*Making Inclusion Work* Saija Katila, Susan Merilinen, Janne Tienari, 2010-01-01 Full of insights for any organizational scholar still hoping to make a difference for a better world this greatly illuminating book examines what it takes to intervene critically but positively in the mainstream of a globalized academic life and be able to survive such interventions The contributors offer tried and tested approaches neither aggressive nor confrontational allowing them to bring inclusion and multiplicity to their teaching and their research while carving spaces for action and resistance to hegemonic academic practices An innovative must read and much needed text Marta B Cal s University of Massachusetts US This important book should be required reading for all management educators Starting from an incisive and timely critique of the increasingly standardized global academic system the editors set out to offer an inclusive vision of what education can be A rich array of contributors from diverse cultures and perspectives offer experiences and ideas about the practice of inclusive education and perhaps more importantly offer some hope that the logic of standardization is not immutable Christopher Grey University of Warwick UK This innovative book explores how inclusion can be enhanced in academia by considering the strategic work of expert academics from around the world It offers a new look at academic work through the accounts of passionate practitioners who have each in their own ways made inclusion work *Making Inclusion Work* exemplifies how academics can meaningfully engage in inclusive practices in their everyday work Scholars around the world share their experiences of intervening in curriculum development teaching and research and reflect on practices that have worked in local contexts The authors discuss the process for reaching greater inclusion which begins with an honest appraisal of current local practice Reflective developers in academic institutions and educational administration will appreciate the unique insights provided by this book Students interested in diversity and inclusion academic practices and autobiographical action oriented research will also find the contributions invaluable

**Making Free Trade Work** Peter Morici, 1990 **Making Devolution Work for Service Delivery in Kenya** Abdu Muwonge, Muratha Kinuthia, Timothy Stephen Williamson, Christine Owuor, 2022-02-23 Kenya adopted a new Constitution and began the process of devolution in 2010 The new Constitution was the institutional response to longstanding grievances over the centralization of state powers and public sector resources and regional disparities in service delivery and development outcomes This radical restructuring of the Kenyan state has three main objectives decentralizing political power public sector functions and public finances ensuring a more equitable spatial distribution of resources between regions and promoting more accountable participatory and responsive government at all levels The first elections under the new Constitution were held in 2013 Alongside the national government 47 new county governments were established Each county government is made up of a County Executive headed by an elected Governor and works under the oversight of an elected County Assembly Seven years after the devolution train left the station this report takes stock of how devolution has affected the delivery of devolved basic services to Kenyan citizens Whereas

devolution was driven by political reform the ensuing institutions and systems were expected to deliver greater socioeconomic equity through devolved service delivery The Making Devolution Work for Service Delivery MDWSD study is the first major assessment of Kenya's devolution reform The study was a jointly coordinated effort by the Government of Kenya and the World Bank The study provides key messages with respect to what is working what is not working and what could work better to enhance service delivery based on the currently available data It provides an independent assessment of service delivery performance in five sectors namely health education agriculture urban and water services and includes an in depth review of the main pillars of devolved service delivery namely public financial management intergovernmental finance human resource management politics and accountability

**The Work of Policy** Hal K. Colebatch, 2006-01-01 H K Colebatch s The Work of Policy provides an international perspective on the field of policy analysis Colebatch collects voices from around the world to consider the applicability of policy models to the actual practice of policy work International case studies demonstrate that policy work takes a variety of forms and policy analysis plays only a small role Claudia Scott addresses the changing nature of policy analysis in New Zealand due to changing priorities and a lack of well funded think tanks while Zdravko Petak s study of Croatia illustrates the development of policy analysis as part of a struggle to create a zone for critique outside the dominant central bureaucratic system Other chapters such as Kyungja Jung s look at the development of women s policy in South Korea reveal the importance of understanding policy work in the context of the historical trajectory of the political process These studies illustrate the importance of the institutional dimension in policy work the organizational framework through which it takes place the discourses in use and the values that underlie both the discourses and the organization Combining policy analysis with comparative politics this unique collection should be read by scholars around the globe who are striving to gain a better understanding of the range of practice that makes policy

**Design of Enterprise Systems** Ronald Giachetti, 2016-04-19 In practice many different people with backgrounds in many different disciplines contribute to the design of an enterprise Anyone who makes decisions to change the current enterprise to achieve some

preferred structure is considered a designer What is problematic is how to use the knowledge of separate aspects of the enterprise to achieve a globally optimized enterprise The synthesis of knowledge from many disciplines to design an enterprise defines the field of enterprise engineering Because enterprise systems are exceedingly complex encompassing many independent domains of study students must first be taught how to think about enterprise systems Specifically written for advanced and intermediate courses and modules Design of Enterprise Systems Theory Architecture and Methods takes a system theoretical perspective of the enterprise It describes a systematic approach called the enterprise design method to design the enterprise The design method demonstrates the principles models methods and tools needed to design enterprise systems The author uses the enterprise system design methodology to organize the chapters to mimic the completion of an actual project Thus the book details the enterprise engineering process from initial conceptualization of an enterprise to its final design Pedagogical tools available include For instructors PowerPoint slides for each chapter Project case studies that can be assigned as long term projects to accompany the text Quiz questions for each chapter Business Process Analyzer software available for download For students Templates checklists forms and models to support enterprise engineering activities The book fills a need for greater design content in engineering curricula by describing how to design enterprise systems Inclusion of design is also critical for business students since they must realize the import their decisions may have on the long term design of the enterprises they work with The book s practical focus and project based approach coupled with the pedagogical tools gives students the knowledge and skills they need to lead enterprise engineering projects
