Montaignes Unruly Brood Textual Engendering And The Chall:

Montaigne's Unruly Brood Richard L. Regosin, 2023-04-28 Perhaps as old as writing itself the metaphor of the book as child has depicted textuality as an only son conceived to represent its father uniformly and to assure the integrity of his name Richard L Regosin demonstrates how Montaigne's *Essais* both departs from and challenges this conventional figure of textuality He argues that Montaigne's writing is best described as a corpus of siblings with multiple faces and competing voices a hybrid textuality inclined both to truth and dissimulation to faithfulness and betrayal to form and deformation And he analyzes how this unruly mixed brood also discloses a sexuality and gender dynamic in the *Essais* that is more conflicted than the traditional metaphor of literary paternity allows Regosin challenges traditional critics by showing how the logic of a faithful filial text is disrupted and how the writing self displaces the author's desire for mastery and totalization He approaches the *Essais* from diverse critical and theoretical perspectives that provide new ground for understanding both Montaigne's complex textuality and the obtrusive reading that it simultaneously invites and resists His analysis is informed by poststructuralist criticism by reception theory and by gender and feminist studies yet at the same time he treats the *Essais* as a child of sixteenth century Humanism and late Renaissance France Regosin also examines Montaigne's self-proclaimed taste for Ovid and the role played by the seminal texts of self-representation and aesthetic conception Narcissus and Pygmalion and the myth of sexual metamorphosis Iphis This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer-reviewed scholarship accessible once again using print-on-demand technology This title was originally published in 1966 *Shakespeare, Machiavelli, and Montaigne* Hugh Grady, 2002 The four plays of Shakespeare's *Henriad* and the slightly later *Hamlet* brilliantly explore interconnections between political power and interior subjectivity as productions of the newly emerging constellation we call modernity Hugh Grady argues that for Shakespeare subjectivity was a critical negative mode of resistance to power not as many recent critics have asserted its abettor **Pre-histories and Afterlives** Anna Holland, 2017-12-02 If the past is indeed a foreign country then how can we make sense of its richness and difference without approaching it on our terms alone Pre-histories and afterlives methods that have emerged in recent work by Terence Cave offer new ways of shaping the stories we tell of the past and the analyses we offer In this volume distinguished contributors engage in a dialogue with these two new critical methods exploring their uses in a range of contexts disciplines languages and periods The contributors are Terence Cave Marian Hobson Anna Holland Neil Kenny Mary McKinley Richard Scholar Kate E Tunstall and Wes Williams *Figurations of France* Marcus Keller, 2011-04-22 In *Figurations of France* Literary Nation Building in Times of Crisis 1550-1650 Marcus Keller explores the often indirect and subtle ways in which key texts of early modern French literature from Joachim Du Bellay's *D'enseigne et illustration de la langue française* to Corneille's *Le Cid*

contribute to the fiction of France as a nation Through his fresh take on these and other classics he shows that they not only create the French as an imaginary community but also provide venues for an incisive critique of the political and cultural construct that underpins the modern nation state Current theories of nationhood in particular the concepts of the nation form and fictive ethnicity tienne Balibar inform the close readings of Du Bellay s D fense Ronsard s Discours d Aubign s Tragiques Montaigne s Essays Malherbe s odes and Corneille s Le Cid and Horace They reveal the imaginary power and unifying force of early modern figurations of France that come to bear in this heterogeneous corpus of French literature with texts ranging from manifesto and epic poem to essay and tragedy Situating each author and text in their particular historical context the study suggests that the literary invention of France in the sixteenth and seventeenth centuries is as abundant as it is conceptually innovative Du Bellay for example develops an idea of France by portraying the French language as a pruned and grafted tree while d Aubign proposes to think of the French as a nuclear but fatherless family Blood functions as a highly charged metaphor of nationhood in all texts Opening up new perspectives on these canonical works the focus on literary nation building also puts them into unexpected and thought provoking relationships to each other Figurations of France deliberately crosses the fictive boundary between the sixteenth and the seventeenth centuries and argues that in terms of imaginary nation building the contours that delineate the early modern period and separate it from what we call the modern era quickly begin to dissolve Ultimately the book makes the case for early modern literature as a creative and critical discourse able to nourish and nuance our thinking about the nation as the postmodern nation state is increasingly called into question by the economical political and cultural effects of globalization Published by University of Delaware Press Distributed worldwide by Rutgers University Press *Philosophic Classics, Volume II: Medieval and Renaissance Philosophy* Forrest E. Moderating Masculinity in Early Modern Culture Todd W. Reeser, 2006 Moderating Masculinity in Early Modern Culture proposes a definition of gender based on a ternary model in which moderation and masculinity are inextricably linked Like the Aristotelian virtue of moderation which requires the presence of excess a **Early Modern Écologies** Pauline Goul, 2025-10-01 Early Modern ecologies is the first collective volume to offer perspectives on the relationship between

