**Scottish Gods** Bruce Steve Bruce, 2018-09-17 Steve Bruce here presents a highly readable account of the changing nature and place of religion in Scotland in an increasingly irreligious society In 1900 Scotland was a largely Presbyterian country and the Christian churches were a major social force Now less than 10 per cent of Scots attend church As religion has declined it has become more varied Catholicism has grown as have Charismatic Christian fellowships Buddhist and Hindu themes have easternised our religious vocabulary a significant Muslim population has become established and a notable number of Scots now pursue personal spiritual interests in forms which would once have been dismissed as pagan Both this decline and the diversification deserve explanation The Protestant Catholic divide has faded but Scots have new controversies over the proper public place of religion in the light of growing secularization and diversification The growth of individual liberty and increasing cultural diversity combine to weaken all shared beliefs by changing religion from a social matter into a private personal concern All religious groups are faced with the choice of either accommodating that trend and losing their distinctiveness or resisting it and making membership too costly for most potential adherents This radical remapping of Scotland's religious character is a fascinating summary of a remarkable career of research and analysis by one of Scotland's leading social historians Topics include Lewis Orkney and Shetland compared the integration of the Irish the growth and decline of the Catholic Church Scotland Orange and Protestant the Post War Kirk factionalism in the conservative Presbyterian churches the failure of the charismatic movement in Scotland Samye Ling and Buddhism Findhorn and New Age spirituality Scots Muslims and arguments over the ordination of women and gay rights
