Mysterious Skin Scott Heim, 2009-03-17 A disturbing incident sends two young boys down vastly different paths that reunite ten years later in this impressive debut novel Publishers Weekly At the age of eight Brian Lackey is found bleeding under the crawl space of his house having endured something so traumatic that he cannot remember an entire five hour period of time During the following years he slowly recalls details from that night but these fragments are not enough to explain what happened to him and he begins to believe that he may have been the victim of an alien encounter Neil McCormick is fully aware of the events from that summer of 1981 Wise beyond his years curious about his developing sexuality Neil found what he perceived to be love and guidance from his baseball coach Now ten years later he is a teenage hustler unaware of the dangerous path his life is taking His recklessness is governed by idealized memories of his coach memories that unexpectedly change when Brian comes to Neil for help and ultimately the truth *Mysterious Skin* Santiago Fouz-Hernández, 2009-03-30 Borrowing its title from Gregg Araki's 2005 film in which the camera's contemplation of the male body encourages us to feel that body and covering a broad span of subjects and films *Mysterious Skin* offers a wider more representative picture of the depiction of the male body in contemporary world cinemas than has hitherto been attempted An international array of major experts explore the treatment of masculinity and the male body in the cinemas of Africa Australia China France Germany Great Britain India North America Spain Taiwan and Vietnam as well as Hollywood Their common concern is to reveal how the representation of the male body is used in films to convey a country's anxieties about its national identity and history as well as how it engages with questions of racial sexual or gender politics They discuss key actors directors and films of these countries from Ewan MacGregor in Peter Greenaway's *The Pillow Book* through the films of Wong Kar Wai to Paul Hogan as Mick Dundee in *Crocodile Dundee* In so doing *Mysterious Skin* also provides a strong overview of important cinema produced around the world in the last twenty years Mysterious Skin Scott Heim, 2011 **Mysterious Skin** Scott Heim, 2006 MYSTERIOUS Skin, 2005 Appetites and Anxieties Cynthia Baron, Diane Carson, Mark Bernard, 2012-11-01 Employs the foodways paradigm to analyze the ideological dimensions of food imagery and food behavior in fiction and documentary films Cinema is a mosaic of memorable food scenes Detectives drink alone Gangsters talk with their mouths full Families around the world argue at dinner Food documentaries challenge popular consumption centered visions In *Appetites and Anxieties* Food Film and the Politics of Representation authors Cynthia Baron Diane Carson and Mark Bernard use a foodways paradigm drawn from the fields of folklore and cultural anthropology to illuminate film's cultural and material politics In looking at how films do and do not represent food procurement preparation presentation consumption clean up and disposal the authors bring the pleasures dangers and implications of consumption to center stage In nine chapters Baron Carson and Bernard consider food in fiction films and documentaries from both American and international cinema The first chapter examines film practice from the foodways perspective supplying a

foundation for the collection of case studies that follow Chapter 2 takes a political economy approach as it examines the food industry and the film industry's policies that determine representations of food in film In chapter 3 the authors explore food and food interactions as a means for creating community in Bagdad Caf while in chapter 4 they take a close look at 301 302 in which food is used to mount social critique Chapter 5 focuses on cannibal films showing how the foodways paradigm unlocks the implications of films that dramatize one of society's greatest food taboos In chapter 6 the authors demonstrate ways that insights generated by the foodways lens can enrich genre and auteur studies Chapter 7 considers documentaries about food and water resources while chapter 8 examines food documentaries that slip through the cracks of film censorship by going into exhibition without an MPAA rating Finally in chapter 9 the authors study films from several national cinemas to explore the intersection of food gender and ethnicity Four appendices provide insights from a food stylist a selected filmography of fiction films and a filmography of documentaries that feature foodways components and a list of selected works in food and cultural studies Scholars of film studies and food studies will enjoy the thought provoking analysis of Appetites and Anxieties

