Torlone, 2013-12-17 I hate and I love The Roman poet Catullus expressed the disorienting experience of being in love in a stark contradiction that has resonated across the centuries While his description might seem to modern readers natural and spontaneous it is actually a response planned with great care and artistry It is that artistry and the way in which Roman love poetry works that this book explores Focusing on Catullus and on the later genre of elegy so called for its metre and a form of poetry practiced by Tibullus Propertius and Ovid Denise Eileen McCoskey and Zara Martirosova Torlone discuss the devices used by the major Roman love poets as well as the literary and historical contexts that helped shape their work Setting poets and their writings especially against the turbulent backdrop of the Augustan Age 31 BCE 14 CE the book examines the origins of Latin elegy highlights the poets key themes and traces their reception by later writers and readers

Kinnahan,2016-06-20 A History of Twentieth Century

American Women's Poetry explores the genealogy of modern American verse by women from the early twentieth century to the millennium. Beginning with an extensive introduction that charts important theoretical contributions to the field, this History includes wide-ranging essays that illuminate the legacy of American women poets. Organized thematically, these essays survey the multilayered verse of such diverse poets as Edna St. Vincent Millay, Marianne Moore, Anne Sexton, Adrienne Rich, and Audre Lorde. Written by a host of leading scholars, this History also devotes special attention to the lasting significance of feminist literary criticism. This book is of pivotal importance to the development of women's poetry in America and will serve as an invaluable reference for specialists and students alike. **The Traffic in Poems** Meredith L.

McGill, 2008. The transatlantic crossing of people and goods shaped nineteenth-century poetry in surprising ways that cannot be fully understood through the study of separate national literary traditions. American and British poetic cultures were bound by fascination, envy, influence, rivalry, recognition, and piracy, as well as by mutual fantasies about and competition over the Caribbean. Drawing on examples such as Felicia Hemans's elaboration of the foundational American myth of Plymouth Rock, Emma Lazarus's ambivalent welcome of Europe's cast-off populations, black abolitionist Mary Webb's European performances of Hiawatha, and American reprints of Robert Browning and George Meredith, the eleven essays in this book focus on poetic depictions of exile, slavery, immigration, and citizenship and explore the often asymmetrical traffic between British and American poetic cultures. *Catullus: Poems* Gaius Valerius Catullus, 2015-03-02. Catullus, who lived from about 84 to 54 BC, was one of ancient Rome's most gifted, versatile, and passionate poets. Living at a time of radical social change at the end of the Roman Republic, he belonged to a group of young poets who embraced Hellenistic forms to forge a new literary style, the so-called *neoterics*. This comprehensive edition includes the complete unabridged and unbowdlerised poems and is the definitive student edition of Catullus's work. The extensive introduction covers topics including the role of Catullus's literary paramour, Lesbia, the few biographical certainties known about Catullus's life, and other figures from the contemporary political scene. In addition to this, there is a brief overview of the poems' textual history, discussion of Catullus's style across the collection, and linguistic discussions of morphology, vocabulary, syntax, and metre. The commentary notes include individual introductions and bibliographies to each poem, as well as line-by-line notes which translate difficult phrases and gloss obscure words. In addition to this, more detailed explanations of poetic structural and contextual points are also provided. **The**
