Making Of Modern Burma:

The Making of Modern Burma Thant Myint-U, Thant Myint-U., 2001-03-26 Burma has often been portrayed as a timeless place a country of egalitarian Buddhist villages ruled successively by autocratic kings British colonialists and most recently a military dictatorship The Making of Modern Burma argues instead that many aspects of Burmese society today from the borders of the state to the social structure of the countryside to the very notion of a Burmese identity are largely the creations of the nineteenth century a period of great change away from the Ava based polity of early modern times and towards the British Burma of the 1900s The book provides a sophisticated and much needed account of the period and as such will be an important resource for policy makers and students as a basis for understanding contemporary politics and the challenges of the modern state It will also be read by historians interested in the British colonial expansion of the nineteenth century Die mykenische Zeit und die Gesittung von Thera ,1976 Why Now? Tun, 2013 *Modern Buddhist Conjunctures in Myanmar* Juliane Schober, 2010-11-30 For centuries Burmese have looked to the authority of their religious tradition Theravada Buddhism to negotiate social and political hierarchies Modern Buddhist Conjunctures in Myanmar examines those moments in the modern history of this Southeast Asian country when religion culture and politics converge to chart new directions Arguing against Max Weber's characterization of Buddhism as other worldly and divorced from politics this study shows that Buddhist practice necessitates public validation within an economy of merit in which moral action earns future rewards The intervention of colonial modernity in traditional Burmese Buddhist worldviews has created conjunctures at which public concerns critical to the nation's future are reinterpreted in light of a Buddhist paradigm of power Author Juliane Schober begins by focusing on the public role of Buddhist practice and the ways in which precolonial Buddhist hegemonies were negotiated Her discussion then traces the emergence of modern Buddhist communities through the colonial experience the disruption of traditional paradigms of hegemony and governance the introduction of new and secular venues to power modern concerns like nationalism education the public place of religion the power of the state and Buddhist resistance to the center The continuing discourse and cultural negotiation of these themes draw Buddhist communities into political arenas either to legitimate political power or to resist it on moral grounds The book concludes with an examination of the way in which Buddhist resistance in 2007 known in the West as the Saffron Revolution was subjugated by military secularism and the transnational pressures of a global economy A skillfully crafted work of scholarship Modern Buddhist Conjunctures in Myanmar will be welcomed by students of Theravada Buddhism and Burma Myanmar readers of anthropology history of religions politics and colonial studies of modern Southeast Asia and scholars of religious and political practice in modern national contexts **Burma's Economy in the Twentieth Century** Ian

Brown, 2013-11-07 At the beginning of the twentieth century Burma was among the most prosperous territories in the East Yet since gaining independence in 1948 its economy has struggled Burma's developmental failure has often been attributed

to gross mismanagement of the economy by the military who took power in 1962 but in this illuminating book Ian Brown one of the leading economic historians of Southeast Asia provides a fresh examination of the country's economic past thereby setting that failure in the context of the colonial period For the first time a review of Burma's economic experience in the final decades of British rule is integrated with an analysis of its economy since independence providing a detailed understanding of the complex origins of Burma's economic failure in the second half of the twentieth century This is a compelling introduction to Burma's political and economic history for students in Southeast Asian history development studies and political science

Martin, 2012-08-02 In today's world students need to know that there is more to politics than just politics This clearly written text introduces students to world politics as a combination of comparative politics and international relations in an increasingly interconnected globe and explores topics that are sometimes left out of the equation health care the status of children changing roles of women in the developing world and the interplay among population growth resources the environment and sustainable development Designed specifically for introductory level students the book balances theory with authentic insights and examples that provide a compelling window into the struggles of citizens worldwide

Ordering Violence Paul Staniland, 2021-12-15 In *Ordering Violence* Paul Staniland advances a broad approach to armed politics bringing together governments insurgents militias and armed political parties in a shared framework to argue that governments' perception of the ideological threats posed by armed groups drive their responses and interactions Staniland combines a unique new dataset of state group armed orders in India Pakistan Burma Myanmar and Sri Lanka with detailed case studies from the region to explore when and how this model of threat perception provides insight into patterns of repression collusion and mutual neglect across nearly seven decades Instead of straightforwardly responding to the material or organizational power of armed groups Staniland finds regimes assess how a

