The Grief Walk Alister G. Hendery, 2024-05-09 This practical book is for people who are grieving for people who want to support them as they undertake the painful journey of grief and for anyone who wants to reflect on their own experiences of loss When Alister asked Isobel whose husband had died a few years before what would have helped her most then her response was immediate Someone who would walk with me Not people who would talk at me and give me answers but simply listen to me and walk with me The grief walk Grieving and loss are universal experiences but how you experience grief is unique to you In his ministry Alister has found that models of the stages of grief are unhelpful as is the idea of closure Instead he gives you permission to work through your grief in the ways and at the times that are helpful to you Alister explores disenfranchised grief that occurs when we are denied the right to grieve and our loss isn't recognised Our lives are marked by countless losses and we all carry grief about many losses in our life If we embrace our grief we can journey on to something new and find fresh hope Praise for The Grief Walk The Grief Walk has a freshness and honesty about grief beginning with its imaginative title and sustained until the final affirmation of hope We all experience loss and grief in our lives But as Hendery writes until we name and acknowledge a loss and recognise that we have a right to grieve we are unable to come to terms with it He emphasises that grief doesn't follow a predetermined path and nor can we close it off like a tap He describes a perceived end process of closure as psychobabble While grief may not be permanently disabling we learn to encompass it This is not the same as closure Grief may find expression in different physical and emotional symptoms and we can't expect religious faith to provide a magical answer Finding someone who listens and understands who in a sense personifies the presence of God can help us with the grief journey The Grief Walk confronts the idea that grief is momentary or experienced in clearly defined stages and points to a hope This book is a gift for all who grieve or who walk with those who grieve John Meredith in Tui Motu Magazine Issue 253 October 2020 27 Far too often people present grieving as a one way process with well defined stages concluding with something they call closure I
