Mythic Masks In Self Reflexive Poetry A Study Of Pan And Orpheus:

Mythic Masks in Self-reflexive Poetry Dorothy Zayatz Baker, 1982 *Mythic Masks in Self-reflexive Poetry* Dorothy Zayatz Baker, 1986 **Ancient Greek Myth in Modern Greek Poetry** Peter Mackridge, 2023-03-31 Originally published in 1996 this volume contains essays by scholars critics and translators and includes themes such as the myth in the Cretan Renaissance and the use of ancient myth by 19th and 20th Century poets Some essays deal with individual mythical figures such as Odysseus Orpheus Prometheus and Aphrodite while others deal with the problematic issue of the use of myth by Greek women poets The discussion is completed by comparing attitudes to the ancient Greeks as embodied in English and modern Greek poetry **Theory into Poetry** , 2022-05-20 At the beginning of the 21st century there is still no generally accepted comprehensive definition of the lyric or differentiated modern toolkit for its analysis The reception of poetry is largely characterised either by an empathetic identification of critics with the lyric persona or by exclusive interest in formal patterning The present volume seeks to remedy this deficit All the contributors theorise the lyric to overcome the impasse of an impressionistic and narrowly formalistic critical debate on the genre Their papers focus on a variety of different questions the problem of establishing a framework for definition and classification the search for dynamic and potent critical approaches investigations of poetry s cultural performance and its fundamental relevance for the construction of group cohesion The essays collected in this volume offer a consciously polyphonic range of theories and interpretations suggesting to the reader a variety of theoretical frameworks and practical illustrations of how a discussion of poetry may be firmly grounded in modern literary theory *Listening to the Sirens* Judith Perraino, 2006 Judith Perraino investigates how music has been used throughout history to call into question norms of gender and sexuality Beginning with an examination of the mythology surrounding the Sirens she goes on to consider musical creatures gods humans and music addled listeners *Metareference across Media: Theory and Case Studies* , 2009-01-01 Strange as it may seem Cervantes s novel Don Quixote Marc Forster s film Stranger than Fiction Shakespeare s play A Midsummer Night s Dream Pere Borrell del Caso s painting Escaping Criticism reproduced on the cover of the present volume and Mozart s sextet A Musical Joke all share one common feature they include a meta dimension Metaization the movement from a first cognitive referential or communicative level to a higher one on which first level phenomena self reflexively become objects of reflection reference and communication in their own right is in fact a common feature not only of human thought and language but also of the arts and media in general However research into this issue has so far predominantly focussed on literature where a highly differentiated albeit strictly monomedial critical toolbox exists Metareference across Media remedies this onesidedness and closes the gap between literature and other media by providing a transmedial framework for analysing metaphenomena The essays transcend the current notion of metafiction pinpoint examples of metareference in hitherto neglected areas discuss the capacity for metaization of individual media or genres from a media comparative perspective and explore major historical

forms and functions as well as aspects of the development of metaization in cultural history. Stemming from diverse disciplinary and methodological backgrounds, the contributors propose new and refined concepts and models and cover a broad range of media including fiction, drama, poetry, comics, photography, film, computer games, classical as well as popular music, painting, and architecture. This collection of essays, which also contains a detailed theoretical introduction, will be relevant to students and scholars from a wide variety of fields: intermediality studies, semiotics, literary theory and criticism, musicology, art history, and film studies.

The Poetics of Myth Eleazar M. Meletinsky, 2014-01-21. First Published in 1998. Routledge is an imprint of Taylor & Francis, an informa company.

