## **Making Of Eu Foreign Policy:**

The Everyday Making of EU Foreign and Security Policy Bremberg, Niklas, Danielson, August, Hedling, Elsa, Michalski, Anna, 2022-02-18 This is an open access title available under the terms of a CC BY NC ND 4.0 License It is free to read download and share on Elgaronline.com This cutting edge book explores the practices and socialization of the everyday foreign policy making in the European Union EU focusing on the individuals who shape and implement the Common Foreign and Security Policy despite a growing dissension among member states Making EU Foreign Policy Daniel C. Thomas, 2011-05-03 A novel explanation of how EU member states overcome their divergent preferences to reach agreement on common foreign policies with fourteen in depth case studies covering diplomatic and security issues enlargement trade development and environmental protection The Making of EU Foreign Policy Karen E. Smith, 1998-11-11 This book argues that there has been a common European Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyses why the EU has agreed to the policy The objective of the EU's policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement *Theories of the Making of European Union Foreign Policy* Jan-Henrik Petermann, 2011-11-21 Essay from the year 2005 in the subject Politics Topic European Union London School of Economics Department of International Relations language English abstract In spite of the growing empirical significance of the European Union EU as a soft power scholars of International Relations IR have found it difficult to identify a single theoretical framework to explain the making of European Foreign Policy EFP The reasons for this apparent failure of rigorous theory building may be twofold On the one hand there is still much debate about what the EU the ontological object of inquiry actually is On the other hand many authors have taken a self critical attitude towards their own discipline emphasising that there is still a multiplicity of convictions as to how we can best theorise EFP Though detailed analyses of the specific pattern of the EU's external relations have indeed been marginalised for a long time it seems plausible to trace this lack of theoretical coherence back to the nature of EFP itself It is often argued that the EU is a political system sui generis a complex structure that is neither a state nor a non state actor and neither a conventional international organization nor an international regime In a similar vein some observers assert that the EU might most suitably be characterised as a hybrid political sphere that does not easily lend itself to classical Foreign Policy Analysis FPA In fact the major IR perspectives on EU foreign policy making neorealist neoliberal and constructivist appear to be largely incompatible in this respect Within each framework certain claims are made which effectively rule out or downgrade the validity and reliability of key premises in rival approaches Therefore the central question posed in this essay is Which theory best explains the making of EU foreign policy And if there is no single theoretical paradigm might there be any potential for an analytical synthesis in order to understand the particular features of EFP more appropriately To answer these questions I will

first describe the main views on the development of EFP represented by the above mentioned approaches within the broader context of theorising European integration Secondly I will outline in how far the EU's peculiar nature as a system of multi level decision making can be regarded as a core empirical challenge to the concepts of conventional FPA I will conclude that different theoretical schemes ought to be applied to different issue areas of foreign policy making in a more selective manner if the complex processes of EFP are to be fully understood

### **The Formulation of EU Foreign Policy**

Nicola Chelotti, 2016-01-22 EU foreign and defence policy is largely formulated in the working parties and committees of the Council of the EU and the vast majority of decisions in this field are made by the national diplomats working in the around 35 groups of the CFSP CSDP Although the importance of these committees and their participants has been increasingly recognised we still know relatively little about them Using an original database of 138 questionnaires and 37 interviews this book addresses this lack of knowledge studying what these committees do and how they negotiate and resolve issues It explores three key areas the formulation of the national position the identity of CFSP CSDP policy makers negotiation practices and outputs In doing so it provides an innovative observation point from which EU foreign policy can be analysed This book will be of key interest to scholars and students of EU foreign and defence policy external relations of the EU European integration and politics diplomacy and more broadly international relations

### **EU Foreign Policy Beyond the Nation State**

Neil Winn, C. Lord, 2001-06-11 EU Foreign Policy Beyond the Nation State analyses how the three pillar structure of the European Union influences decisions in the Common Foreign and Security Policy CFSP The authors criticise traditional models of foreign policy analysis and go beyond existing state centric approaches They employ three case studies Bosnia Chechnya and former Yugoslavia MOSTAR to test the quality and the type of decisions taken in foreign policy beyond the nation state

New Approaches to EU Foreign Policy Maciej Wilga, Ireneusz Pawel Karolewski, 2014-06-05 EU foreign policy once existed in the form of the European Political Cooperation with only a limited political leverage and symbolic institutional underpinnings In recent years rapid changes have occurred including an expanding institutional apparatus increased responsibility and growing demand for action This book examines new approaches to the EU's foreign policy that address its rapidly changing character presenting the newest theoretical perspectives and dealing with novel empirical developments Rather than simply considering structural variations and changes in the agency of the EU it explores the new complexity in EU foreign policy The authors offer new theoretical perspectives and new empirical studies dealing among others with issues such as Power delegation to the Commission EU diplomacy Parliamentarisation and constitutionalisation Committees involvement in foreign policy process This book will be of interest to students and scholars of European politics European foreign policy and European integration

