## **Making News Of Police Violence:**

**Making News of Police Violence** Jeffrey Ian Ross Ph.D.,2000-08-30 Although many people consider excessive police violence disconcerting if when and how they voice their opinion or respond by taking some sort of action has generally remained empirically unknown In the hope of understanding this process Ross has developed a four stage model based on a review of the literature and on interviews with the relevant actors He then uses this tool to analyze police violence that occurred in Toronto Canada and New York City over a fifteen year period To better focus the study he uses in depth case studies of three well publicized cases of police violence from each city matched on important criteria This study addresses a difficult timely and important topic for victims for police personnel and for society Ross concludes that in general most individuals do not respond to police use of excessive force further if and when they do usually depends on the context of the violence Using both quantitative and qualitative methods Ross s model integrates a variety of approaches to improve our understanding of how communities come to define and control the use of force by police including literature on the role of media efforts and their impact upon police violence The work concludes with an analysis of the reasons why people react so infrequently to incidents of excessive force

**Criminology Explains Police Violence** Philip Matthew Stinson,2020-01-21 Criminology Explains Police Violence offers a concise and targeted overview of criminological theory applied to the phenomenon of police violence In this engaging and accessible book Philip M Stinson Sr highlights the similarities and differences among criminological theories and provides linkages across explanatory levels and across time and geography to explain police violence This book is appropriate as a resource in criminology policing and criminal justice special topic courses as well as a variety of violence and police courses such as policing administration police community relations police misconduct and violence in society Stinson uses examples from his own research to explore police violence acknowledging the difficulty in studying the topic because violence is often seen as a normal part of policing

introduction outlines the sociopolitical dynamics of violence and his summary chapter offers directions for future research. When the book was first published in 1995 it was widely praised by scholarly journals and has since become a standard text in the study of violence and modern Canadian cultural studies. The book is all the more valuable as its new introduction places its findings in the context of research that has been produced since the original publication. *Violence in Canada* will be of interest to sociologists, criminologists and political scientists. Jeffrey Ian Ross is an associate professor in the Division of Criminology, Criminal Justice and Social Policy and fellow with the Center for Comparative and International Law, University of Baltimore. His work has appeared in many academic journals and chapters in academic texts as well as articles in popular magazines in Canada and the United States. He is the author, co-author, editor or co-editor of eight books. Ted Robert Gurr is Distinguished University Professor at the University of Maryland. Among his books are *Why Men Rebel* and *Violence in America*.

**Justice Ignited** Brian Martin, 2007. Attacks can backfire on attackers, sometimes spectacularly. Examples include the beating of Rodney King by Los Angeles police in 1991, the surveillance of Ralph Nader in 1965 and the invasion of Iraq in 2003. Attackers often inhibit adverse reactions by covering up the attack, devaluing the target and using other methods. Through numerous detailed case studies, *Justice Ignited* reveals the most promising tactics that can make unfair attacks backfire.

**Making Human Rights News** John Pollock, Morton Winston, 2018-10-18. *Making Human Rights News: Balancing Participation and Professionalism* explores the impact of new digital technology and activism on the production of human rights messages. It is the first collection of studies to combine multidisciplinary approaches, citizen witness challenges to journalism ethics and expert assessments of the liberating role of the Internet, addressing the following questions:

1. What can scholars from a wide range of disciplines including communication studies, journalism sociology, political science and international relations studies add to traditional legal and political human rights discussions exploring the impact of innovative digital information technologies on the gathering and dissemination of human rights news?
2. What questions about journalism ethics and professionalism arise as growing numbers of untrained citizen witnesses use modern mobile technology to document claims of human rights abuses?
3. What are the limits of the liberating role of the Internet in challenging traditional sources of authority and credibility such as professional journalists and human rights professionals?
4. How do greater Internet access and human rights activism interact with variations in press freedom and government censorship worldwide to promote respect for different categories of human rights such as women's rights and rights to health?

