Hellenism and the Primary History Robert Karl Gnuse,2020-09-30 This collection of essays seeks to demonstrate that

many biblical authors deliberately used Classical and Hellenistic Greek texts for inspiration when crafting many of the narratives in the Primary History Through detailed analysis of the text Gnuse contends that there are numerous examples of clear influence from late classical and Hellenistic literature Deconstructing the biblical and Greek works in parallel he argues that there are too many similarities in basic theme meaning and detail for them to be accounted for by coincidence or shared ancient tropes Using this evidence he suggests that although much of the text may originate from the Persian period large parts of its final form likely date from the Hellenistic era With the help of an original introduction and final chapter Gnuse pulls his essays together into a coherent collection for the first time The resultant volume offers a valuable resource for anyone working on the dating of the Hebrew Bible as well as those working on Hellenism in the ancient Levant more broadly
