Earth Mind, Earth Memories R. T. Jameson, 2008-05-26 R T Jameson was born in Indiana in 1961 and has been raised in Phoenix Arizona He was raised in a church environment through his childhood and teen years but always had a passion for the mysterious and paranormal studying phenomena since ten years old Jameson didnt really start looking for the answers until the devastating and untimely death of his father Since then he has managed to lift the veil on organized religion the global political community of the elite secret government organizations and their operations and how to break free from it all **Edge of the Sacred - Jung, Psyche, Earth** David Tacey, Does earth have spirit or soul This is a question being asked ever more frequently especially by those interested in the future of the natural world and the development of consciousness The alchemists said the greater part of the soul is outside the body and indigenous cultures have felt that soul or spirit resides in Nature and the physical environment Such notions have been dismissed by modernity as illusions but we are beginning to have second thoughts about the animation of the earth Science and rationality have not taught us how to love or care for the earth and in the modern era the environment has been disrespected The mythic bonds to Nature such as those found in Aboriginal Australian cultures appear to have real survival value because they bind us to the earth in a meaningful way When these bonds are destroyed by excessive rationality or a collapse of cultural mythology we are left alone outside the community of Nature and in an alienated state In this state we do real damage to the environment because it is no longer