This book was originally published as a special issue of the *Journal of Human Rights*.

**The Routledge Companion to News and Journalism** Stuart Allan, 2022-11-28. *The Routledge Companion to News and Journalism* brings together scholars committed to the conceptual and methodological development of news and journalism studies from around the world. Across 50 chapters organized thematically over seven sections, contributions examine a range of pressing challenges for news reporting, including digital convergence, mobile platforms, web analytics and datafication, social media polarization and the use of drones.

Journalism's mediation of social issues is also explored such as those pertaining to human rights, civic engagement, gender inequalities, the environmental crisis, and the Black Lives Matter movement. Each section raises important questions for academic research, generating fresh insights into journalistic forms, practices, and epistemologies. The Companion furthers our understanding of why we have ended up with the kind of news reporting we have today, its remarkable strengths, the difficulties it faces, and how we might improve upon it for tomorrow. Completely revised and updated for its second edition, this volume is ideal for advanced undergraduates, postgraduates, researchers, and academics in the fields of news, media, and journalism studies.

**News of Baltimore** Linda Steiner, Silvio Waisbord, 2017-05-25 This book examines how the media approached long-standing and long-simmering issues of race, class, violence, and social responsibility in Baltimore during the demonstrations, violence, and public debate in the spring of 2015. Contributors take Baltimore to be an important place, symbol, and marker, though the issues are certainly not unique to Baltimore; they have crucial implications for contemporary journalism in the U.S. These events prompt several questions: How well did journalism do in Baltimore, nearby, and nationally in explaining the endemic issues besetting Baltimore? What might have been done differently? What is the responsibility of journalists to anticipate and cover these problems? How should they cover social problems in urban areas? What do the answers to such questions suggest about how journalists should in future cover such problems?

**Law Enforcement, Communication, and Community** Howard Giles, 2002-01-01 Given widespread media attention to issues of crime and its prevention, police heroism, and new modes of police-community involvements, this international collection is timely. It is unique in examining ways in which police and citizens communicate across a range of contexts and problem areas. While much attention is afforded the critical roles of communication by police agencies, there has been little recourse to communication science and its theories. Likewise, the latter has not until recently concerned itself with analyzing police-citizen interactions. This volume examines the character of such encounters, forging new theoretical frameworks having implications for practice in many instances. Topics include media portrayals of law enforcement, communication, and new technologies within police culture, domestic violence, hate crimes, stalking, sexual abuse, and hostage negotiations. This book should be relevant not only to a range of social sciences, besides communication scholars and students, but also to practitioners working in the field.

**Encyclopedia of Street Crime in America** Jeffrey Ian Ross, 2013-03-01 Anyone living or working in a city has feared or experienced street crime at one time or another, whether it be a mugging, purse-snatching, or a more violent crime. In the U.S., street crime has recently hovered near historic lows, hence the declaration of certain analysts that street life in America has never been safer. But is it really? Street crime has changed over past decades, especially with the advent of surveillance cameras in public places, the territory of the street criminal, but at the same time, criminals have found ways to adapt. This encyclopedic reference focuses primarily on urban lifestyle and its associated crimes, ranging from burglary to drug peddling to murder to new, more sophisticated forms of street crime and scams. This traditional A to Z reference has significant

coverage of police and courts and other criminal justice sub disciplines while also featuring thematic articles on the sociology of street crime Features Benefits 175 signed entries within a single volume in print and electronic formats provide in depth coverage to the topic of street crime in America Cross References and Suggestions for Further Readings guide readers to additional resources Entries are supported by vivid photos and illustrations to better bring the material alive A thematic Reader s Guide groups related entries by broad topic areas and within the electronic version combines with Cross References and a detailed Index for convenient search and browse capabilities A Chronology provides readers with a historical perspective of street crime in America Appendices provide sources of data and statistics annotated to highlight their relevance

**Mass Media** James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

**Troubled Pasts** Jill Edy, 2006-07-28 How the media shape collective memory and use that memory to shape our understanding of current events

