traditional religion But as Ann Coulter reveals in this her most explosive book yet to focus solely on the Left's attacks on our Judeo Christian tradition is to miss a larger point liberalism is a religion a godless one And it is now entrenched as the state religion of this country Though liberalism rejects the idea of God and reviles people of faith it bears all the attributes of a religion In *Godless* Coulter throws open the doors of the Church of Liberalism showing us its sacraments abortion its holy writ *Roe v Wade* its martyrs from Soviet spy Alger Hiss to cop killer Mumia Abu Jamal its clergy public school teachers its churches government schools where prayer is prohibited but condoms are free its doctrine of infallibility as manifest in the absolute moral authority of spokesmen from Cindy Sheehan to Max Cleland and its cosmology in which mankind is an inconsequential accident Then of course there's the liberal creation myth Charles Darwin's theory of evolution For liberals evolution is the touchstone that separates the enlightened from the benighted But Coulter neatly reverses the pretense that liberals are rationalists guided by the ideals of free inquiry and the scientific method She exposes the essential truth about Darwinian evolution that liberals refuse to confront it is bogus science Writing with a keen appreciation for genuine science Coulter reveals that the so called gaps in the theory of evolution are all there is Darwinism is nothing but a gap After 150 years of dedicated searching into the fossil record evolution's proponents have failed utterly to substantiate its claims And a long line of supposed evidence from the infamous Piltdown Man to the evolving peppered moths of England has been exposed as hoaxes Still liberals treat those who question evolution as religious heretics and prohibit students from hearing about real science when it contradicts Darwinism And these are the people who say they want to keep faith out of the classroom Liberals' absolute devotion to Darwinism Coulter shows has nothing to do with evolution's scientific validity and everything to do with its refusal to admit the possibility of God as a guiding force They will brook no challenges to the official religion Fearlessly confronting the high priests of the Church of Liberalism and ringing with Coulter's razor sharp wit *Godless* is the most important and riveting book yet from one of today's most lively and impassioned conservative voices Liberals love to boast that they are not religious which is what one would expect to hear from the state sanctioned religion Of course liberalism is a religion It has its own cosmology its own miracles its own beliefs in the supernatural its own churches its own high priests its own saints its own total worldview and its own explanation of the existence of the universe In other words liberalism contains all the attributes of what is generally known as religion From *Godless*      *The First Amendment: Cases and Theory* ,      *Tennessee's Historic Landscapes* Carroll Van West,1995 Whether you are reading from your armchair or on the road this comprehensive tour guide to the state of Tennessee will inform you about the incredible diversity of historic places from east to west Focusing on the built environment this reference covers architectural achievements from the state capitol in Nashville to the earliest humble cabins in East Tennessee      Middle and Junior High School Library Catalog ,2006