The Poem and the Garden in Early Modern England Deborah Solomon, 2022-12-30. This book draws attention to the pervasive artistic rivalry between Elizabethan poetry and gardens in order to illustrate the benefits of a trans-media approach to the literary culture of the period. In its blending of textual studies with discussions of specific historical patches of earth, *The Poem and the Garden* demonstrates how the fashions that drove poetic invention were as likely to be influenced by a popular print convention or a particular garden experience as they were by the formal genres of the classical poets. By moving beyond a strictly verbal approach in its analysis of creative imitation, this volume offers new ways of appreciating the kinds of comparative and competitive methods that shaped early modern poetics. Noting shared patterns both conceptual and material in these two areas not only helps explain the persistence of botanical metaphors in sixteenth-century books of poetry but also offers a new perspective on the types of contrastive illusions that distinguish the Elizabethan aesthetic. With its interdisciplinary approach, *The Poem and the Garden* is of interest to all students and scholars who study early modern poetics, book history, and garden studies.

Refashioning Myth David McInnis, Eric Parisot, Jessica Wilkinson, 2020-05-15. Robert Graves tells us that the poet's first enrichment is a knowledge and understanding of myths. Certainly, as this collection of essays, poems, and visual images affirms, mythology has been a field richly mined by poets and artists from antiquity through to the present day. It is testament to both the enduring power of myth as well as the adaptability of its form that poets and writers continually turn to the mythic for both inspiration and guidance. This volume presents a diverse collection of analytical and creative works by scholars, poets, and visual artists in response to their varied explorations of the prolific dialogue that exists between myth and poetry.

Twentieth-Century Metapoetry and the Lyric Tradition Daniella Jancsó, 2019-02-19. *Twentieth-Century Metapoetry and the Lyric Tradition* reveals the unique value of metapoems for exploring twentieth-century poetry. By placing these texts into a hitherto barely investigated literary-historical perspective, it demonstrates that modern metapoetry is steeped in the lyric tradition to a much greater extent than previously acknowledged. Since these literary continuities that cut across epochal boundaries can be traced across all major poetic movements, they challenge established accounts of the history of twentieth-century poetry that postulate a radical break with the immediate past. Moreover, the finding that metapoems perpetuate traditional forms and topoi distinguishes metapoetry historically and systematically from metafiction and metadrama. After highlighting the most

important differences as regards to the function of metareference in poetry on the one side and in fiction and drama on the other the book concludes with a discussion of how to account for these generic differences theoretically With its extraordinarily subtle and perceptive Ronald Bush St John s College Oxford interpretive readings of over one hundred metapoems by canonical anglophone authors it offers the first representative selection of twentieth century poems about poetry in English

Under the Spell of Orpheus Judith E. Bernstock,1991 This comprehensive view of the Orpheus myth in modern art focuses on an extremely rich artistic symbol and cuts through all the clichés to explore truly significant problems of meaning The author takes a new approach to the iconography of major modern artists by incorporating psychological and literary analysis as well as biography The three parts of the book explore the ways in which artists have identified with different aspects of the often paradoxical Orpheus myth The first deals with artists such as Paul Klee Carl Milles and Barbara Hepworth In the second Max Beckmann Oskar Kokoschka and Isamu Noguchi are discussed Artists examined in the final part include Pablo Picasso Jacques Lipchitz Ethel Schwabacher and Cy Twombly The author documents her argument with more than sixty illustrations

Metapoesis in the Arabic Tradition Huda J. Fakhreddine,2015-07-28 In Metapoesis in the Arabic Tradition Huda J Fakhreddine expands the study of metapoesis to include the Abbasid age in Arabic literature Through this lens that is often used to study modernist poetry of the 20th and the 21st century this book detects and examines a meta poetic tendency and a self reflexive attitude in the poetry of the first century of Abbasid poets What and why is poetry are questions the Abbasid poets asked themselves with the same persistence and urgency their modern successor did This approach to the poetry of the Abbasid age serves to refresh our sense of what is modernist or poetically new and detach it from chronology