### *Routledge Handbook on the European Union and International Institutions*

Knud Erik Jørgensen, Katie Verlin Laatikainen, 2013 This Handbook addresses the increasingly contested issue of profound political importance Europe's presence in multilateral institutions It assesses both the evolving role of Europe in international

institutions and the transformations in international institutions themselves      *EU Foreign Policy and Hamas* Adeeb Ziadeh, 2017-10-20 Shortly after the overwhelming victory of Hamas in the 2006 parliamentary and municipal elections civil war broke out in the Gaza Strip between members of the two factions Hamas and Fatah The EU along with the US UN and Russia not only gave its support to Fatah against Hamas but also imposed a tough siege on the Hamas government in an attempt to force it to accept the Quartet's political conditions described by Hamas leaders as unfair and impossible Many observers are convinced that the EU's behaviour in this matter has been unreasonable and has conflicted with the EU's own democratic beliefs and values This book sheds light on the EU's policies in Palestine mainly from 2003 2013 and provides a thorough examination of the inconsistencies and paradoxes in the EU discourse towards Hamas and the determinants underlying such contradictions It explores the reasons behind the EU labelling the Hamas a terrorist organization and discusses why the EU has boycotted its democratically elected body since 2006 Significantly the book looks at whether the EU jeopardized its reputation and contravened its core normative values and objectives democracy promotion human rights the rule of law and fundamental freedoms by such a categorisation of Hamas Exploring the EU's policy towards Hamas is vital for understanding how the relationship between the EU and the rest of the Islamists in the Middle East is perceived as it enables both sides to have a cognitive basis upon which to construct better relations This book based upon a vast spread of primary EU documents and interviews will therefore be a valuable resource for those studying the Arab Israeli conflict Political Islamic movements the Middle East Peace Process and anyone with an interest in European Union Foreign Policy

**Foreign Policy in the European Union** Ben Soetendorp, 2014-06-11 Ben Soetendorp examines the extent to which individual member states each with their own history special interests and styles of foreign policy making still dominate the common foreign policy making process within the European Union The first part of the book reviews the diverse foreign policy patterns of the individual member states towards European integration describes the various styles of foreign policy and examines the institutional arrangements for joint foreign policy making created by the member states at EU level The second part looks more closely at the reality of foreign policy making in a number of case studies focusing on the diplomatic military and economic dimensions of European Union's foreign policy This structure and approach enable the reader to understand the reality of European foreign policy making to comprehend the relationship between the foreign policies of the member states of the EU and the foreign policy of the EU as a whole and to make a judgement as to the likely scenarios for the future Foreign Policy in the European Union is an important and accessible addition to the textbook literature on European integration that will be essential reading for undergraduate and Masters level courses on European integration within politics international relations European Studies and history degrees      **The SAGE Handbook of European**

significant international role of the European Union The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists the Union's international relations have become more substantial and its foreign policy more focused European foreign policy has become a dynamic policy area being adapted to changing challenges and environments such as the Arab Spring new emerging economies powers the crisis of multilateralism and much more The SAGE Handbook of European Foreign Policy Two Volume set is a major reference work for Foreign Policy Programmes around the world The Handbook is designed to be accessible to graduate and postgraduate students in a wide variety of disciplines across the humanities and social sciences Both volumes are structured to address areas of critical concern to scholars at the cutting edge of all major dimensions of foreign policy The volumes are composed of original chapters written specifically to the following themes Research traditions and historical experience Theoretical perspectives EU actors State actors Societal actors The politics of European foreign policy Bilateral relations Relations with multilateral institutions Individual policies Transnational challenges The Handbook will be an essential reference for both advanced students and scholars

*The Maritime Turn in EU Foreign and Security Policies* Marianne Riddervold, 2018-01-18 This book provides the first substantial treatment of the maritime foreign and security policies of the European Union Its findings add to the literature by a comparative theoretically informed analysis of EU maritime foreign and security policies across five cases the EU's Maritime Security Strategy and action plan the EU's two naval missions Atalanta and Sophia EU Arctic policies and EU policies towards the Maritime Labour Convention Focusing on the aims actors and mechanisms of integration in these cases the book speaks to the three main debates in the literature on EU foreign policy including whether it has a particular normative dimension that makes it different from foreign policy as it is conventionally understood the extent to which policy making in the domain has developed beyond intergovernmental cooperation and interlinked how EU foreign and security policy integration and its characteristics can be explained In doing this the book also addresses a fourth contemporary scholarly debate linked to if and how the EU is affected by crisis By focusing on maritime security policies the book also adds to the international relations literature more broadly This book is an invaluable resource for scholars students and practitioners interested in EU foreign and security policy European and global maritime security issues EU integration EU crisis and international relations Marianne Riddervold is an Associate Professor at Inland Norway University of applied sciences a Senior fellow at UC Berkeley Institute of European Studies and a Guest Researcher at ARENA Centre for European Studies at the University of Oslo

