Making Of Modern Iraq 1st Edition:

The Making of Modern Muslim Selves through Architecture Farhan S. Karim, Patricia Blessing, 2023-10-20 This collection seeks to explore alternative definitions of bounded identities facilitating new approaches to spatial and architectural forms Taking as its starting point the emergence of a new sense of boundary emerged from the post 19th century dissolution of large heterogeneous empires into a mosaic of nation states in the Islamic world This new sense of boundaries has not only determined the ways in which we imagine and construct the idea of modern citizenship but also redefines relationships between the nation citizenship cities and architecture It brings critical perspectives to our understanding of the interrelation between the accumulated flows and the evolving concepts of boundary in predominantly Muslim societies and within the global Muslim diaspora Essays in this book seeks to investigate how architecture mediates the creation and deployment of boundaries and boundedness that have been devised to define enable obstruct accumulate and or control flows able to disrupt bounded territories or identities More generally the book explores how architecture might be considered as a means to understand the relationship between flows and boundaries and its implication of defining modern self The essays in this volume collectively address how the construction of self is primarily a spatial event and operated within the crucial nexus of power knowledge space Contributors investigate how architecture mediates the creation and deployment of boundaries and boundedness how architecture might be considered as a means to understand the relationship between flows and boundaries and its implications for how we define the modern self Part of the Critical Studies in Architecture of the Middle East series

Sectarianism in Iraq Khalil Osman, 2014-10-10 This book links sectarianism in Iraq to the failure of the modern nation state to resolve tensions between sectarian identities and concepts of unified statehood and uniform citizenry After a theoretical excursus that recasts the notion of primordial identity as a socially constructed reality the author sets out to explain the persistence of sectarian affiliations in Iraq since its creation following the dismemberment of the Ottoman Empire Despite the adoption of homogenizing state policies the uneven sectarian composition of the ruling elites nurtured feelings of political exclusion among marginalized sectarian groups the Shicites before 2003 and the Sunnis in the post 2003 period The book then examines how communal discourses in the educational curriculum provoked masked forms of resistance that sharpened sectarian consciousness Tracing how the anti Persian streak in the nation state s Pan Arab ideology which camouflaged anti Shicism undermined Iraq s national integration project *Sectarianism in Iraq* delves into the country s slide from a totalizing Pan Arab ideology in the pre 2003 period toward the atomistic impulse of the federalist debate in the post 2003 period Employing extensive fieldwork this book sheds light on the dynamics of political life in post Saddam Iraq and is essential reading for Iraqi and Middle East specialists as well as those interested in understanding the current heightening of sectarian Sunni Shicite tensions in the Middle East

Sonic Icons Sarah Bakker Kellogg, 2024-11-05 A vivid artfully crafted and deeply hopeful account of one community s struggle to rediscover and reinvent itself after a century of genocidal loss dispossession and displacement To the extent that Middle Eastern Christians register in Euro American political imaginaries they are usually invoked to justify Western military intervention into countries like Iraq or Syria or as an exemption to anti Islamic immigration policies because of an assumption that their Christianity makes them easily assimilable in the so called Judeo Christian West Using the tools of multisensory ethnography *Sonic Icons* uncovers how these views work against the very communities they are meant to benefit Through long term fieldwork in the Netherlands among Syriac Orthodox Christians also known as Assyrians Aramaeans and Syriacs Bakker Kellogg reveals how they intertwine religious practice with political activism to save Syriac Christianity from the twin threats of political violence in the Middle East and cultural assimilation in Europe In a historical moment when much of their tradition has been forgotten or destroyed their story of self discovery is one of survival and reinvention By reviving the late antique Syriac liturgical tradition known as the Daughters and Sons of the Covenant they seek a complex form of recognition for what they understand to be the ethical core of Christian kinship in an ethnic as well as in a religious sense despite living in societies that do not recognize this unhyphenated form of ethnoreligiosity as a politically legitimate mode of public identity Drawing on both theological and linguistic understandings of the icon *Sonic Icons* rethinks foundational theoretical accounts of ethnicization racialization and secularization by examining how kinship gets made claimed and named in the global politics of minority recognition The icon as a site of communicative and reproductive power illuminates how these processes are shaped by religious histories of struggle for sovereignty over the reproductive future