Tsvetaeva's Orphic Journeys in the Worlds of the Word Olga Peters Hasty,1996 Tsvetaeva s Orphic Journeys in the Worlds of the Word explores the rich theme of the myth of Orpheus as master narrative for poetic inspiration and creative survival in the life and work of Marina Tsvetaeva Olga Peters Hasty establishes the basic themes of the Orphic Complex the poet s longing to mediate between the embodied physical world and an elsewhere the poet s inability to do so the primacy of the voice over the visual world the insistence on concrete imagery the costs of the poet s gift and orders her arguments in the tragic shape of the Orpheus myth as it worked itself out organically in Tsvetaeva s own life Hasty delineates the connections between the Orpheus myth and other key mythological and literary figures in the poet s life including Alexander Blok Anna Akhmatova Alexander Pushkin and Rainer Maria Rilke to make an important and original critical contribution

Thinking in Search of a Language Herwig Friedl,2018-09-20 Thinking in Search of a Language explores American literary and philosophical traditions and their intimate connections by focusing on two defining strands in the intellectual history of the United States The first half of the book offers a multifaceted interpretation of Emerson s constantly shifting early modernist thought I liked everything by turns and nothing long he said memorably and its legacy in American writing The second half turns to the modernists themselves and the pluralistic and radical empiricist ways in which

they engaged the world philosophically Herwig Friedl's broad and deep examination of American thought which also incorporates the international context and response illuminates the global significance of the American intellectual tradition Tying together all of these essays is the persistent question and problem of an adequate language or terminological framework as one kind of interpretive leitmotif This reflects the fact that Friedl's sensibility is steeped in a cross pollination of continental and American thought a combination that recalls and is as revelatory as the work of Stanley Cavell

Magician of Sound Jessie Fillerup, 2021-04-20 French composer Maurice Ravel was described by critics as a magician conjurer and illusionist Scholars have been aware of this historical curiosity but none so far have explained why Ravel attracted such critiques or what they might tell us about how to interpret his music *Magician of Sound* examines Ravel's music through the lens of illusory experience considering how timbre orchestral effects figure ground relationships and impressions of motion and stasis might be experienced as if they were conjuring tricks Applying concepts from music theory psychology philosophy and the history of magic Jessie Fillerup develops an approach to musical illusion that newly illuminates Ravel's fascination with machines and creates compelling links between his music and other forms of aesthetic illusion from painting and poetry to fiction and phantasmagoria Fillerup analyzes scenes of enchantment and illusory effects in Ravel's most popular works including Bolero La Valse Daphnis et Chloé and Rapsodie espagnole relating his methods and musical effects to the practice of theatrical conjurers Drawing on a rich well of primary sources *Magician of Sound* provides a new interdisciplinary framework for interpreting this enigmatic composer linking magic and music

The Music of John Ireland Fiona Richards, 2017-11-28 This title was first published in 2000 John Ireland 1879-1962 was as elusive as the music that he composed His music resists easy categorization in part because it is linked so closely to specific events places and people in Ireland's personal life *The Music of John Ireland* explores the expressive and extramusical qualities of Ireland's compositions and their complex system of personal musical symbols images and ideas Fiona Richards interweaves biography and musical analysis in a series of chapters which take their themes from the significant influences in Ireland's life Anglo-Catholicism paganism the countryside the city love and war Ireland emerges as highly individual struggling with his religious beliefs his sexuality and an uncertainty as to his success His music often an expression of a state of mind is given for the first time the close investigation that it merits Ireland preferred to compose on a small scale showing a masterful command of form and a gift for melody Richards reveals how the essence of the man shines through in the miniatures that he wrote

Emblems of Eloquence Wendy Heller, 2004-01-12 Opera developed during a time when the position of women their rights and freedoms their virtues and vices and even the most basic substance of their sexuality was constantly debated Many of these controversies manifested themselves in the representation of the historical and mythological women whose voices were heard on the Venetian operatic stage Drawing upon a complex web of early modern sources and ancient texts this engaging study is the first comprehensive treatment of women gender and sexuality in seventeenth century opera Wendy Heller

