Making Of The Tudor Despotism

Charles Harold Williams

Making Of The Tudor Despotism:

The Making of the Tudor Despotism Charles Harold Williams, 1928 *The Making of the Tudor Despotism* C. H. Williams, 1967 ***The Making of the Tudor Despotism***, 1935 ***The making of th Tudor despotism*** Charles Harold Williams, 1967 ***Governing by Virtue*** Norman Jones, 2015-10-01

Managing early modern England was difficult because the state was weak. Although Queen Elizabeth was the supreme ruler, she had little bureaucracy, no standing army, and no police force. This meant that her chief manager, Lord Burghley, had to work with the gentlemen of the magisterial classes in order to keep the peace and defend the realm. He did this successfully by employing the shared value systems of the ruling classes: an improved information system and gentle coercion. Using Burghley's archive, *Governing by Virtue* explores how he ran a state whose employees were venal, who owned their jobs for life, or whose power derived from birth and possession, not allegiance, even during national crises like that of the Spanish Armada.

The Political Systems of Empires Shmuel Noah Eisenstadt, ***Studies in Tudor and Stuart politics and government : papers and reviews 1946-1972*** Geoffrey Rudolph Elton, 2002

The papers collected in these volumes revolve around the political, constitutional, and personal problems of the English government between the end of the fifteenth century civil wars and the beginning of those of the seventeenth century. Previously published in a great variety of places, none of them appeared in book form before. They are arranged in four groups: Tudor Politics and Tudor Government in Volume I; Parliament and Political Thought in Volume II. But these groups interlock. Though written in the course of some two decades, all the pieces bear variously on the same body of major issues and often illuminate details only touched upon in Professor Elton's books. Several investigate the received preconceptions of historians and suggest new ways of approaching familiar subjects. They are reprinted unaltered, but some new footnotes have been added to correct errors and draw attention to later developments.

The Political Systems of Empires Shmuel N. Eisenstadt, 2017-07-31

Winner of the prestigious MacIver Award when it was first published, this remains a towering work of modern political sociology, especially of macrosociology. Its main objective is comparative analysis of political commonalities found in different societies, both historical and present. The book seeks to find some pattern or laws in the structure and development of such systems. The imaginative use of data helps to bring order into what might otherwise be considered a speculative volume. The purpose of *The Political Systems of Empires* is to apply sociological concepts to the analysis of historical societies through the comparative analysis of a special type of political system. This analysis does not purport to be historical or descriptive. Its main objective is comparative analysis of political commonalities found in different societies. The book seeks to find some pattern or laws in the structure and development of such systems.

Power in Verse Jane Hedley, 2010-11

English lyric poetry from Wyatt to Donne falls into three consecutive stylistic phases. Tottel's Miscellany presided over the first, making the lyrics of Wyatt and Surrey available for imitation by mid-century poets like Barnabe Googe, George Turberville, and George Gascoigne. The Shepheardes Calender and Sidney's Defense of Poesy ushered in the second

the Elizabethan or Golden phase of the 1580s and 1590s In the third phase Donne and Jonson reacting against the stylistic orientation of the Elizabethan poets reconceived the status of poesy and resituated the lyric for a post Elizabethan audience Chapter 7 is shared between Donne and Jonson post Elizabethan writers who used metonymy to subvert the metaphoric stance of Elizabethan poetry In a Postscript Hedley takes on the metaphysical conceit for a final demonstration of the explanatory power of Jakobson s theory of language Professor Hedley uses the semiotic theory of Roman Jakobson to create stylistic profiles for each of these three phases of early Renaissance poetry Along with the poetry itself she reexamines contemporary treatises defenses and notes of instruction to highlight key features of poetic practice She proposes that early and mid Tudor poetry is metonymic that the collective orientation of the Elizabethan poets is metaphoric and that Donne and Jonson bring metonymy to the fore once again Chapter 1 sets out the essentials of Jakobson s theory Hedley uses particular poems to show what is involved in claiming that a writer or a piece of writing has metaphoric or a metonymic basis Chapter 2 explains how the metaphoric bias of Elizabethan poetry was produced as poesy became part of England s national identity This chapter broadens out beyond the lyric to include other modes of writing whose emergence belongs to an Elizabethan moment in the history of English literature Beyond chapter 2 each chapter has a double purpose to create stylistic profile for a single poetic generation and to highlight a particular aspect or feature of the poetry as an index of difference from one generation to the next In the third chapter Hedley shows how Wyatt and Surrey used deixis metonymically to give their poems particular occasions Chapter 4 explains how the metonymic bias of the mid Tudor poets affected their use of metaphor and highlights Gascoigne s appreciation of a metaphor as a social gambit or an instrument of moral suasion Chapters 5 and 6 are centered in the Elizabethan period but with perspectives into earlier and subsequent phases of metonymic writing In chapter 5 a comprehensive discussion of the sonnet and the sonnet sequence shows how metaphoric writing cooperates with the poetic function of language Chapter 6 deals with love poetry as a social political activity whose orientation differs radically from one generation of English Petrarchists to the next
