive criminalization of Chinese criminal law this book argues that the shift of criminal law generates popular expectations of legislative participation and meets punitive demands of the public but the expansion of criminal law lacks effective constraints which will keep restricting people's freedom in the future The book is inspired by the eighth amendment of Chinese criminal law in 2011 which amended several penalties related to road drug and environmental safety It is on the eighth amendment that subsequent amendments have been based The amendment stemmed from a series of nationally known incidents that triggered widespread public dissatisfaction with the Chinese criminal justice system Based on John Kingdon's theory of the multiple streams the book explains the origins of the legislative process and its outcomes by examining the role of public opinion policy experts and political actors in the making of Chinese criminal law It argues that in authoritarian China the prominence of risk control through criminal justice methods is a state response to uncertainties generated through reforms under the CCP's leadership The process of criminal lawmaking has become more responsive and inclusive than ever before even though it remains a consultation with the elites within the framework set by the Chinese Communist Party CCP including representatives of the Lianghui government ministries academics and others The process enhances the CCP's legitimacy by not only generating popular expectations of legislative participation but also by meeting the punitive demands of the public The book will be of interest to academics and researchers in the areas of Chinese criminal law and comparative law

inherent in the tensions between different policing approaches Rather than seeking to juxtapose hard and soft policing styles the guiding thread of the book is the notion that policing is both pervasive and insidious Different policing styles whether conducted by the public police service private security or social work agencies are all part of a multi agency corporate crime control industry which provides the essential context for an understanding of these different approaches     *Soft Target Hardening* Jennifer Hesterman,2018-12-07 The US government spends billions of dollars to secure strategic and tactical assets at home and abroad against enemy attack However as hard targets such as military installations and government buildings are further strengthened vulnerable soft targets are increasingly in the crosshairs of terrorists and violent criminals Attacks on crowded spaces such as churches schools malls transportation hubs and recreational venues result in more casualties and have a powerful effect on the psyche of the populace *Soft Target Hardening Protecting People from Attack* Second Edition continues the national dialogue started by the first edition by providing case studies best practices and methodologies for identifying soft target vulnerabilities and reducing risk in the United States and beyond Soft target attacks steadily climbed in number and scale of violence since the first edition of this book New tactics emerged as terrorists continually hit the reset button with each attack In this volatile ever changing security environment plans to protect people and property must be fluid and adaptable Along with new hardening tactics such as the use of tactical deception to disguise conceal and divert the author has updated the text with new case studies to reflect and respond to the fast moving transformation in methods from more complex and organized forms of terror to simpler yet still devastating approaches This book is a must read for those who secure own and operate soft target facilities and for citizens who want to protect themselves and their families from attack *Soft Target Hardening* Second Edition was named the ASIS International Security Industry Book of the Year in 2019     **The TRO Man** Joe Romanoski,Michelle Randell,2016-10-04 Their first year at Oxford has passed successfully for Cottie and Siggy Summer vacation has arrived and the lure of a months trekking at Heidelberg in Germany has infected our two siblings with the travel bug A train trip sounded cool but who was the mysterious little man with the dachshund who accosted them at the train station Was Greta Von Schultzman some type of operative for the German Secret Service What kind of conspiracy was forcing Cottie to distrust all her supposed confidants Who or what is the enigmatic TRO man To find out the answers to these questions you will have to start reading the enclosed pages Be ready for danger lurking behind every corner or turned back page     **Crime Prevention and Intervention** Peter-Alexis Albrecht,Otto Backes,2017-03-20 No detailed description available for *Crime Prevention and Intervention*     *The Soft Cage* Christian Parenti,2007-10-15 On a typical day you might make a call on a cell phone withdraw money at an ATM visit the mall and make a purchase with a credit card Each of these routine transactions leaves a digital trail for government agencies and businesses to access As cutting edge historian and journalist Christian Parenti points out these everyday intrusions on privacy while harmless in themselves are part of a relentless and clandestine expansion of routine surveillance in American
