Making Of Alexander The Official Guide To The Epic Alexander Film:

Historical Film Jonathan Stubbs, 2013-03-28 Although precise definitions have not been agreed on historical cinema tends to cut across existing genre categories and establishes an intimidatingly large group of films In recent years a lively body of work has developed around historical cinema much of it proposing valuable new ways to consider the relationship between cinematic and historical representation However only a small proportion of this writing has paid attention to the issue of genre In order to counter this omission this book combines a critical analysis of the Hollywood historical film with an examination of its generic dimensions and a history of its development since the silent period **Historical Film A Critical Introduction** is concerned not simply with the formal properties of the films at hand but also the ways in which they have been promoted interpreted and discussed in relation to their engagement with the past

Brill's Companion to Ancient Greek and Roman Warfare on Film, 2023-12-18 Brill's Companion to Ancient Greek and Roman Warfare on Film is the first volume exclusively dedicated to the study of a theme that informs virtually every reimagining of the classical world on the big screen armed conflict Through a vast array of case studies from the silent era to recent years the collection traces cinema's enduring fascination with battles and violence in antiquity and explores the reasons both synchronic and diachronic for the central place that war occupies in celluloid Greece and Rome Situating films in their artistic economic and sociopolitical context the essays cast light on the industrial mechanisms through which the ancient battlefield is refashioned in cinema and investigate why the medium adopts a revisionist approach to textual and visual sources

Hollywood's Ancient Worlds Jeffrey Richards, 2008-07-01 Jeffrey Richards examines the cultural social economic and technological circumstances that dictated the rise and decline of each successive cycle of Ancient World epics from the silent film era to the golden age of the 1950s right up to the present day *Gladiator* 300 Rome Analysis reveals that historical films are always as much about the time in which they are made as they are about the time in which they are set The ancient world is often used to deliver messages to the contemporary audience about the present hostility to totalitarian regimes both Fascist and Communist concern at the decline of Christianity support for the new state of Israel celebrations of equality and democracy and concern about changing gender roles The whole adds up to a fresh look at a body of films that people think they know but about which they will learn a good deal more

Classical Archaeology Susan E. Alcock, Robin Osborne, 2012-05-21 The fully revised second edition of this successful volume includes updates on the latest archaeological research in all chapters and two new essays on Greek and Roman art It retains its unique paired essay format as well as key contributions from leading archaeologists and historians of the classical world Second edition is updated and revised throughout showcasing the latest research and fresh theoretical approaches in classical archaeology Includes brand new essays on ancient Greek and Roman art in a modern context Designed to encourage critical thinking about the interpretation of ancient material culture and the role of modern perceptions in shaping the study of art and archaeology Features paired essays one covering the

Greek world the other the Roman to stimulate a dialogue not only between the two ancient cultures but between scholars from different historiographic and methodological traditions Includes maps chronologies diagrams photographs and short editorial introductions to each chapter *The Publishers Weekly*, 2005 *Omnibus*, 2005 Plutarco e as artes: pintura, cinema e artes decorativas Luísa de Nazaré Ferreira, Paulo Simões Rodrigues, Nuno Simões, 2012-07-01 Numa altura em que a obra de Plutarco e a influência que exerceu sobre a tradição literária europeia e americana conhecem um redobrado interesse não só frequentes as monografias dedicadas apresentam temas das vidas ou dos moralia na iconografia e nas artes em geral precisamente nesse domínio do saber menos tratado pelos historiadores do biografado de Queroneia que este volume pretende dar o seu contributo ao analisar a forma como as palavras de Plutarco serviram de inspiração para criações no campo da pintura do cinema e das artes decorativas *Scienza antica in età moderna.
