The Six Days of Creation Tayler Lewis,2015-07-09 Excerpt from The Six Days of Creation Or the Scriptural Cosmology With the Ancient Idea of Time Worlds in Distinction From Worlds in Space Creation in its six timed aspect has lately called forth several able and valuable works Almost all of these may be said to view the subject from what may be called the scientific side Their object is to reconcile in some way the statements in Genesis with an assumed scientific scheme Hence even the theologians among them are content with what may be deemed a possible interpretation Their argument runs thus The Bible may have this sense it must have this sense to be consistent with acknowledged science and therefore on the principle that all truth must be consistent with other truth it actually has this sense The reasoning is correct the conclusion comes logically from the premises but it is not satisfactory because it is felt to rest not primarily but only subordinately on the Bible itself The author thinks that he can truly claim that this is the first attempt to discuss the whole question at any length from the Scriptural or philological side About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Creation and the End of Days** Academy for Jewish Philosophy (U.S.). it An investigation into the spelling of Ancient Hebrew words used in the Creation Story will not only reveal many things that have long been ignored by Christians and Jews but will also dismiss or destroy many preconceived Judeo Christian notions In any language other than Ancient Hebrew the Creation Story appears as a ridiculously naive hopelessly silly and utterly unbelievable fairy tale There are several valid reasons for this however and the eclectic Hebrew words of the Creation Story along with the spelling of those words can reveal to any interested soul the labor intensive production and perfection of God s Great Pleasure which is God s Great Vision and Masterpiece Christ in us Centered around the recorded words of the Hebrew Creation Story this book addresses many previously unanswered or unsatisfactorily answered questions about seemingly illogical recorded biblical events such as how it came to be that God made the Sun and stars a day after He made fruit trees and green plants Also why did Jesus of Nazareth declare that the stars shall fall from the sky For even as He already then knew stars are millions of times more massive than the Earth Each has its own destiny and journeys along its own inertia and gravity enforced path Many such mysteries are answered in this 3 part series Always remember too dear hearts that every pertinent Bible question or mystery has its own answer buried beneath the trees of Eden that is hidden in the passages of the Scriptures In our journey through the biblically recorded historical events of SPACE TIME we who will objectively inquire into the messages of what Christ calls the Father s Hidden Manna must also consider the possibility that death stalked our planet even billions of years before Adam brought sin and death into the world And that brings forth another great mystery If God indeed made dinosaurs even many eons before He made man why did He What was the purpose of those giant beasts that roamed the ancient world We must expect that they would have been very beneficial even paving the way for those creative steps following their extended rule over the Earth because the Creator is both methodical and logical The answer to that mystery is revealed in Part I of this series of essays Those are but a few of the many Mysteries of the Kingdom of God addressed in this book which uses the Hebrew and Greek Scriptures to explore and explain many misperceptions and crazyisms that give birth to rigid misinformed and unscientific Christian Dark Ages kinds of creationist theories Because translating languages involves interpretation of intent and insinuation from one tongue into another we have become very familiar with this phrase Lost in Translation All who speak or have studied several languages can readily understand the great difficulty encountered in translating ethnically culturally and environmentally derived words phrases and idioms into another even closely related tongue even from the Hebrew of Israel into his brother s tongue Arabic For languages and dialects are the distinctive reflections of the ethnic and cultural minds of those people who cultivate speak and continually modify them These essays do not at all support speed reading For this document is neither a Bible reference book nor a shallow novel Reading these irreligious essays you shall very soon come to understand not only why they are impossible to speed read but also what makes each and every one of them very controversial This book the first of three volumes is not for lazy souls Rather it is for those who long to behold to explore and to understand the deepest most profound and previously
