Monastic Quest And Interreligious Dialogue:

Monastic Quest and Interreligious Dialogue Gilbert G. Hardy, 1990 This work is a fascinating analysis of a timeless and timely topic It treats of the monastic fact both phenomenologically and philosophically reflecting on the contemporary role of monasticism in the acute issue of dialogue among major religions especially between Buddhism and Christianity Hardy s approach is refreshingly open to the challenge of religious pluralism at the same time it is conscientiously honest in stating the limits of dialogical discourse when it comes to religious truth claims Monastic Quest and Interreligious Dialogue is at once thought provoking sobering and inspiring

Catholics in Interreligious Dialogue Anthony O'Mahony, Peter Bowe, 2006 This volume brings together a wide ranging and engaging series of studies that witness to the depth of theological reflection that the contemporary Christian monastic and scholarly community are engaged in as the religious traditions seek to understand and relate to each other in a global context Catholic

The Dialogical Spirit Amos Yong, 2015-04-30 Contemporary proposals for Christian theology from post liberalism to Radical Orthodoxy and beyond have espoused their own methodological paradigms Those who have ventured into this domain of theological method however have usually had to stake their claims vis a vis trends in what may be called the contemporary post al age whether of the post modern post Christendom post Enlightenment post Western or post colonial varieties This volume is unique among offerings in this arena in suggesting a way forward that engages on each of these fronts and does so from a particularistic Christian perspective without giving up on Christian theology s traditional claims to universality This is accomplished through the articulation of a distinctive dialogical methodology informed by both Pentecostalism and Evangelicalism one rooted in the Christian salvation history narrative of Incarnation and Pentecost that is yet open to the world in its many and various cultural ethnic religious and disciplinary discourses Amos Yong here engages with twelve different interlocutors representing different ecumenical religious and disciplinary perspectives The Dialogical Spirit thus not only proffers a model for Christian theological method suitable for the twenty first century global context but also exemplifies this methodological approach through its interactions across the contemporary scholarly inter religious and theological

Annual Review of the Sociology of Religion. Volume 5 (2014) ,2014-11-13 In contrast with the growing belief in society that traditional religious institutions are losing credibility there has been renewed interest in monasteries going beyond what is strictly defined as religious There are for example increasingly numerous requests for cooking and gardening courses as well as guided tours in monasteries the appeal of monastic products and media interest in the subject In parallel with a strong crisis in its recruitment monasticism in the Western world is experiencing a period of innovation and experiments accompanied by unexpected popularity as is evidenced by numerous films and publications We hope that this book will deepen the understanding of the specificity of monastic life in the in the contemporary world in a religious area and from a sociological point of view

The Oxford Handbook of Christian Monasticism Bernice M. Kaczynski,2020-09-29 The Handbook takes as its subject the complex phenomenon of Christian monasticism It addresses for the first time in one volume the multiple strands of Christian monastic practice Forty four essays consider historical and thematic aspects of the Catholic Eastern Orthodox Oriental Orthodox Protestant and Anglican traditions as well as contemporary new monasticism The essays in the book span a period of nearly two thousand years from late ancient times through the medieval and early modern eras on to the present day Taken together they offer not a narrative survey but rather a map of the vast terrain The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism It presents the work of both academic and monastic authors and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues They indicate developing trends in their areas of specialisation The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies In today s world where there is increasing interest in all world monasticisms where scholars are adopting more capacious global approaches to their investigations and where monks and nuns are casting a fresh eye on their ancient traditions this publication is especially timely

Exploring New Monastic Communities Stefania Palmisano,2016-04-15

Examining the recent radical re invention of monastic tradition in the everyday life of New Monastic Communities Exploring New Monastic Communities considers how growing up in the wake of Vatican II new Catholic communities are renewing monastic life by emphasizing the most innovative and disruptive theological aspects which they identify in the Council Despite freely adopting and adapting their Rule of Life the new communities do not belong to pre existing orders or congregations they are gender mixed with monks and nuns living under the same roof they accept lay members whether single married or as families they reject enclosure they often limit collective prayer time in order to increase time for labour evangelization and voluntary social work and are actively involved in oecumenical and interreligious dialogue harbouring thinly veiled sympathy with oriental religions from which they sometimes adopt beliefs and practices Offering unique sociological insights into New Monastic Communities and shedding light on questions surrounding New Religious Movements more generally the book asks what monastic means today and whether these communities can still be described as monastic

The Third Desert Fabrice Blee, 2011-04-01 Over the course of its history the Christian monastic tradition has developed a desert spirituality of solitude silence and self knowledge that fosters openness to the divine presence and its transformative power Today the divine presence is manifesting itself anew in the desert of otherness that sacred space in which we encounter the other as one whose difference even of religion and spirituality can enrich us rather than as one who must be drawn to and converted to our own truth The encounter of Christians with other believers will increasingly become a place of hardship and testing that leads to union with the divine This third monastic desert is in reality the nucleus of the Kingdom that is coming into being where communication becomes communion Such has been the experience of monastic men and women Buddhists Hindus and Christians who have engaged in dialogue Having discovered an unanticipated bond between dialogue and silence openness to the other and interiority Christian monks invite the whole Church to join them on this journey into the desert of otherness Fabrice Blee was born in eprenay France He is a full professor on the faculty of theology of Saint Paul University Ottawa where he teaches in the areas of interreligious dialogue and Christian spirituality He is also the director of a series on Spiritualities in Dialogue MediasPaul a member of the editorial board of Dilatato Corde the online journal of Monastic Interreligious Dialogue and an advisor to the board of directors of the North American commission of Monastic Interreligious Dialogue