contemporary ecological thought and early modern French literature If Descartes spoke of humans as being masters and possessors of Nature in the seventeenth century the writers taken up in this volume arguably demonstrated a more complex and urgent understanding of the human relationship to our shared planet Opening up a rich archive of literary and non literary texts produced by Montaigne and his contemporaries this volume foregrounds not how ecocriticism renews our understanding of a literary corpus but rather how that corpus causes us to re think or to nuance contemporary eco theory The sparsely bilingual title an acute accent on cologies denotes the primary task at hand to pluralize i e de Anglophone ize the Environmental Humanities Featuring established and emerging scholars from Europe and the United States Early Modern cologies opens up new dialogues between ecotheorists such as Timothy Morton Gilles Deleuze and Bruno Latour and Montaigne Ronsard Du Bartas and Olivier de Serres

Voluntary Servitude and the Erotics of Friendship Marc D. Schachter, 2016-12-05 Focusing primarily on three early modern French authors this book explores the erotics and politics of voluntary servitude in classical antiquity and the early modern period These authors tienne de La Bo tie Michel de Montaigne and Marie de Gournay pursue related inquiries into voluntary servitude and self control in marriage friendship pederasty and politics Marc Schachter shows how Montaigne s intimate textual relationship with La Bo tie provides him the opportunity to honor his beloved friend while transforming many of his ideas Similarly Marie de Gournay s editorial voluntary servitude to Montaigne provides her the occasion to authorize her own practice as a woman author and to engage critically with Montaigne s ideas even as she celebrates her friendship with him Schachter s analyses are pursued particularly through the lens of Michel Foucault s concept of governmentality which like voluntary servitude operates on three interrelated scales self control control in interpersonal relationships and political control Schachter argues that thinking about the function of voluntary servitude through the lens of governmentality leads to a more nuanced understanding both of Foucault s late work and of the transformational possibilities offered by friendship and voluntary servitude in early modern France

Domestic Georgic Katie Kadue, 2021-09-19 Inspired by Virgil s Georgics this study conceptualizes Renaissance poetry as a domestic labor When is literary production more menial than inspired more like housework than heroics of the mind In this revisionist study Katie Kadue shows that some of the authors we credit with groundbreaking literary feats including Michel de Montaigne and John Milton conceived of their writing in surprisingly modest and domestic terms In contrast to the monumental ambitions associated with the literature of the age and picking up an undercurrent of Virgil s Georgics poetic labor of the Renaissance emerges here as often aligned with so called women s work Kadue reveals how male authors engagements with a feminized georgic mode became central to their conceptions of what literature is and could be This other georgic strain in literature shared the same primary concern as housekeeping the necessity of constant almost invisible labor to keep the things of the world intact Domestic Georgic brings into focus a conception of literary as well as scholarly and critical labor not as a striving for originality and fame but as a form of maintenance work that aims at preserving individual

and collective life *Apology For The Woman Writing* Jenny Diski, 2014-02-06 Marie de Gournay was eighteen when she read and was overwhelmed by the essays of the French philosopher Montaigne She had to be revived with hellebore When she finally met Montaigne she stabbed herself with a hairpin until the blood ran in order to show her devotion He made her his adopted daughter for the two months they knew each other He died four years later after which though scorned by intellectuals she became his editor Jenny Diski engages with this passionate and confused relationship between father and daughter old writer young acolyte possible lovers using both their voices Much of their story is about absence of the people they love In Jenny Diski's hands it becomes a fascinating tale **Early Modern Humanism and Postmodern**

Antihumanism in Dialogue Jan Miernowski, 2016-10-14 This book employs perspectives from continental philosophy intellectual history and literary and cultural studies to breach the divide between early modernist and modernist thinkers It turns to early modern humanism in order to challenge late 20th century thought and present day posthumanism This book addresses contemporary concerns such as the moral responsibility of the artist the place of religious beliefs in our secular societies legal rights extended to nonhuman species the sense of normality applied to the human body the politics of migration individual political freedom and international terrorism It demonstrates how early modern humanism can bring new perspectives to postmodern antihumanism and even invite us to envision a humanism of the future **Gender,**

