Making Of Geography:

The Making of Geography Robert Eric Dickinson, Osbert John Radcliffe Howarth, 1976 Research and Debate in Primary Geography Simon Catling, 2017-10-02 This book brings together recent papers which make important contributions to understanding and developing primary geography. It considers primary teachers and trainee teachers' knowledge of geography, how the primary curriculum uses geography, teachers' planning of geography teaching, the way in which aspects of geography are taught, what high quality geography might look like, and children's geographical understanding and voices. Though geography curricula change quite often in countries around the world, the core matters noted above remain of constant and vital importance. The papers in this book either concern research with primary teachers and children or consider key concerns in primary geography, providing important perspectives for thinking about future developments in geography teaching and curriculum initiatives in primary schools. This is a stimulating and enticing collection written by leading exponents of and experts in primary geography education. This book was originally published as a special issue of *Education* 3:13. Soja, 2011-01-10 *Postmodern Geographies* stands as the cardinal broadcast and defence of theory's spatial turn. From the suppression of space in modern social science and the disciplinary aloofness of geography to the spatial returns of Foucault and Lefebvre and the construction of Marxist geographies alert to urbanization and global development, renowned geographer Edward W. Soja details the trajectory of this turn and lays out its key debates. An expanded critique of historicism and a refined grasp of materialist dialectics bolster Soja's attempt to introduce geography to postmodernity, animating a series of engagements with Heidegger, Giddens, Castells, and others. Two exploratory essays on the postfordist landscapes of Los Angeles complete the book, offering a glimpse of Soja's new geography carried into its highest register. *Mastering Primary Geography* Anthony Barlow, Sarah Whitehouse, 2019-06-27 *Mastering Primary Geography* introduces the primary geography curriculum and helps trainees and