Lewis H. Morgan on Iroquois Material Culture Elisabeth Tooker,2022-08-09 Lewis Henry Morgan s mid nineteenth century assemblage of Iroquois made artifacts featured more than 500 objects and at the time was the largest such collection for a single Indian group In this richly illustrated volume Elisabeth Tooker has brought together much previously unpublished material not only to show how Morgan managed such an impressive feat of scholarship but also to reveal something of his too often neglected research methods *Freudian Fadeout* Arij Ouweneel,2012-08-13 In Western culture the psychoanalysis that has guided popular psychology for almost a century is now on the retreat Better equipped with proven results cognitive and evolutionary psychology has driven psychoanalysis out of the spotlight In cultural and film studies however the debate between cognitive sciences and psychoanalysis remains contentious This volume explores this state of things by examining criticism of 18 films juxtaposing them with cognitive based films to reveal the flaws in the psychoanalytical concepts It pays particular attention to simulation theory the concept that narratives learned from films could work in human minds as simulations for solutions to particular problems By introducing the idea of narrative stimulation to film studies this work argues for a different method of film critique encouraging further research into this nascent field **The Language of the Mississaga Indians of Skūgog** Alexander Francis Chamberlain,1892 **World Religions for Healthcare Professionals** ,2009-09-10 World Religions for Healthcare Professionals provides healthcare professionals with a basic knowledge of health beliefs and practices in world religions such as American Indian Religions

Hurst,2015-11-01 Versatile trendy and resilient the global cosmetic surgery industry shows no signs of decline especially with its promises not just of aesthetic improvement but of absolute transformation Introducing the concept of surface imagination Rachel Hurst discusses the fantasy that a change to the exterior will enhance the interior or that the outside is more significant because it fashions the inside Drawing on psychoanalysis feminist theory popular culture the history of medicine and interviews with women who have undergone cosmetic procedures Hurst explores the tensions between the two primary surfaces of cosmetic surgery the photograph and the skin The photograph an idealized surface for envisioning the effects of cosmetic surgery allows for speculation and retouching predictably and without pain The skin on the other hand is a recalcitrant surface that records the passage of time and heals unpredictably Ultimately Hurst argues the fantasy of surface imagination corroborates the belief that one s body is mutable and controllable and that control over one s body permits control over one s social emotional and mental suffering Acknowledging the varied experiences and opinions of the patients interviewed but also critiquing the promises made by the industry Surface Imaginations develops an innovative approach to thinking about cosmetic surgical transformations through the seduction of surfaces     The Oxford Handbook of Queer Cinema Ronald Gregg,Amy Villarejo,2021-11-12

The term queer cinema is often used to name at least three cultural events 1 an emergent visual culture that boldly identifies as queer 2 a body of narrative documentary and experimental work previously collated under the rubric of homosexual or lesbian gay bisexual and trans LGBT cinema 3 a means of critically reading and evaluating films and other visual media through the lens of sexuality By this expansive account queer cinema encompasses more than a century of filmmaking film criticism and film reception and the past twenty five years have seen the idea of queer cinema expand further as a descriptor for a global arts practice As the first of its kind The Oxford Handbook of Queer Cinema treats these three currents as art and critical practice bringing the canon of queer cinema together with a new generation of makers and scholars The Handbook s contributors include scholars who research the worldwide canon of queer cinema those who are uniquely positioned to address three decades of its particular importance and those best positioned to ponder the forms it is taking or may take in our new century namely digital media that moves in new circuits In eight sections they explore the many forms that queer cinema takes across time discussing narrative experimental

documentary and genre filmmaking including pornography Likewise although the study of cinema and media is not restricted to a single method chapters showcase the unique combination of textual analysis industrial and production history interpretation ethnography and archival research that this field enables For example chapters analyze the ways in which queer cinema both is and is not self evidently an object for study by examining films that reinforce negative understandings of queerness alongside those that liberate the subject and by naming the films that are newly queered while noting that many queerly made texts await discovery Finally chapters necessarily assert that queer cinema is not an Anglophone phenomenon nor is it restricted to the medium of film