Antiquarian Bookman ,1966 The Modern History of Iraq Phebe

Marr, 2018-05-15 *The Modern History of Iraq* is a remarkably readable account of contemporary Iraq placing in historical perspective the crises and upheavals that continue to afflict the country. This text weaves together several important themes including the search for a national identity, the struggle to achieve social and economic development, the changes in political dynamics, and the impact of foreign interventions to provide readers with a holistic understanding of modern Iraq. Revised and updated throughout, the fourth edition features more discussion of cultural identity and media and society. In addition, this edition includes two new chapters on the events and shifts in the country of the early twenty-first century: the US intervention and withdrawal, the stabilization and subsequent unraveling of the Maliki government, the effects of the Arab uprisings, and the rise of ISIS and their political, economic, and social consequences. Written by noted Iraq scholar Phebe Marr with new co-author Ibrahim al-Marashi, this text is essential reading for readers who seek to understand modern Iraq in the context of historical perspective.

Routledge Library Editions: History of the Middle East Various, 2021-08-25 This multi-volume set of reissued classics brings together a collection of titles that touch on many key aspects of the history of the Middle East. From the early explorers of Arabia to the 1979 revolution in Iran, via histories of places as varied as the UAE and Zanzibar, the analysis of Nazi policies towards the Arab East, and a close reading of the territorial foundations of the Gulf states, the books collected here form a wide-ranging and eclectic study of the history of the region.

State and Sufism in Iraq David Jordan, 2021-12-30 *State and Sufism in Iraq* is the first comprehensive study of the Iraqi Ba'ath regime's relationship with Sufism and of Sunni Sufi Islam in Iraq from the late Ottoman period until 2003 and beyond. For far too long, the secular and authoritarian Ba'ath regime has been reduced to the dictator Saddam Husayn and portrayed as antireligious. Its growing political employment of Islam during the 1990s, in turn, has been interpreted either as an abstract Ba'athist nationalist Islam or as an ideological U-turn from secularism to a form of Islamism that ultimately contributed to the spread of Islamist terrorism after 2003. Broadening the narrow focus on Saddam Husayn, this book analyses other leading regime figures, their close entanglement with Sufism, and the Ba'ath religious politics of a state-sponsored revival of Sufi Islam and Iraq's broad and distinct Sufi culture. It is the story of a secular regime's search for moderate Islam in order to overcome the challenges of radical Islamism and sectarianism in Iraq. The book's two-pronged interdisciplinary approach that deals equally with politics and Sufi Islam in Iraq makes it a valuable contribution to scholars and students in Islamic and Middle Eastern Studies, Religious Anthropology, and Sociology, Political Science, and International Relations.

The Politics and Security of the Gulf Jeffrey R. Macris, 2010-01-21 Since the 19th century, the Gulf region has been an area of intense interest, having been influenced first by the British and more recently by the Americans. This book charts the changing security and political priorities of these two powers and how they have shaped the region. Adopting a narrative approach, the author provides background history on British involvement from the 19th century and a detailed analysis of the years after the Second World War when oil supply became more critical. He covers the growth of US influence and the British withdrawal and follows more

recent changes as the US built up its military presence following Desert Storm and the invasion of Iraq Looking at the three enduring missions fulfilled by the British maintaining interstate order protecting the free flow of commerce which later included petroleum and keeping out other Great Powers the book demonstrates how these had by 1991 been assumed almost entirely by the American leaders A comprehensive and thorough look at the history of the Gulf and the contemporary issues affecting the region this will be essential reading for students of Middle East history military history and diplomatic history Visit the author s website at www.thepoliticsandsecurityofthegulf.com