Rhetoric, and Print Culture in French Renaissance Writing Floyd Gray, 2000-05-25 In this book Floyd Gray explores how the treatment of controversial subjects in French Renaissance writing was affected both by rhetorical conventions and by the commercial requirements of an expanding publishing industry Focusing on a wide range of discourses on gender issues misogynist feminist autobiographical homosexual and medical Gray reveals the extent to which these marginalized texts reflect literary concerns rather than social reality He then moves from a close analysis of the rhetorical factor in the Querelle des femmes to consider ways in which writing as a textual phenomenon inscribes its own sometimes ambiguous meaning Gray offers richly detailed readings of writing by Rabelais Jean Flore Montaigne Louise Lab Pernet du Guillet and Marie de Gournay among others challenging the inherent anachronism of those forms of criticism that fail to take account of the rhetorical and cultural conditions of the period **The Fabulous Imagination** Lawrence D. Kritzman, 2009-06-29 This is one of the few books on Montaigne that fuses analytical skill with humane awareness of why Montaigne matters Harold

Bloom Sterling Professor of Humanities Yale University In this exhilarating and learned book on Montaigne's essays Lawrence D. Kritzman contemporizes the great writer Reading him from today's deconstructive America Kritzman discovers Montaigne always already deep into a dialogue with Jacques Derrida and psychoanalysis One cannot but admire this fabulous act of translation H l ne Cixous Throughout his career Lawrence D. Kritzman has demonstrated an intimate knowledge of Montaigne's essays and an engagement with French philosophy and critical theory The Fabulous Imagination sheds precious new light on one of the founders of modern individualism and on his crucial quest for self knowledge Jean Starobinski

professor emeritus of French literature University of Geneva Michel de Montaigne's 1533-1592 *Essais* was a profound study of human subjectivity More than three hundred years before the advent of psychoanalysis Montaigne embarked on a remarkable quest to see and imagine the self from a variety of vantages Through the questions How shall I live How can I know myself he explored the significance of monsters nightmares and traumatic memories the fear of impotence the fragility of gender and the act of anticipating and coping with death In this book Lawrence D Kritzman traces Montaigne's development of the Western concept of the self For Montaigne imagination lies at the core of an internal universe that influences both the body and the mind Imagination is essential to human experience Although Montaigne recognized that the imagination can confuse the individual the fabulous imagination can be curative enabling the mind's I to sustain itself in the face of hardship Kritzman begins with Montaigne's study of the fragility of gender and its relationship to the peripatetic movement of a fabulous imagination He then follows with the essayist's examination of the act of mourning and the power of the imagination to overcome the fear of death Kritzman concludes with Montaigne's views on philosophy experience and the connection between self-portraiture ethics and oblivion His reading demonstrates that the mind's I as Montaigne envisioned it sees by imagining that which is not visible thus offering an alternative to the logical positivism of our age

The Poetics of Literary Transfer in Early Modern France and England Hassan Melehy, 2016-02-24 Examining both familiar and underappreciated texts Hassan Melehy foregrounds the relationships that early modern French and English writers conceived with both their classical predecessors and authors from flourishing literary traditions in neighboring countries In order to present their own avowedly national literatures as successfully surpassing others they engaged in a paradoxical strategy of presenting other traditions as both inspiring and dead Each of the book's four sections focuses on one early modern author Joachim Du Bellay Edmund Spenser Michel de Montaigne and William Shakespeare Melehy details the elaborate strategies that each author uses to rewrite and overcome the work of predecessors His book touches on issues highly pertinent to current early modern studies among these are translation the relationship between classicism and writing in the vernacular the role of literature in the consolidation of the state attitudes toward colonial expansion and the New World and definitions of modernity and the past

Chiasmus and Culture Boris Wiseman, Anthony Paul, 2014-03-01 Anyone who has heard of chiasmus is likely to think of it as no more than a piece of rhetorical playfulness at times challenging though useful for supplying a memorable sententious note or for performing a pirouette of syntax and thought Going beyond traditional rhetoric this volume is concerned with the possibility of using the figure of chiasmus to model a broad array of phenomena from human relations to artistic creation In the process it provides the first book-length study not of chiasmus the rhetorical figure but of chiasmic thought The contributors are concerned with chiasmic inversion and its place in social interactions cultural creation and more generally human thought and experience They explore from a variety of angles what the unsettling logic of chiasmus from the Greek meaning cross-wise has to tell us about the world human relations cultural

