Mont-Saint-Michel and Chartres Henry Adams, 1986-06-03 Mont Saint Michel and Chartres is a record not of a literal journey but of a meditative journey across time and space into the medieval imagination Using the architecture sculpture and stained glass of the two locales as a starting point Adams breathes life into what others might see merely as monuments of a past civilization With daring and inventive conceits Adams looks at the ordinary people places and events in the context of the social conventions and systems of thought and belief of the thirteenth century turning the study of history into a kind of theater As Raymond Carney discusses in his introduction Adams freedom from the European traditions of study lends an exuberance and puckish wit to his writings For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators

Partial Truths

and the Politics of Community Robin L. Teske, Mary Ann Tétreault, 2003 *Partial Truths and the Politics of Community* considers what happens after feminists succeed in achieving social change or in founding organizations dedicated to accomplishing their personal and social goals This collection of eighteen essays by scholars from the fields of international relations and feminist studies explores the theoretical dilemmas and practical politics of living with raised consciousnesses in worlds of our own making The contributors explore feminisms as dreams of human rights as a cluster of ideologies and as a bounty of social practices set within frameworks for tackling problems in nation building and global governance In essays that illustrate the impact of feminist concerns with the quality of education the contributors offer studies of homeschooling of the education of impoverished girls in rural Mexico of sororities and their relation to female autonomy and of the teaching of prisoners by volunteers in county jails Other contributors call for a greater attention to the ecology of social life viewing society as a complex of individuals bound to one another through webs of transactions and obligations These contributors recount examples from Northern Ireland Poland and the United States in which such webs sometimes support and sometimes strangle efforts to achieve human dignity and autonomy Evaluating progress made in the legal realm other contributors chart the opportunities and limitations of international and domestic law as tools to advance and protect human rights They consider gender discrimination in universities and colleges the United Nations and its mixed record on women's issues and the effects of adding rape to the list of prosecutable war crimes The volume concludes with two works on how feminism supports democratic constructions of science and religion with results that destabilize dominant institutions in both realms

Subject Guide to Books in Print, 1997 Paperbound Books in Print, 1992 Touching the World Paul John Eakin, 1992-04-15 Paul John Eakin's earlier work *Fictions in Autobiography* is a key text in autobiography studies In it he proposed that the self that finds expression in autobiography is in fundamental ways a kind of fictive construct a fiction articulated in a fiction In this new book Eakin turns his attention to what he sees as the defining assumption of autobiography that the story of the self does refer to a world of biographical and historical fact Here he shows that people write autobiography not in some private realm of the autonomous self but rather in strenuous engagement with the pressures that life in culture entails In so demonstrating he offers fresh readings of autobiographies by Roland Barthes Nathalie Sarraute William Maxwell Henry James Ronald Fraser Richard Rodriguez Henry Adams Patricia Hampl John Updike James McConkey and Lillian Hellman In the introduction Eakin makes a case for reopening the file on reference in autobiography and in the first chapter he establishes the complexity of the referential aesthetic of the genre the intricate interplay of fact and fiction in such texts In subsequent chapters he explores some of the major contexts of reference in autobiography the biographical the social and cultural the historical and finally underlying all the rest the somatic and temporal dimensions of the lived experience of identity In his discussion of contemporary theories of the self Eakin draws especially on cultural anthropology and developmental psychology **Romanic Review** Henry Alfred Todd, 1946 **Whitaker's Books in Print**, 1998 *The*

Fraser,2015-03-08 In this original and provocative book Russell Fraser has set himself no less a task than the description and interpretation of one of the signal facts of Western history the breaking away of the present from the medieval past He locates this break in England in the sixteenth century and on the continent two hundred years earlier Unafraid to synthesize he weaves a rich fabric of quotations allusions and examples from art music philosophy theology and physical science to explain the cultural transition to the modern world Although the author ranges from Plato to the present his focus is concentrated on the major figures of the Middle Ages and the Renaissance especially Shakespeare the last and greatest of medieval artists His intention is always to draw together and compare medieval Renaissance and contemporary attitudes so that the reader can see the past becoming the present how and when this transformation occurred and for what reasons Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Mont-Saint-Michel and Chartres* Henry Adams,Francis Henry Taylor,1957
