Intercultural Voices in Contemporary British Literature L. Sauerberg, 2001-11-12 During the last decades of the twentieth century it has become increasingly difficult to consider British literature as national or mainstream The book investigates contemporary fiction and poetry written in or relating to Britain and uncovers a distinct sense of a new and different national and social reality Tracing literary effects of migration globalization and regionalization the book focuses on literary tradition as an inspiration or object of hate and frustration for the exploration and expression of post Imperial experiences The Cambridge Companion to British Poetry, 1945-2010 Edward Larrissy, 2016 This Companion brings together sixteen essays that explore the full diversity of British poetry since the Second World War Focusing on famous and neglected names alike from Dylan Thomas to John Agard leading scholars provide readers with insight into the ongoing importance and profundity of post war poetry The Oxford English Literary History: Volume 12: The Last of England? Randall Stevenson, 2005-11-10 English Literature in the 1960s soon threw off its post war weariness and the tepid influences of the previous decade New voices new visions and new commitments profoundly reshaped writing during the 60s and throughout the rest of the century Drama thrived on its rapidly rebuilt foundations New freedoms of style and form revitalised fiction Poetry too gradually recovered the variety and inventiveness of earlier years As well as comprehensively charting these changes in the literary field Randall Stevenson persuasively pinpoints their origins in the historical social and intellectual pressures of the times Literary developments are revealingly related to the wider evolution and profound changes in English

experience in the late twentieth century to shadows of war and loss of empire declining influences of class shifting relations between the genders emergent minority and counter cultures and the broadening democratization of contemporary life in general Analyses of the rise of literary theory of publishing and the book trade and of the pervasive influences of modernism and postmodernism contribute further to an impressively thorough insightful description of writing in the later twentieth century a literary period Stevenson shows to be far more imaginative and exciting than has yet been recognised Lucid accessible and engaging this volume of the Oxford English Literary History presents a unique illumination of its age one we have lived through but are only just beginning to understand The first full account of its period it will set the agenda for discussion of late twentieth century literature for many years to come The Deregulated Muse Sean O'Brien, 1998 Published in 1998 Sean O Brien's essays in The Deregulated Muse cover key poets and movements in British and Irish poetry since the 1960s relating their work to politics culture and history Elizabeth Jennings Dana Greene, 2018-09-04 Elizabeth Jennings was one of the most popular prolific and widely anthologized lyric poets in the second half of the twentieth century This first biography based on extensive archival research and interviews with Jennings's contemporaries integrates her life and work and explores the inward war the poet experienced as a result of her gender religion and mental fragility Originally associated with the Movement Jennings was sui generis believing poetry was communication and communion She wrote of nature friendship childhood religion love and art endearing her to a wide audience Yet lifelong depression unbearable loneliness unrelenting fears poverty and physical illness plagued her These were exacerbated by her gender in a male dominated literary world and an inherited Catholic worldview which initially inculcated guilt and shame However a tenacious drive to be a poet made her the most unconditionally loved writer of her generation Although her claim was that the poem is not the poet her life is tracked in her voluminous published and unpublished poetry and prose The themes of mental illness the importance of place the problems associated with being an unmarried woman artist her relationship with literary mentors and younger poets her non feminist feminism and her marginality and sympathy for the outcast are all explored It was poetry which saved her it helped her push back darkness and discover order in the midst of chaos Poetry was her raison d etre It Prospects and Impediments of Feminist Monolithism Rosalyn Mutia, 2021-02-01 This book reads mid was her life twentieth century poetry by British American and Sub Saharan women to postulate the desirability and possibility of feminist monolithism It shows that there is a remarkable consistency in the themes and aesthetic preoccupations of poets widely separated from each other by both geographical space and historical epochs which highlights that there are pertinent cross cutting trends in women's poetry which could be exploited as a basis for monolithism. The text identifies the main tenets of feminism as recognition of women s oppression and a determined effort through concerted strategies to resist and thwart this oppression and to navigate women out of peripheral positions into positions of power By showing that these tenets are uniformly present in the poetry of very different women it posits this uniformity as a stable ground on which feminist

monolithism could be constructed without glossing over existent differences between and among women Feminism and Poetry Jan Montefiore, 2004 This is a fresh edition of this classic work on feminism and poetry which offers an introduction by Claire Buck The Publishers Weekly, 1903
