Zoo Studies Tracy McDonald, Daniel Vandersommers, 2019-06-19 Do both the zoo and the mental hospital induce psychosis as humans are treated as animals and animals are treated as humans How have we looked at animals in the past and how do we look at them today How have zoos presented themselves and their purpose over time In response to the emergence of environmental and animal studies anthropologists sociologists philosophers theorists literature scholars and historians around the world have begun to explore the significance of zoological parks past and present Zoo Studies considers the modern zoo from a range of approaches and disciplines united in a desire to blur the boundaries between human and nonhuman animals The volume begins with an account of the first modern mental hospital La Salpêtrière established in 1656 and the first panoptical zoo the menagerie at Versailles created in 1662 by the same royal architect the final chapter presents a choreographic performance that imagines the Toronto Zoo as a place where the human body can be inspired by animal bodies From beginning to end through interdisciplinary collaboration this volume decentres the human subject and offers alternative ways of thinking about zoos and their inhabitants This collection immerses readers in the lives of animals and their experiences of captivity and asks us to reflect on our own assumptions about both humans and animals An original and groundbreaking work Zoo Studies will change the way readers see nonhuman animals and themselves

Why Do We Go to the Zoo? Erik A. Garrett, 2013-12-05

Despite hundreds of millions of visitors each year zoos have remained outside of the realm of philosophical analysis. This lack of theoretical examination is interesting considering the paradoxical position within which a zoo is situated being a space of animal confinement as well as a site that provides valuable tools for species conservation, public education and entertainment. *Why Do We Go to the Zoo* argues that the zoo is a legitimate space of academic inquiry. The modes of communication taking place at the zoo that keep drawing us back time and time again beg for a careful investigation. In this book the meaning of the zoo as communicative space is explored. This book relies on the phenomenological method from Edmund Husserl and a rhetorical approach to examine the interaction between people and animals in the zoo space. Phenomenology, the philosophy of examining the engaged everyday lived experience is a natural method to use in the project. Despite its rich history and tradition it is interesting that there are very few books explaining how to do phenomenology. *Why Do We Go to the Zoo* provides a detailed account of how to actually conduct a phenomenological analysis. The author spent thousands of hours in zoos watching people and animals interact as well as talking with people both formally and informally. This book asks readers to bracket their preconceptions of what goes on in the zoo and instead to explore the meaning of powerful zoo experiences while reminding us of the troubled history of zoos.