Rhetoric in the Rest of the West Shane Borrowman, Marcia

Kmetz, Robert L. Lively, 2010-04-16 While the study of the history of rhetoric has expanded to include an ever growing range of rhetorical traditions lesser known figures and under and un studied texts it has continued to exist in the hermetically sealed binary of West and Rest Rhetorical scholars have begun uncovering the many marginalized rhetorical traditions silenced by the homogenous nature of our histories themselves reading and writing new histories of the rhetorical tradition through frames from gender to geography Despite these substantial challenges to the traditionally received history of rhetoric many voices are still silenced and many spaces are still excluded voices speaking within the spaces of the less than monolithic West itself This silencing and excluding continues perhaps because of assumptions that no texts exist from these marginalized voices or that substantial rhetorical activity was not conducted in these marginalized spaces regardless of already extant evidence of rhetorical activity as diverse as rural civic ethos in Classical Greece and Etruscan influences on Roman rhetoric or long standing passive knowledge of scholarly activity in Medieval Andalusia and Ireland Rhetoric in the Rest of the West attempts to expand the conversation in those gaps in the history of rhetoric by examining the traditions that lost the cultural competition and have been shrouded in the shadow of the rhetorical tradition

Women, Imagination

and the Search for Truth in Early Modern France Rebecca M. Wilkin, 2016-12-05 Grounded in medical juridical and philosophical texts of sixteenth and seventeenth century France this innovative study tells the story of how the idea of woman contributed to the emergence of modern science Rebecca Wilkin focuses on the contradictory representations of women from roughly the middle of the sixteenth century to the middle of the seventeenth and depicts this period as one filled with epistemological anxiety and experimentation She shows how skeptics including Montaigne Marie de Gournay and Agrippa von Nettesheim subverted gender hierarchies and or blurred gender difference as a means of questioning the human capacity to find truth while positivists who strove to establish new standards of truth for example Johann Weyer Jean Bodin and Guillaume du Vair excluded women from the search for truth The book constitutes a reevaluation of the legacy of Cartesianism for women as Wilkin argues that Descartes opening of the search for truth even to women was part of his appropriation of skeptical arguments This book challenges scholars to revise deeply held notions regarding the place of women in the early modern search for truth their role in the development of rational thought and the way in which intellectuals of the period dealt with the emergence of an influential female public

Women and the Book Trade in

Sixteenth-Century France Susan Broomhall, 2018-11-07 Focusing on the vastly understudied area of how women participated in the book trades not just as authors but also as patrons copyists illuminators publishers editors and readers **Women and the Book Trade in Sixteenth Century France** foregrounds contributions made by women during a period of profound

transformation in the modes and understanding of publication Broomhall asks whether women's experiences as authors changed when manuscript circulation gave way to the printed book as a standard form of publication Innovatively she broadens the concept of publication to include methods of scribal publication through the circulation and presentation of manuscripts and expands notions of authorship to incorporate a wide sample group of female writers and publishing experiences She challenges the existing view that manuscript offered a safe means of semi public exposure for female authors and explores its continuing presence after the introduction of print The study introduces a wide and rich range of unexamined sources on early modern women using an extensive range of manuscripts and the entire corpus of women's printed texts in sixteenth century France Most of the original texts uncovered during the author's own extensive archival and bibliographical research have never been re published in modern French Most of the citations from them are here translated into English for the first time The work presents the only checklist of all known women's writings in printed texts from prefaces and laudatory verse to editions of prose and poetry between 1488 and 1599 Women and the Book Trade in Sixteenth Century France constitutes the most comprehensive assessment of women's contribution to contemporary publishing yet available Broomhall's innovative approach and her conclusions have relevance not only for book historians and French historians but for a broad range of scholars who work with other European literatures and histories as well as women's studies

Urban Poetics in the French Renaissance Elisabeth Hodges, 2016-12-05 The city view forms the jumping off point for this innovative study which explores how the concept of the city relates to the idea of the self in early modern French narratives At a time when print culture cartography and literature emerged and developed together the city view a picture or topographic image of a city became one of the most distinctive and popular products of the early modern period Through a construct she calls urban poetics Elisabeth Hodges draws out the relationship between the city and the self showing the impact of the city in cultural production to be so profound that it cannot be extricated from what we know by the name of subjectivity Each chapter of the book brings focus to a crucial text that features descriptions of the self in the city by the writers Villon Corrozet Scève and Montaigne and investigate how representations of urban experience prepared the way for the emergence of the autonomous subject Charting a course between cartography literary studies and cultural history this study opens new vistas on some of the period's defining problems the book the subject the city
