The Last Taboo David W. Krueger, 1986 **The last taboo** Karin Lesnik-Oberstein, 2013-07-19 This is the first academic book ever written on women and body hair which has been seen until now as too trivial ridiculous or revolting to write about Even feminist writers or researchers on the body have found remarkably little to say about body hair usually ignoring it completely It would appear that the only texts to elaborate on body hair are guides on how to remove it medical texts on hirsutism or fetishistic pornography on hairy women The last taboo also questions how and why any particular issue can become defined as self evidently too silly or too mad to write about Using a wide range of thinking from gender theory queer theory critical and literary theory history art history anthropology and psychology the contributors argue that in fact body hair plays a central role in constructing masculinity and femininity and sexual and cultural identities It is sure to provide many academic researchers with a completely fresh perspective on all of the fields mentioned above *The Last Taboo* Scott Simmie, Julia Nunes, 2012-04-02 At any given time three million Canadians are living with some kind of mental illness But despite its prevalence the public and even some health practitioners are badly misinformed about its causes and treatment This book is an essential road map to hope and recovery It tells the reader where to get help and what pitfalls to avoid It defines the most common forms of mental illness discusses the advantages and drawbacks of medication and tackles the ultimate taboo of suicide It offers coping strategies for consumers family members friends and employers and demonstrates how they can all contribute to the recovery of a person with a mental illness Medication and psychotherapy only go so far housing meaningful activity and friendships are as crucial to recovery as any drug In *The Last Taboo* Scott Simmie recounts his own battle with a serious mental disorder and his partner Julia Nunes provides a care giver and supporter s perspective on living with a mentally ill loved one Throughout they include the real stories of other Canadians who give their own perspectives on the successes and failures of the health care system In any given year one in five Canadians will experience symptoms of mental disorder *The Last Taboo* provides sympathetic advice and practical information on the causes of mental disorder mood disorders including depression and bipolar affective disorder anxiety disorders substance abuse eating disorders personality disorders schizophrenia where to go for help giving help medication psychotherapy alternative medicine stigma suicide Includes Appendix Glossary Useful Books and Useful Websites [Close Up at a Distance](#) Laura Kurgan, 2013-03-26 The past two decades have seen revolutionary shifts in our ability to navigate inhabit and define the spatial realm The data flows that condition much of our lives now regularly include Global Positioning System GPS readings and satellite images of a quality once reserved for a few militaries and intelligence agencies and powerful geographic information system GIS software is now commonplace These new technologies have raised fundamental questions about the intersection between physical space and its representation virtual space and its realization In *Close Up at a Distance* Laura Kurgan offers a theoretical account of these new digital technologies of location and a series of practical

experiments in making maps and images with spatial data Neither simply useful tools nor objects of wonder or anxiety the technologies of GPS GIS and satellite imagery become in this book the subject and the medium of a critical exploration Close Up at a Distance records situations of intense conflict and struggle on the one hand and fundamental transformations in our ways of seeing and of experiencing space on the other Kurgan maps and theorizes mass graves incarceration patterns disappearing forests and currency flows in a series of cases that range from Kuwait 1991 to Kosovo 1999 New York 2001 to Indonesia 2010 Using digital spatial hardware and software designed for military and governmental use in reconnaissance secrecy monitoring ballistics the census and national security Kurgan engages and confronts the politics and complexities of these technologies and their uses At the intersection of art architecture activism and geography she uncovers in her essays and projects the opacities inherent in the recording of information and data and reimagines the spaces they have opened up

Who Count as Persons? John F. Kavanaugh, 2001-05-23 Just what is a human being Who counts The answers to these questions are crucial when one is faced with the ethical issue of taking human life In this affirmation of the intrinsic personal dignity and inviolability of every human individual John Kavanaugh S J denies that it can ever be moral to intentionally kill another Today in every corner of the world men and women are willing to kill others in the name of realism and under the guise of race class quality of life sex property nationalism security or religion We justify these killings by either excluding certain humans from our definition of personhood or by invoking a greater good or more pressing value Kavanaugh contends that neither alternative is acceptable He formulates an ethics that opposes the intentional killing not only of medically marginal humans but also of depersonalized or criminalized enemies Offering a philosophy of the person that embraces the undeveloped the wounded and the dying he proposes ways to recover a personal ethical stance in a global society that increasingly devalues the individual Kavanaugh discusses the work of a range of philosophers artists and

activists from Richard Rorty and S ren Kierkegaard to Albert Camus and Woody Allen from Mother Teresa to Jack Kevorkian His approach is in stark contrast to that of writer Peter Singer and others who believe that not all human life has intrinsic moral worth It will challenge philosophers students of ethics and anyone concerned about the depersonalization of contemporary life
