Domestic Structures and

International Trade Candido Tomas Garcia Molyneux, 2001-02 The author a lawyer in Brussels and lecturer at the College of Europe in Natolin places international trade law within an economic political and sociological context focusing on the US and the European Union Contending that despite globalization societies organize themselves differently and have diverse expectations of their governments and market actors he explores how these differences affect the trading partners policies in an age when nearly everything can be considered a matter of commerce He also examines how domestic structures affect trade policy when the external world has a strong impact on the domestic sphere Distributed by ISBS c Book News Inc

Healthy Voices, Unhealthy Silence Colleen M. Grogan, 2007-09-11 Public

silence in policymaking can be deafening When advocates for a disadvantaged group decline to speak up not only are their concerns not recorded or acted upon but also the collective strength of the unspoken argument is lessened a situation that undermines the workings of deliberative democracy by reflecting only the concerns of more powerful interests But why do so many advocates remain silent on key issues they care about and how does that silence contribute to narrowly defined policies What can individuals and organizations do to amplify their privately expressed concerns for policy change In *Healthy Voices Unhealthy Silence* Colleen M Grogan and Michael K Gusmano address these questions through the lens of state level health care advocacy for the poor They examine how representatives for the poor participate in an advisory board process by tying together existing studies extensive interviews with key players and an in depth first hand look at the Connecticut Medicaid advisory board s deliberations during the managed care debate Drawing on the concepts of deliberative democracy agenda setting and nonprofit advocacy Grogan and Gusmano reveal the reasons behind advocates often unexpected silence on major issues assess how capable nonprofits are at affecting policy debates and provide prescriptive advice for creating a participatory process that adequately addresses the health care concerns of the poor and dispossessed Though exploring specifically state level health care advocacy for the poor the lessons Grogan and Gusmano offer here are transferable across issue areas and levels of government Public policy scholars advocacy organizations government workers and students of government administration will be well served by this significant study

Congress and the Politics of Problem Solving E. Scott Adler, John D. Wilkerson, 2013-01-14 How do issues end up on the agenda Why do lawmakers routinely invest in program oversight and broad policy development What considerations drive legislative policy change For many Congress is an institution consumed by partisan bickering and gridlock Yet the institution s long history of addressing significant societal problems even in recent years seems to contradict this view Congress and the Politics of Problem Solving argues that the willingness of many voters to hold elected officials accountable for societal conditions is central to appreciating why Congress responds to problems despite the many reasons mustered for why it cannot The authors show that across decades of policy making problem solving motivations explain why bipartisanship is a common pattern of congressional behavior and offer the best explanation for legislative issue attention and policy change

The US Policy Making Process for Post Cold War China Wenzhao Tao, 2017-07-13 Combining a study of American Think Tanks and a study of American diplomatic policy on China following the Cold War this book explores in detail the policy making process procedures and mechanisms as well as the roles of various interest groups in the policy making process for China related policies Further it dissects the policy making process with regard to selected sensitive policies such as the US diplomatic policy on Taiwan China US trade policy on China US human rights policy on China and US environmental and energy policy on China and analyzes the function and influence of

the American Think Tanks in the policy debates Characterized by its high theoretical value wealth of historical materials and painstaking analysis the book is not only of important academic value but also offers a valuable reference guide to support the practical work of related departments in the Chinese government *Colonialism, Class Formation, and*

Underdevelopment in Sierra Leone Eliphaz G. Mukonoweshuro,1993 This study examines from a materialist perspective the socio economic historical and political factors contributing to the political instability and underdevelopment of Sierra Leone Tools of analysis from different methodological perspectives such as class and ethnicity are critically reviewed and utilized in the analysis and identification of colonial class formation the behavior of political groups and their economic bases The emphasis is on the dominant colonial social forces that shaped the evolution and development of the decolonization process including the formation of colonial social classes colonial state and the political relation that developed **World-wide**

Richard Peet,2008-02-29 This work looks at how contemporary global economic policies are made by which institutions under what ideologies and how they are enforced The author reveals the central roles played by organizations such as the IMF and the World Bank in supervising the livelihoods of over 2 5 billion people He shows that neoliberal economic policy is enforced by a few thousand unelected and unaccountable experts in the North and has failed to deliver tolerable living conditions for the poor The book argues for a new geographic theory of power exercised through dominant institutions concentrated in hegemonic power centers It seeks to transform the existing geography of policy making power by exposing its structures centers and mechanisms critiquing its intellectual foundations uncovering its un democratic justifications and passionately supporting its opponents The conclusion makes a further positive contribution by exploring policy alternatives that point the way forward **Vicious Cycle**

Constantine J. Spiliotes,2002 Annotation American presidents enter office ready to enact a policy making agenda that will satisfy partisan interests and facilitate reelection to a second term Economic circumstances however may catch presidents in a vicious cycle of economic growth and inflation versus recession and unemployment Faced with responsibility for the nation s economic health presidents are often forced to make tradeoffs

between pursuing political objectives and stabilizing the economy Vicious Cycle provides a theoretical framework for explaining how presidents pursue partisan and electoral objectives in office while simultaneously managing the nation's economy With an approach that bridges several literatures in presidential studies and political economy Constantine J Spiliotes develops an econometric model of postwar presidential decision making in the American political economy and examines its relationship to economic decision making in four presidencies These extensively documented case studies of presidents Eisenhower Johnson Carter and Reagan offer variation across several analytic dimensions temporal partisan electoral and institutional Spiliotes concludes that tradeoffs between political objectives and institutional responsibility are driven by a transformation in the nature of the American presidency from an office in which decision making is anchored in partisan accountability to one constrained by the chief executive's institutional mission Spiliotes's work contributes to a fuller understanding of the presidency and political economy and the methodologies that elucidate them Flat-rate Tax United States.