**Studies in Language and Social Interaction** Jennifer Mandelbaum, 2003-01-30 This collection offers empirical studies and theoretical essays about human communication in everyday life The writings come from many of the world s leading researchers and cut across academic boundaries engaging scholars and teachers from such disciplines as communication sociology anthropology linguistics and education Chapters emphasize empirical qualitative studies of people s everyday uses of talk in interaction and they feature work in such areas as sociolinguistics conversation analysis discourse analysis and ethnography The volume is dedicated to and highlights themes in the work of the late Robert Hopper an outstanding scholar in communication who pioneered research in Language and Social Interaction LSI The contributors examine various features of human interaction such as laughter vocal repetition and hand gestures occurring naturally within a variety of settings at a dinner table a doctor s office an automotive repair shop and so forth whereby interlocutors accomplish aspects of their interpersonal or institutional lives resolve a disagreement report bad medical news negotiate a raise and more all of which may relate to larger social issues including police brutality human spirituality death and optimism The chapters in this anthology show that social life is largely a communicative accomplishment and that people constitute the social realities experienced every day through small and subtle ways of communicating carefully orchestrated but commonly taken for granted In showcasing the diversity of contemporary LSI research this volume is appropriate for scholars and graduate students in language and social interaction communication sociology research methods qualitative research methods discourse analysis conversation analysis linguistics and related areas

**America on Fire: The Untold History of Police Violence and Black Rebellion Since the 1960s** Elizabeth Hinton, 2021-05-18 Not since Angela Davis s

2003 book *Are Prisons Obsolete* has a scholar so persuasively challenged our conventional understanding of the criminal legal system Ronald S Sullivan Jr Washington Post From one of our top historians a groundbreaking story of policing and riots that shatters our understanding of the post civil rights era What began in spring 2020 as local protests in response to the killing of George Floyd by Minneapolis police quickly exploded into a massive nationwide movement Millions of mostly young people defiantly flooded into the nation s streets demanding an end to police brutality and to the broader systemic repression of Black people and other people of color To many observers the protests appeared to be without precedent in their scale and persistence Yet as the acclaimed historian Elizabeth Hinton demonstrates in *America on Fire* the events of 2020 had clear precursors and any attempt to understand our current crisis requires a reckoning with the recent past Even in the aftermath of Donald Trump many Americans consider the decades since the civil rights movement in the mid 1960s as a story of progress toward greater inclusiveness and equality Hinton s sweeping narrative uncovers an altogether different history taking us on a troubling journey from Detroit in 1967 and Miami in 1980 to Los Angeles in 1992 and beyond to chart the persistence of structural racism and one of its primary consequences the so called urban riot Hinton offers a critical corrective the word riot was nothing less than a racist trope applied to events that can only be properly understood as rebellions explosions of collective resistance to an unequal and violent order As she suggests if rebellion and the conditions that precipitated it never disappeared the optimistic story of a post Jim Crow United States no longer holds Black rebellion *America on Fire* powerfully illustrates was born in response to poverty and exclusion but most immediately in reaction to police violence In 1968 President Lyndon Johnson launched the War on Crime sending militarized police forces into impoverished Black neighborhoods Facing increasing surveillance and brutality residents threw rocks and Molotov cocktails at officers plundered local businesses and vandalized exploitative institutions Hinton draws on exclusive sources to uncover a previously hidden geography of violence in smaller American cities from York Pennsylvania to Cairo Illinois to Stockton California The central lesson from these eruptions that police violence invariably leads to community violence continues to escape policymakers who respond by further criminalizing entire groups instead of addressing underlying socioeconomic causes The results are the hugely expanded policing and prison regimes that shape the lives of so many Americans today Presenting a new framework for understanding our nation s enduring strife *America on Fire* is also a warning rebellions will surely continue unless police are no longer called on to manage the consequences of dismal conditions beyond their control and until an oppressive system is finally remade on the principles of justice and equality