group's politics align with their own ideological projects Explaining for example why governments often use extreme repression against weak groups even while working with or tolerating more powerful armed actors *Ordering Violence* provides a comprehensive overview of South Asia's complex armed politics embedded within an analytical framework that can also speak broadly beyond the subcontinent Communities, Institutions and Histories of India's Northeast Charisma K. Lepcha, Uttam Lal, 2021-11-09 People from India's Northeast have crafted distinct as well as diverse cultural cryptograms discernments and personality which is frequently at loggerheads with the power politics from outside the region Thus attention is often on the societies of the Northeast India as they putter with transforming institutions and more intensive resource consumption in the wake of modernization and development activities This volume is an examination into questions of who exercises control who constructs knowledge ideas about the region and how far such discourses are people centric It inspects how India's Northeast have been understood in colonial and post colonial contexts through the contributions from research scholars and faculties from different academic spaces These contributions are both from within the region as well as from neighbourhood Thus presenting a cross dimensional gaze on social political economic as well as issues related to space relation Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka Unraveling Internal Conflicts in East Asia and the Pacific Jacob Bercovitch, Karl R. DeRouen, 2011-01-01 *Unraveling Internal Conflicts in East Asia and the Pacific* Incidence Consequences and Resolution edited by Jacob Bercovitch and Karl DeRouen Jr is a book of originally commissioned essays on civil wars which provide a compelling area of inquiry Many of the Asia Pacific region's wars are very long such as in Myanmar some tend to recur also in Myanmar some involve religion Philippines Thailand and some Aceh Bougainville East Timor of the longest have ended in the last few years In short the region presents a variety of interesting dynamics that merit close attention in one volume **Crafting Parliament in Myanmar's Disciplined Democracy (2011-2021)** Renaud Egretteau, 2022 This volume offers the most significant analysis of how parliament re emerged in Myanmar in the span of a post junta decade 2011-2021 InterAsian Intimacies Across Race, Religion, and Colonialism Chie Ikeya, 2024-09-15 In *InterAsian Intimacies across Race Religion and Colonialism* Chie Ikeya asks how interAsian marriage conversion and collaboration in Burma under British colonial rule became the subject of political agitation legislative activism and collective violence Over the course of the twentieth century relations between Burmese Muslims Sino Burmese Indo Burmese and other mixed families and communities became flashpoints for far reaching legal reforms and Buddhist revivalist feminist and nationalist campaigns aimed at consigning minority Asians to subordinate status and regulating women's conjugal and reproductive choices Out of these efforts emerged understandings of religion race and nation that continue to vex Burma and its neighbors today Combining multilingual archival research with family history and intergenerational storytelling Ikeya highlights how the people targeted by such movements made and remade their lives under the shifting circumstances of colonialism capitalism and nationalism The book illuminates a history

of belonging across boundaries a history that has been overshadowed by Eurocentric narratives about the mixing of white colonial masters and native mistresses InterAsian intimacy was and remains foundational to modern regimes of knowledge power and desire throughout Asia

Ghosts of Empire Kwasi Kwarteng, 2012-02-07 Kwasi Kwarteng is the child of parents whose lives were shaped as subjects of the British Empire first in their native Ghana then as British immigrants He brings a unique perspective and impeccable academic credentials to a narrative history of the British Empire one that avoids sweeping judgmental condemnation and instead sees the Empire for what it was a series of local fiefdoms administered in varying degrees of competence or brutality by a cast of characters as outsized and eccentric as anything conjured by Gilbert and Sullivan The truth as Kwarteng reveals is that there was no such thing as a model for imperial administration instead appointees were schooled in quirky independent minded individuality As a result the Empire was the product not of a grand idea but of often chaotic individual improvisation The idiosyncrasies of viceroys and soldier diplomats who ran the colonial enterprise continues to impact the world from Kashmir to Sudan Baghdad to Hong Kong

Southeast Asian Education in Modern History Pia Jolliffe, Thomas Bruce, 2018-10-30 How particular has Southeast Asia's experience of educational development been and has this led to an identifiably distinct Southeast Asian approach to the provision of education Inquiry into these questions has significant consequences for our understanding of the current state of education in Southeast Asia and the challenges it has inherited This book contributes to a better understanding of the experience of educational development in Southeast Asia by presenting a collection of micro historical studies on the subject of education policy and practice in the region from the emergence of modern education to the end of the twentieth century The chapters fathom the extent to which contest over educational content in schools has occurred and establish the socio cultural political and economic bases upon which these contestations have taken place and the ways in which those forces have played out in the classrooms In doing so the book conveys a sense of the extent to which modern forms of education have been both facilitated and shaped by the region's specific configurations its unique demographic religious social environmental economic and political context Conversely they also provide examples of the sorts of obstacles that have prevented education making as full an impact on the region's recent modern transformation as might have been hoped or expected This book will be of interest to academics in the field of Southeast Asian Studies Asian Studies education nationalism and history
