Making Miracles Happen:

Making Miracles Happen Gregory White Smith, Steven Naifeh, 1998-07 Ten years ago Gregory White Smith's doctors gave him three months to live. He's still here. Discover how he and many others in this life-changing book beat the odds and survived. The news was grim. Doctors at the prestigious Mayo Clinic told Greg Smith, young, handsome, and hard at work at the book that would one day win him a Pulitzer Prize, that he had an inoperable brain tumor. They gave him three months to live. Ten years later, Greg is fit, active, and managing his tumor with an experimental hormone therapy. Like Greg, the other courageous people in this book, whose illnesses range from cystic fibrosis to cancer, have returned from the threshold of death. They are all medical miracles. Now you can learn how they made those miracles happen. Not a survivor's memoir, but a survivor's handbook, this extraordinary book weaves the insights of doctors and the wisdom of patients into a road map anyone can follow out of the dark fears of dying. Discover the one thing that makes the difference between life and death: taking control. Practical steps to finding the best doctor and the best care. Your own research: how to do it, why your life depends on it. What you need to ask before beginning an experimental treatment. Why, even if there isn't a cure now, there may be tomorrow, and how to live long enough to get it, and more.

Routledge Companion to Philosophy of Religion Chad Meister, Paul Copan, 2013-01-17 The Routledge Companion to Philosophy of Religion, Second edition, is an indispensable guide and reference source to the major themes, movements, debates, and topics in philosophy of religion. Considerably expanded for the second edition, over seventy entries from a team of renowned international contributors are organized into nine clear parts: philosophical issues in world religions; key figures in philosophy of religion; religious diversity; the theistic conception of God; arguments for the existence of God; arguments against the existence of God; philosophical theology; Christian theism; recent topics in philosophy of religion. Covering key world religions including Hinduism, Buddhism, and Islam, and key figures such as Augustine, Aquinas, and Kierkegaard, the Companion explores the central topics in theism, such as the ontological, cosmological, and teleological arguments for God's existence. Three final parts consider Catholicism, Protestantism, Eastern orthodoxy, and current debates including phenomenology, reformed epistemology, religious experience, and religion and science, making the Companion as a whole an essential reading for students of philosophy or religion and suitable for anyone coming to the subject for the first time. This second edition includes new chapters on Blaise Pascal, Baruch Spinoza, Interreligious Dialogue, Death and the Afterlife, Incorporeality, Religion and Global Ethics, New Religious Movements, Religion and the Environment, and Religion and Film.