**The Foreign Policy of the European Union** Stephan Keukeleire, Tom Delreux, 2022-02-10 Keukeleire and Delreux demonstrate the scope and diversity of the European Union's foreign policy showing that EU foreign policy is broader than the Common Foreign and

Security Policy and the Common Security and Defence Policy and that areas such as trade development environment and energy are inextricable elements of it This book offers a comprehensive and critical account of the EU's key foreign relations with its neighbourhood with the US China and Russia and with emerged powers and argues that the EU's foreign policy needs to be understood not only as a response to crises and conflicts but also as a means of shaping international structures and influencing long term processes This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates addressing issues such as the increasingly contested international order the conflict in Ukraine the migration and refugee crisis Brexit and Covid 19 The book not only clarifies the formal procedures in EU foreign policy making but also elucidates how it works in practice The third edition includes new sections and boxes on strategic autonomy European arms exports the EU's external representation the Brussels Effect and decentring and gender approaches to EU foreign policy Up to date jargon free and supported by its own website [eufp.eu](http://eufp.eu) this systematic and innovative appraisal of this key policy area is suitable for undergraduate and postgraduate students as well as practitioners

**Explaining the European Union's Foreign Policy** Magnus Ekengren, 2018-10-04 The European Union was created for the purpose of encouraging peace on the continent but today is increasingly active globally in areas such as diplomacy development humanitarian and consular aid and civilian and military crisis management Yet we know little about the forces that drive the Union to interact influence and intervene outside its borders This book offers a new theoretical perspective that explains how EU collective action is driven by practice such as diplomatic routines and crisis management procedures Using global case studies Ekengren shows how the EU's representatives perform these routines or transnational practices across particular locales around the globe from Kosovo to Haiti By connecting transnational and local forces in the explanation of EU foreign policy action he presents an outline of a practice theory of translocal action Scholars policymakers and journalists will find this theoretically ground breaking book essential in understanding the European Union's foreign policy

**The New Member States and the European Union** Michael Baun, Dan Marek, 2013-03-05 This book examines the impact of EU membership on the foreign policies of the 12 new member states that joined the EU in 2004 and 2007 Among scholars of European politics there is a general consensus that membership in the European Union changes the countries that join Yet considerable debate remains over what exactly changes to what extent how or why these changes happen and why some countries policies and institutions change more than others Expert contributors examine the impact of EU integration and membership with chapters on the 12 new EU entrants since 2004 Poland Czech Republic Hungary Slovakia Slovenia Estonia Latvia Lithuania Cyprus Malta Bulgaria and Romania Utilizing a common analytical framework each of the country case studies examines the impact of EU membership on the foreign policies of the new member states in three key areas foreign policy making institutions and procedures interests and preferences and strategies and actions The New Member States and the European Union will be of interest to students and scholars of European Studies and European

Union Politics      Foreign Policy Under Austerity Spyridon N. Litsas, Aristotle Tziampiris, 2016-11-09 This book examines the continuities and substantial transformations in Greek foreign policy before the beginning and during the unfolding of the economic crisis Although up until now significant attention has been cast on the rise of the neo Nazi movement the abuses and dysfunctions of the Greek economy and the immense social ramifications of unemployment less is understood about the impact on Greek diplomacy and foreign policy This collective work not only attempts to delineate future trends in Greek foreign policy but also seeks to explore the current events that resemble more a Greek tragedy than the systemic challenges that every nation has to face This edited volume quite original in its field of analysis will be of interest to International Relations academics foreign policy professionals Politics and Economic students and the general public who follow developments pertaining to Greece and the European Union as well theoretical debates surrounding International Relations

**The European Union and China** May-Britt U. **Tunisia's International Relations since the 'Arab Spring'** Tasnim Abderrahim, Laura-Theresa Krüger, Salma Besbes, Katharina McLarren, 2017-09-22 When popular protests started in Tunisia in late 2010 few anticipated the implications these events would have for the entire Arab region In the following years this region witnessed deep changes increased divisions and even failing states Meanwhile Tunisia managed to assert itself as a new democracy How did this small country manage its democratic transition within such a short period And what implications has this had for its foreign policy and its role in international politics This book assesses Tunisia s transition inside and out from four angles Tunisian polity and politics which provide the framework for its foreign policy since the Arab Spring bilateral relations before and after the Arab Spring Tunisia s activism in international organisations as well as their presence in Tunisia and transnational issues in Tunisia Drawing on a broad range of primary sources including authors own interview material conducted with politicians and representatives of civil society and international NGOs involved in the transition process the book shows that since 2011 Tunisia has not only developed fundamentally at the domestic level but also at the level of external relations New and old alliances a broadening of relations and new activism of

civil society and of Tunisia in international organisations certify that Tunisia has the potential to play an increasingly important role regionally as well as internationally Providing an encompassing picture of Tunisia s changed role and successful transition from an autocracy to a democracy the book allows students and scholars in the field to understand the last country standing better a country that both the scientific community and the political scene should not underestimate for the promises it holds
