Christian Laval as a solidaristic response to capitalism rooted in inventive political action Rather than relying upon claims of membership or ownership the common supports radical collective acts of remaking that comprehensively reject capitalist logics Applying this approach to collaborative writing student debt working culture and digital writing Daniel demonstrates how the writing classroom may be oriented toward capitalist harms and prepare students to critique and resist them He likewise employs the common to theorize how anti capitalist interventions beyond the classroom could challenge institutional privatization and oppose the adjunctification of the professoriate Arguing that composition scholars have long neglected marketization and corporate power Toward an Anti Capitalist Composition extends a case for adopting a resolute anti capitalist stance in the field and for remaking the university as a site of common work **Finding Jung** Frank N.
