**On the Origin of Consciousness** Scott D. G. Ventureyra,2018-11-29 Have you ever thought about how self consciousness self awareness originated in the universe Understanding consciousness is one of the toughest nuts to crack In recent years scientists and philosophers have attempted to provide an answer to this mystery The reason for this is simply because it cannot be confined to solely a materialistic interpretation of the world Some scientific materialists have suggested that consciousness is merely an illusion in order to insulate their worldviews Yet consciousness is the most fundamental thing we know even more so than the external world since we require it to perceive or think about anything Without it reasoning would be impossible Dr Scott Ventureyra in this ground breaking book explores the idea of the Christian God and Creation in order to tackle this most difficult question He demonstrates that theology has something significant to offer in reflection of how consciousness originated in the universe He also makes a modest claim that the Christian conception of God and Creation provide a plausible account for the origin of self consciousness He integrates philosophy theology and science in an innovative way to embark on this exploration

**Revelation in a Pluralistic World** Louis Roy,2022-08-25 Since the Enlightenment the churches have progressively suffered a severe loss of status because of their belief that revelation is realized only in Christianity The suggestion that Christian revelation might be truer than other so called revelations seems to be preposterous This book argues that this insistence has often remained unnuanced and simplistic with the consequence that not only unbelievers as well as believers of other religions but even numerous Christians no longer agree with the primacy of a truth revealed in Jesus Christ The book addresses the difficulties affecting the interpretation of belief given modernity s concerns The volume sets out a provisional synthesis on revelation and it makes available much expository and historical information It correlates distinctions between pair members such as the natural and the supernatural conceptualism and intellectualism heart and reason subjectivity and objectivity limited perspective and universal viewpoint permanence of doctrine and historicity Christian and non Christian claims regarding truth revelation and

divine speech moderate and radical pluralism Jesus absolutized and Jesus relativized The thrust of the argument is towards an appropriation of what is best in ancient medieval and modern traditions on revelation This book delineates in an original way a position on revelation that is at once traditional and relevant for today It accepts many values brought to the fore by modernity and draws from exegetes historians philosophers and theologians Its inspiration comes principally from the Bible Thomas Aquinas John Henry Newman and Bernard Lonergan

**The Ocean of God** Roland Faber, 2019-06-29 The Ocean of God conveys the proposition that the future of religions if they will not want to contribute to the destruction of humanity will become transreligious Based on the assumption that the spiritual impulse of humanity cannot simply be eradicated religiosity will persist in transreligious forms as secularizations naturalizations and

transhumanist dreams only envision such transformations but fall short in their ability to replace the force of spirituality to further civilized peace of human existence on Earth and its future in evolutionary ecological and cosmological dimensions In relating the contributions of religious pluralism to the concept of the unity of religions which have arisen in this new axial age for overcoming the checkered history of religions in furthering peace the program of a polyphilic pluralism with its transreligious discourse based on the insight of the fundamental relativity of religious truth and the special contributions of process philosophy and theology as well as the Bah universe of thought analyses and projects a new religiosity or spirit enabling religions to overcome their deepest motives of strife and warfare

**The Cosmic Breath** Amos Yong, 2012-05-10 Recent thinking in the interfaith dialogue and in the theology science dialogue have taken a pneumatological turn The Cosmic Breath explores this pneumatological theology as unfolded in the Christian Buddhist dialogue alongside critical interaction with the theology and science conversation As an attempt in comparative and constructive Christian philosophical theology its central thesis is that a pneumatological approach to Buddhist traditions in further dialogue with modern science generates new philosophical resources that invigorate Christian thinking about the natural world and humanity's place in it The result is a transformation of the Buddhist Christian dialogue from insights generated in the theology and science interface and a contribution to the religion and science dialogue from a comparative theological and philosophical perspective

Near-Death Experiences Ornella Corazza,2008-06-30 Near death experiences fascinate everyone from theologians to sociologists and neuroscientists This groundbreaking book introduces the phenomenon of NDEs their personal impact and the dominant scientific explanations Taking a strikingly original cross cultural approach and incorporating new medical research it combines new theories of mind and body with contemporary research into how the brain functions Ornella Corazza analyses dualist models of mind and body discussing the main features of NDEs as reported by many people who

have experienced them She studies the use of ketamine to reveal how characteristics of NDEs can be chemically induced without being close to death This evidence challenges the conventional survivalist hypothesis according to which the near death experience is a proof of the existence of an afterlife This remarkable book concludes that we need to move towards a more integrated view of embodiment in order to understand what human life is and also what it can be Ornella Corazza is a NDE researcher at the School of Oriental and African Studies SOAS University of London In 2004 5 she was a Member of the 21st Century Centre of Excellence COE Program on the Construction of Death and Life Studies at the University of Tokyo

The Emptied Christ of Philippians John P. Keenan, 2015-12-15 Before the Gospels were written long before the creeds of the Church were hammered out Christ followers in Philippi sang a hymn of the Christ who although he was in the form of God emptied himself taking the form of a slave being born as are all humans But this emptied Christ never fit neatly into later theologies of the church shaped by Greek thought concerned with being and essence In Philippians Paul struggles stumbling over his own awkward words to express his hope his eschatological faith that he might gain Christ and be found in him and participate in his sufferings by being conformed to his death if in some way I may reach to what goes beyond the resurrection from the dead Might we better comprehend Paul's inchoate even mystical faith in Jesus Christ with aid from a less empirical world of thought than our western heritage offers Might the thinking of Mahatma over a y set over a na Buddhism guide us toward an awareness of a truth in the Christian faith that is more profound than anything reducible to historical facts or even to human language