explores the operatic manifestations of female chastity power transvestism androgyny and desire showing how the emerging genre was shaped by and infused with the Republic's taste for the erotic and its ambivalent attitudes toward women and sexuality Heller begins by examining contemporary Venetian writings about gender and sexuality that influenced the development of female vocality in opera The Venetian reception and transformation of ancient texts by Ovid Virgil Tacitus and Diodorus Siculus form the background for her penetrating analyses of the musical and dramatic representation of five extraordinary women as presented in operas by Claudio Monteverdi Francesco Cavalli and their successors in Venice Dido queen of Carthage Cavalli Octavia wife of Nero Monteverdi the nymph Callisto Cavalli Queen Semiramis of Assyria Pietro Andrea Ziani and Messalina wife of Claudius Carlo Pallavicino

Self-Reference S.J. Bartlett, P. Suber, 2012-12-06 Self reference although a topic studied by some philosophers and known to a number of other disciplines has received comparatively little explicit attention For the most part the focus of studies of self reference has been on its logical and linguistic aspects with perhaps disproportionate emphasis placed on the reflexive paradoxes The eight volume Macmillan Encyclopedia of Philosophy for example does not contain a single entry in its index under self reference and in connection with reflexivity mentions only relations classes and sets Yet in this volume the introductory essay identifies some 75 varieties and occurrences of self reference in a wide range of disciplines and the bibliography contains more than 1 200 citations to English language works about reflexivity The contributed papers investigate a number of forms and applications of self reference and examine some of the challenges posed by its difficult temperament The editors hope that readers of this volume will gain a richer sense of the still largely unexplored frontiers of reflexivity and of the indispensability of reflexive concepts and methods to foundational inquiries in philosophy logic language and into the freedom personality and intelligence of persons

Recent Studies in Myths and Literature, 1970-1990 Bernard Accardi, 1991-08-14 Despite protestations to the contrary myth criticism in literature is not dead witness the well over 1000 illuminating sources published between 1970 and 1990 selected from thousands more and provided with succinct informative annotations The modern study of the relation between myths and literature began in the late 19th century with publication of James G Frazer's *The Golden Bough* and reached a high water mark with Northrop Frye's archetypal criticism beginning in the late 1950s The end of modernism proclaimed in the late 1960s seemed also to toll the death knell for myth criticism which was denigrated by some new critics of the post modernist era Instead however the authors here have found a wealth of recent materials some proceeding from traditional psychological or anthropological stances and others taking new directions studying relationships between myth and language and myth and history viewing myth as part of the complex fabric of fiction rather than its core and accommodating feminist theory among other approaches The variety of narratives accorded the status of myth has also prompted inquiries on mythopoesis or the literary creation of myth The opening chapter surveys work done on the mythic or archetypal approach in general and on such mythic figures in literature as Orpheus Oedipus Cain and

Faust the second chapter covers works on myth in classical literature and the following five chapters correspond to major periods in British and American literature Included are general studies and studies of particular authors notably among them such giants of the past as Shakespeare Milton Melville Joyce and Faulkner but also including such contemporary writers as Toni Morrison and John Updike A well constructed subject index provides access throughout to mythical figures and literary figures as well as major theories and theorists topics and themes and an author index accesses the critical studies

Versification Frog, Satu Grünthal, Kati Kallio, Jarkko Niemi, 2021-12-24 Versification describes the marriage of language and poetic form through which poetry is produced Formal principles such as metre alliteration rhyme or parallelism take precedence over syntax and prosody resulting in expressions becoming organised as verse rather than prose The aesthetic appeal of poetry is often linked to the potential for this process to seem mysterious or almost magical not to mention the interplay of particular expressions with forms and expectations The dynamics of versification thus draw a general interest for everyone from enthusiasts of poetry or forms of verbal art to researchers of folklore ethnomusicology linguistics literature philology and more The authors of the works in the present volume explore versification from a variety of angles and in diverse cultural milieus The focus is on metrics in practice meaning that the authors concentrate not so much on the analysis of the metrical systems per se as on the ways that metres are used and varied in performance by individual poets and in relationship to language
